Schwerpunkte der Literaturwissenschaft ausserhalb des deutschen Sprachraums Elrud Ibsch, 1982

Schwerpunkte der Literaturwissenschaft, 2023-11-27 Founded in 1972 this series welcomes publications that further develop the investigation of German language literature s and culture s from a transdisciplinary perspective covering the period from 1600 onwards This includes edited volumes and monographs offering state of the art research as well as new critical editions of primary sources and collections Our mission remains to publish high quality research especially new transdisciplinary approaches to German Studies Consequently the series offers a venue for exploring emerging fields of study that intersect with German cultural studies This may include but is not limited to gender and sexuality studies critical race and whiteness studies disability studies transcultural and postcolonial studies film theatre and comic studies All submissions are subject to a double anonymous peer review process prior to publication Authors are cordially invited to submit proposals for manuscripts in either German or English to the publisher at BRILL Masja Horn Please advise our Guidelines for a Book Proposal

Central and Eastern European Literary Theory and the West Michał Mrugalski, Schamma Schahadat, Irina Wutsdorff, 2022-12-05 Literary theory flourished in Central and Eastern Europe throughout the twentieth century but its relation to Western literary scholarship is complex This book sheds light on the entangled histories of exchange and influence both within the region known as Central and Eastern Europe and between the region and the West The exchange of ideas between scholars in the East and West was facilitated by both personal and institutional relations both official and informal encounters For the longest time however intellectual exchange was thwarted by political tensions that led to large parts of Central and Eastern Europe being isolated from the West A few literary theories nevertheless made it into Western scholarly discourses via exiled scholars Some of these scholars such as Mikhail Bakhtin become widely known in the West and their thought was transposed onto new Western cultural contexts others such as Olga Freidenberg were barely noticed outside of Russian and Poland This volume draws attention to the schools circles and concepts that shaped the development of theory in Central and Eastern Europe as well as the histoire crois e the history of translations transformations and migrations that conditioned its relationship with the West

Functional Approaches to Culture and Translation José

Lambert, 2006-01-01 This volume contains a generous selection of articles on translation by Professor Jos Lambert K U Leuven It traces the intellectual itinerary of their author who started out as a French and Comparative Literature scholar some four decades ago trying to get a better grip on the problem of inter literary contacts and who soon became a key figure in the emergent discipline of Translation Studies where he is widely known as an indefatigable promoter of descriptively oriented research This collection shows how Jos Lambert has never stopped asking new questions about the crucial but often hidden role of language and translation in the world of today It includes some of the author s classic papers as well as a few lesser known ones that deserve wider circulation The editors introduction and the bibliography complete this thought
