Endogenous Origins of Economic Reforms in India and China Rajiv G. Maluste, 2011-07 Attitudinal change in the context of economic reforms has been referred to in Rodrik and Subramanian 2005 DeLong 2003 Kohli 1989 and Panagariya 2004 2008 This dissertation provides empirical support for this literature establishing an earlier start for India's economic policy liberalisation than presented in stylized accounts It demonstrates the endogenous nature of the origins of these policy shifts Attitudinal change literature had directed attention to the need for further research into India's policy changes of the early 1980s and for studying broader comparability issues in other developing countries This research makes a contribution towards filling these gaps This dissertation shows that India started its economic liberalisation under the Indira Gandhi administration from 1980 to 1984 These findings depart from the conventional view that India's economic policy changes were initiated by the Narasimha Rao government in 1991 or by the Rajiv Gandhi administration in the mid to late 1980s The dissertation establishes that policy shifts of the early 1980s had endogenous origins in the political leadership's attitudinal changes The Indira Gandhi administration of the early 1980s revisited the statist policies of its previous tenure from 1966 to 1977 The new approach entailed more openness towards private enterprise scaling back the role of the public sector and starting India's integration into the global economy The dissertation also discusses the comparable role of attitudinal changes at the start of China's policy liberalisation led by Deng Xiaoping from 1978 to 1982 It focuses on the significance and challenges faced by China's political leadership in bringing about societal attitudinal change The dissertation concludes by drawing comparisons between India and China developing a linkage between their endogenous attitudinal changes and economic policy liberalisation Deng Xiaoping Alexander Pantsov, Steven I. Levine, 2015 This book covers the entire life of Deng Xiaoping Starting with his childhood and student years to the post Tiananmen era *Chinese Foreign Policy in Transition* Guoli Liu, 2017-07-12 Since the establishment of the People's Republic of China in 1949 and particularly after the opening brought about by economic reforms roughly thirty years thereafter China has become an influential player in regional and global affairs Increasingly both American and European policymakers examine Chinese foreign policy as a flexible pragmatic and significant element in world affairs This has accelerated in the middle of the new first decade of this century as business firms and political officials have developed interests in the sources processes and significance of China's reemergence as a global force This volume examines how in conjunction with rapid economic growth and profound social transformation China's foreign policy is experiencing significant transition The purpose of this truly deep and probing collection is to deepen Western understanding of the sources substance and significance of Chinese foreign policy with a focus on the post Cold War environment Contributors include academic specialists area researchers and distinguished

journalists all with firsthand experience in the field of China studies The volume is divided into four parts 1 theory and culture 2 perspective and identity 3 bilateral relationships and 4 retrospective and prospective essays on Chinese policy concerns The volume is sensitive to changes in national leadership and Communist Party structure as well as continuity and change in foreign policy As Lowell Dittmer of the University of California notes in his Foreword precisely because it is so difficult to do well the analysis of foreign policy is often conducted rather tritely Thus it is a real pleasure to find assembled here a treasure trove of some of the finest work by some of the field's most penetrating minds This is fortunate for at the core of this volume is one of the biggest and most portentous questions to confront the world at the outset of the twenty first century That

[China's Military Procurement in the Reform Era](#) Yoram Evron,2015-06-26 The decisions that shape the policy of weapons procurement are an important area of national security policy This is all the more true for China which during recent decades has vacillated between different sources and directions of military build up This book explores the politics of military procurement in China under the successive leaderships of Deng Xiaoping Jiang Zemin and Hu Jintao It shows how China's political and military leaders have sought to adjust military procurement policy to meet China's strategic objectives to relate it to non military needs to strike a balance between the import of weapons and indigenous production and to determine the connections between hardware and other components of military power Exploring in detail five major shifts in the nation's military procurement it traces the considerations and negotiations among China's civilian and military leaderships By doing so it offers both a conceptual framework and empirical grounds for evaluating the factors that shape China's military procurement directions as well as their limitations prospects and operational implications As the first book to study comprehensively and systematically the attributes shaping China's military procurement it will be of great interest to students and scholars of Chinese politics Chinese history and military and strategic studies

