Military Law Review Volumes 1-10 Selected Reprint United States. Department of the Army, 1965 **Selected International Agreements** United States. Department of the Army, 1976 **Conservation, Biodiversity and International Law** A. Gillespie, 2013-07-01 Humanity has been gambling for generations with the extent to which it can degrade nature and continue to prosper Now the environmental debt is being called in and the ability of international diplomacy and law government policy and political will to deal with the issues is being tested Conservation Biodiversity and International Law is a must read for any practitioner in the high stakes business of restoring our ability to live in harmony with the natural world that sustains us Alastair Morrison Department of Conservation New Zealand Biodiversity is the cornerstone of life our plants animals and ecosystems are essential for livelihoods and have shaped our culture and traditions around the world However our precious biodiversity is at risk as never before Global targets to reduce biodiversity loss have not been met and we continue to lose biodiversity at an unprecedented rate In fact we are currently in the middle of an extinction crisis and scientists have advised that one species from our planet is being lost every 38 minutes The nature of this crisis and the actions taken to address it are clearly and articulately put forward in this landmark book by Professor Al

Gillespie This book is particularly useful in documenting the many policy and legal actions that have been taken to address these issues and how the application of these instruments can be improved Although focused on the law the book covers a range of disciplines including science philosophy and policy which lay the foundation for international law This book makes a major and highly valued contribution to the discipline of environmental law and policy and is an invaluable reference for policy makers practitioners and academic audiences David Sheppard CEO of the Secretariat of the Pacific Regional Environment Programme SPREP This book is written by a prominent and influential scholar who also has the benefit of first hand knowledge of practical working of environmental regimes having participated in several important negotiations Gillespie's monograph therefore stands out among other publications on the subject of conservation combining thoughtful and scholarly approach to issues raised with unique parallel insights into the working of environmental law and the conservation of biodiversity The book is very original in its presentation of this subject especially in the selection of topics and the approach which is not only legal but also scientific philosophical and political This book is evidence of the great erudition of the author not only in the field of conservation but also in international environmental law and general international law an example of which can be his analysis of the precautionary principle trade and a very complex issue of the exception for indigenous peoples and science Mention also must be made of his detailed approach to various multilateral treaty regimes such as Ramsar Convention and the World Heritage Convention Gillespie wrote an exceptional book which is a must for international lawyers both practitioners and scholars It is a thought provoking very well researched and original monograph which due to its all encompassing approach will retain its importance for a very long period of time Malgosia Fitzmaurice Queen Mary University of London UK A major work this book provides a comprehensive picture of the international legal challenges of natural heritage conservation Truly an indispensable tool for policy makers experts and students The book offers a complete guide to the complex world of treaties that regulate conservation at the global scale Francesco Bandarin UNESCO Assistant Director General for Culture This important and timely book provides a rigorous overview of the defining issues presently facing conservation at international level The author provides detailed coverage of topics ranging from the classification of species right through to access and benefit sharing drawing on his personal experience at intergovernmental level Each question is examined through the prism of dozens of treaties and hundreds of decisions and resolutions of the key multilateral regimes and the law in each area is supplemented by the necessary considerations of science politics and philosophy providing much needed context for the reader Combining expert scholarship and first hand insight Conservation Biodiversity and International Law will be an invaluable resource for researchers and practitioners in international environmental law as well as providing an accessible guide for students

Selected Chinese Cases on the UN Sales Convention (CISG) Vol. 3 Peng Guo, Haicong Zuo, Shu Zhang, 2024-04-29 This book focuses on Chinese cases on the CISG decided by Chinese courts of all levels focusing on 2011 to 2012 During this period the number of cases grew fast compared to 2006 to 2010 The total

number of cases remained relatively low the reasons of which might be the following parties were not familiar with the CISG and therefore decided to opt out of it in addition the case collection and report systems in China at that time were not as developed as now rendering many cases inaccessible This book provides a comprehensive and detailed analysis of selected cases The analysis of those cases is on a case by case basis For each case an English summary of the judgment is provided In the comment the People s Courts approach to the interpretation and application of the CISG is emphasized Comments of the individual case are written either by scholars or judges or lawyers from international and comparative perspective to discuss the successes and pitfalls of the interpretation and application of the CISG

The Structure and Process of International Law Ronald St. John Macdonald, Douglas M. Johnston, 2024-03-11 This wide ranging series provides expert insights into the most fundamental aspects of public international law and has for many years made a major contribution to the international debate on legal issues affecting the world community

Protecting the Oceans Beyond National Jurisdiction Robin Warner, 2009 Knowledge of the marine environment beyond national jurisdiction and its unique biodiversity is still developing Simultaneously traditional uses of these areas including fishing and shipping are intensifying and new uses are emerging such as bio prospecting for marine genetic resources and climate change mitigation activities This volume examines the threats to the marine environment beyond national jurisdiction from existing and emerging human uses and the adequacy of current international law provisions to protect this major part of the global environment An analysis of key provisions in the 1982 United Nations Law of the Sea Convention and complementary principles of international environmental law reveals significant tensions between the concept of high seas freedoms and the international law obligation to protect and preserve the marine environment beyond national jurisdiction The book compares the lack of comprehensive environmental regulation for marine resource exploitation and shipping activities beyond national jurisdiction with the best practice standards for environmental protection being developed by the International Seabed Authority for deep seabed mining exploration Recent initiatives by the international community to study issues relating to conservation of high seas biodiversity are discussed and a range of soft and hard law options to strengthen the international law framework for protection of the marine environment beyond national jurisdiction are considered
