World Development Indicators [computer File] World Bank,2004 Annotation Chapters in this book focus on the people economy environment states and markets world view and global links for 148 countries As a whole these chapters present an expanded view of the world economy Introductions highlight recent research on major development issues worldwide

World Development Report 2008 World Bank,2007 This work will focus on three themes namely identifying new sources of growth for agriculture making agriculture more effective for poverty reduction and managing the transitions that accompany the transformation of agriculture as economies develop **World Development Report 2021** World Bank,2021-07-02 The unprecedented growth of data and its ubiquity in our daily lives signal that the digital revolution is transforming the world But much of the value of data remains untapped waiting to be realized Data collected for one particular purpose has the potential to generate economic value in applications far beyond those originally anticipated However many barriers stand in the way of the beneficial reuse of data ranging from misaligned incentives and incompatible data systems to a fundamental lack of trust The World Development Report 2021 Data for Better Lives will explore the tremendous potential of the changing data landscape to improve the lives of poor people but also to open backdoors that can harm individuals businesses and societies The first part of the report assesses how better use and reuse of data can enhance the design of public policies programs and service delivery as well as improve market efficiency and job creation through

private sector growth The second part of the report focuses on issues of governance law and policy that can help realize data's potential benefits while safeguarding against harmful outcomes By examining these issues the report aims to show how data can be leveraged to benefit the lives of poor people

Rich Country Interests and Third World Development

Robert Cassen, Richard Jolly, John W. Sewell, Robert Wood, 2025-04-01 First published in 1982 Rich Country Interests and Third World Development adds breadth and specificity to the exploration of the interests in Third World development of eleven rich countries the United States Canada Japan Australia the United Kingdom the Federal Republic of Germany The Netherlands Denmark Sweden Norway and France The authors analyze a spectrum of Northern economic political and security interests in development in the South They also examine how national experiences political traditions humanistic values and changing attitudes have influenced perceptions of and relationships with Third World countries over three decades of dramatic change in the North South environment This book helps lay a foundation for negotiated solutions to North South issues by offering a greater appreciation of differences as well as commonalities in interests both among and within industrial and developing countries An overview chapter points to issues broader than those raised in the country studies and addresses a critical question On what terms is it in the interests of the North and South to pursue and fashion interdependence between them in the 1980s
