the center of his philosophy was the belief that the human species is evolving spiritually progressing from a simple faith to higher and higher forms of consciousness including a consciousness of God and culminating in the ultimate understanding of humankind's place and purpose in the universe The Church which would not condone his philosophical writings refused to allow their publication during his lifetime Written over a period of thirty years and presented here in chronological order the essays cover the wide ranging interests and inquiries that engaged Teilhard de Chardin throughout his life intellectual and social evolution the coming of ultra humanity the integral place of faith in God in the advancement of science and the impact of scientific discoveries on traditional religious dogma Less formal than *The Phenomenon of Man* and *The Divine Milieu* Teilhard de Chardin's most renowned works *The Future of Man* offers a complete fully accessible look at the genesis of ideas that continue to reverberate in both the scientific and the religious communities *Christ in All Things* King, Ursula ,2016-11-17 Offering both a concise introduction to the spiritual vision of the mystic and scientist Pierre Teilhard de Chardin and a fascinating survey of contemporary themes in spirituality through a Teilhardian lens this revised edition shows how Teilhard's perception of Christ in all things was the key to his holistic vision
