The Ambivalence of Gay Liberation Craig Griffiths, 2021-02-25 The Ambivalence of Gay Liberation explores ways of thinking feeling and talking about being gay in the 1970s an influential decade sandwiched between the partial decriminalisation of male homosexuality in 1969 and the arrival of the HIV/AIDS crisis in the early 1980s Moving beyond divided Cold War Berlin it also focuses on lesser known cities such as Aachen Cologne Frankfurt Münster and Stuttgart to name just a few of the 53 localities that were home to a gay group by the end of the 1970s These groups were important and this book tells their story In 1970s West Germany gay liberation did not take place only in activist meetings universities and on street demonstrations but also on television in magazine editorial offices ordinary homes bedrooms and beyond In considering all these spaces and individuals this book provides a more complex account than previous histories which have tended to focus only on a social movement and only on the idea of gay pride By drawing attention to ambivalence this book shows that gay liberation was never only about pride but also about shame characterized not only by hope but also by fear and driven forward not just by the pushes of confrontation but also by the pulls of conformism Ranging from the painstaking emergence of the gay press to the first representation of homosexuality on television from debates over the sexual legacy of 1968 and the student movement to the memory of Nazi persecution The Ambivalence of Gay Liberation is the first English language book to tell the story of male homosexual politics in 1970s West Germany In doing so this book changes the way we think about modern queer history

The AIDS Crisis and the Modern Self S. Rinken,2013-04-17 In industrialized countries HIV AIDS is now increasingly perceived as a chronic condition Yet initially before combination therapy became available this pandemic was widely associated with premature or even imminent death Receiving the diagnosis typically led to a dramatic biographical disruption This highly original book turns this basic feature of life with HIV into the vantage point for a fascinating analysis of Western subjectivity Combining a host of empirical observations with the debate on the modern self the author argues that the self construction of people with HIV highlights the precarious yet indispensable status of the self in contemporary Western society Constructing one s biography in terms of self actualization is in fact a manifestation of nihilism it evokes a standard of certainty which on closer examination cannot be sustained Written in a lucid style this unique book will appeal to scholars and students in the fields of sociology social psychology social anthropology social theory and philosophy as well as anybody interested in the relationship between the self and society or the experience of living with HIV AIDS Journal of Law & Social Challenges ,2002 Homosexualität_en und Alter(n) Ralf Lottmann,Rüdiger Lautmann,María do Mar Castro Varela,2016-07-25 Dieser Band liefert vielfältige Beiträge die zeigen inwiefern ein anderer Blick auf das Alter n nicht nur für lesbische Lesben und Schwule anregend sein kann Die Autor_innen diskutieren die Hetero bzw Asexualisierung des Alters u a durch Versorgungseinrichtungen und zeigen neue Wege auf wie Individualität und Vielfalt auch im Alter und in der Pflege besser berücksichtigt werden können Ziel des Sammelbandes ist es eine vertiefte Auseinandersetzung zum Thema Alter n und gleichgeschlechtliche Lebensweisen in Theorie und Praxis anzuregen Dazu werden theoretische Analysen empirische Studien als auch Beiträge aus der Praxis vorgestellt Ein Schwerpunkt hierbei sind Wohnformen für das Alter *Crimes of Hate* Phyllis B. A historical masterpiece Just when we thought we knew everything about the politics and policies of the HIV AIDS pandemic Peter Baldwin surprises us with innovative insights about the sharp differences in policy among countries as well as complex tradeoffs between civil liberties and public goods This is a refreshing and readable book in which AIDS is used as a lens to understand the public health enterprise ranging from leprosy and syphilis to tuberculosis and SARS Baldwin offers a deeply historical and comparative understanding of HIV in the industrialized world Lawrence O Gostin author of Public Health Law Power Duty Restraint Although a vast literature has emerged to chronicle and reflect on the history of the AIDS epidemic since it was first reported almost a quarter of a century ago there is nothing like Peter Baldwin's probing and synthetic analysis of AIDS in the industrialized world Building on his masterful Contagion and the State in Europe 1830-1930 Baldwin has provided a complex historical tapestry of how an epidemic threat has challenged and exposed democracies that thought infectious threats a thing of the past Ronald Bayer author of Private Acts Social Consequences Aids and the Politics Of Public Health and coauthor with Gerald Oppenheimer of AIDS Doctors Voices from the Epidemic BNA's Patent, Trademark & Copyright Journal, 1987-05 Evil after Postmodernism Jennifer Geddes, 2013-01-11 These six essays form a stimulating and lucid investigation of the meaning of evil in the light of postmodern thought and of the cultural and social changes of the modern age They consider subjects such as the war in Bosnia AIDS and the Holocaust
