Modernity and Ambivalence Zygmunt Bauman, 2013-05-08 Modern civilization Bauman argues promised to make our lives understandable and open to our control This has not happened and today we no longer believe it ever will In this book now available in paperback Bauman argues that our postmodern age is the time for reconciliation with ambivalence we must learn how to live in an incurably ambiguous world

Government and Armed Forces in Britain, 1856-1990 Paul Smith, 2010-07-15 In a period that began with Britain controlling a world wide empire and included two world wars followed by the Cold War and massive expenditure on nuclear armaments the relationship between the politicians and the generals has been central to British history While it is correctly assumed that the Armed Forces have never threatened British political stability in modern times the relationship between the military and their political masters is a major if under emphasised theme of British history While in theory the politicians decided strategy and the military implemented it in practice decisions often depended on the personalities and experience of those involved Asquith the epitome of the civilian left major strategic decisions in the hands of the military while Churchill an ex soldier and ex First Lord of the Admiralty rode roughshod over professional military advice In a period when arms before ever more technologically sophisticated there was also the problem of how far politicians could decide on strategies proposed by the military other than by the crude yardstick of cost The essays in *Government and the Armed Forces in Britain 1856 1990* provide a coherent account not only of the major decision making of warfare but also of the changes in the organisation and control of the Armed Forces
