Catalogue of the Officers and Graduates of Yale University Yale University, 1914      Tillich Donald W. Musser, Joseph Price, 2010-02-01 Abingdon Pillars of Theology is a series for the college and seminary classroom designed to help students grasp the basic and necessary facts influence and significance of major theologians Written by major scholars these books will outline the context methodology organizing principles primary contributions and major writings of people who have shaped theology as we know it today Tillich served as a theological pioneer exploring boundaries and traversing creatively between the territories of philosophy and theology between the faith and culture between Christianity and Buddhism between the academy and the public He was a thinker who theorized about everything and who attempted to show what matters and why from the book      **The Redeemed Good Defense** Anthony MacPherson, 2021-07-06 Why God Everyday this question is uttered in sorrow bewilderment or anger This cry is the problem of suffering It is also known as the problem of evil It asks why a good all powerful God allows evil and pain Theodicy is the name of the theological responses that seek to defend God against charges of unfairness Traditional theodicies have been accused of intensifying the problem by claiming that God is justified in allowing evil because he uses it to bring about a greater good This greater good approach has been criticized in more recent times It seems to uncomfortably align God and evil too closely together Does God need evil in order to bring good This study explores an alternative stream of theodicy found in the idea of cosmic warfare In this theodicy God fights evil in its moral physical spiritual and supernatural forms This book explores the world of theodicy and its cosmic warfare forms It navigates the theological and ethical minefields involved Building on the idea that God is in the midst of a great cosmic controversy it seeks to further the conversation and articulates a new alternative redeemed good defense

Authors in the Enoch Pratt Free Library, Baltimore, Md Enoch Pratt Free Library,1913 **Female Stereotypes in Religious Traditions** Ria Kloppenborg,Wouter J. Hanegraaff,1995 This volume contains a collection of studies describing and analyzing stereotypes of women in the religions of Ancient Israel and Mesopotamia and in Zoroastrianism Judaism Medieval Christianity Islam Indian Sufism Hinduism Buddhism Tibetan religions and modern Neopaganism In all these traditions the stereotypes are based on generalizations which are socially culturally or religiously legitimized and which seem to have a lasting influence on society s conceptions of women They represent oversimplified opinions which are however regularly challenged by the women who are affected by them In all traditions the stereotypes are ambiguous either because women have challenged their validity or because historical developments in society have reshaped them They influence public opinion by emphasizing dominant views as a strategy to restrain women and to keep them controlled by the rules and morals of male dominated society **International Journal of Religious Education** ,1929 *Dark Skies: Select*

*Readings in Therapeutic Astrology* Brad Kochunas,2024-06-28 The title of this book Dark Skies comes from the idea that during the day we are often blinded by the metaphorical light of ego and self interest It is the vast blackness of the night sky that allows us to peer more deeply into the presence of the planetary deities that inhabit not only the heavens but also our internal world as portrayed in our astrology charts Therapeutic astrology is a vibrant branch within humanistic astrology where we view imaginal gods like Venus goddess of love Mars god of war and Pluto lord of the Underworld at play in our lives and discover what their claims may be upon us This sensitive collection of thought provoking essays draws together much of Brad Kochunas work which has appeared online and in a wide variety of publications Astrologers working with clients on a therapeutic basis will find much here to contemplate and to enrich their practice while anyone with an interest in the human psyche will be fascinated by the author s insights *Catalogue* Yale University,1915