China's State Ideology and the Three Gorges Dam Yuen-ching Bellette Lee,2025-06-13 This book uses the case of the Three Gorges Dam project to explore the Chinese state's use of ideology namely the political theodicy of development as a governing tactic in the reform era Presenting observations from fieldwork collected after the dam's completion it reveals communities who not only embraced their improved livelihoods but also expressed support for the mega project and the Party's leadership However the research also indicates that the effects of the ideological

dissemination surrounding the project were not monolithic with the development process involving extensive struggles and contradictions including locals facing unemployment and the fragmentation of their social networks This disjuncture between the state ideology and social reality thus revealed flaws in the official imperative of political theodicy Displaying how the authoritarian rule of the Chinese state can be adaptive in modifying its mode of governance especially when faced with the unintended consequences of failures this book will be a valuable resource to students and scholars of Asian environment development politics and Chinese politics history and society Imagined Enemies John Wilson Lewis,Litai Xue,2006-07-13 The fourth and final volume in a pioneering series on the Chinese military Imagined Enemies offers an unprecedented look at its history operational structure modernization and strategy Beginning with an examination of culture and thought in Part I the authors explore the transition away from Mao Zedong's revolutionary doctrine the conflict with Moscow and Beijing's preoccupation with Taiwanese separatism and preparations for war to thwart it Part II focuses on operational and policy decisions in the National Command Authority and subsequently in the People's Liberation Army Part III provides a detailed study of the Second Artillery China's strategic rocket forces The book concludes with the transformation of military strategy and shows how it is being tested in military exercises with Taiwan and the United States as imagined enemies A Misunderstood Friendship Zhihua Shen,Yafeng Xia,2020-11-03 Today the People's Republic of China is North Korea's only ally on the world stage a tightly knit relationship that goes back decades Both countries portray their partnership as one of brotherly affection based on shared political ideals an alliance as tight as lips to teeth even though relations have deteriorated in recent years due to China's ascendance and North Korea's intransigence In *A Misunderstood Friendship* leading diplomatic historians Zhihua Shen and Yafeng Xia draw on previously untapped primary source materials revealing tensions and rivalries to offer a unique account of the China North Korea relationship They unravel the twists and turns in high level diplomacy between China and North Korea from the late 1940s to the death of Mao Zedong in 1976 Through unprecedented access to Chinese government documents Soviet and Eastern European archives and in depth interviews with former Chinese diplomats and North Korean defectors Shen and Xia reveal that the tensions that currently plague the alliance between the two countries have been present from the very beginning of the relationship They significantly revise existing narratives of the Korean War China's postwar aid to North Korea Kim Il-sung's ideological and strategic thinking North Korea's relations with the Soviet Union and the importance of the Sino-U.S. rapprochement among other issues *A Misunderstood Friendship* adds new depth to our understanding of one of the most secretive and significant relationships of the Cold War with increasing relevance to international affairs today *The Two Koreas and the United States* Wonmo Dong,2016-07-08 As Korea enters a hopeful new chapter in its history this timely book with contributions by distinguished experts in the field addresses the fragility of the political economic and military balance within the two Koreas and in Northeast Asia It provides in depth analysis of the principal factors that gave rise to the persisting Cold War on the Korean

peninsula and successfully unravels many aspects of the complicated domestic and economic dynamics of the two Koreas the patterns of relationship between the two rival states as well as their changing relationships with the United States and other major powers

Red China's Green Revolution Joshua Eisenman, 2018-04-24 China's dismantling of the Mao era rural commune system and return to individual household farming under Deng Xiaoping has been seen as a successful turn away from a misguided social experiment and a rejection of the disastrous policies that produced widespread famine In this revisionist study Joshua Eisenman marshals previously inaccessible data to overturn this narrative showing that the commune modernized agriculture increased productivity and spurred an agricultural green revolution that laid the foundation for China's future rapid growth *Red China's Green Revolution* tells the story of the commune's origins evolution and downfall demonstrating its role in China's economic ascendance After 1970 the commune emerged as a hybrid institution including both collective and private elements with a high degree of local control over economic decision but almost no say over political ones It had an integrated agricultural research and extension system that promoted agricultural modernization and collectively owned local enterprises and small factories that spread rural industrialization The commune transmitted Mao's collectivist ideology and enforced collective isolation so it could overwork and underpay its households Eisenman argues that the commune was eliminated not because it was unproductive but because it was politically undesirable it was the post Mao leadership led by Deng Xiaoping not rural residents who chose to abandon the commune in order to consolidate their control over China Based on detailed and systematic national provincial and county level data as well as interviews with agricultural experts and former commune members *Red China's Green Revolution* is a comprehensive historical and social scientific analysis that fundamentally challenges our understanding of recent Chinese economic history

The Lessons of History Laurie Burkitt, Andrew Scobell, Larry M. Wortzel, 2003

The Lessons of History: The Chinese People's Liberation Army at 75, *China, Hong Kong, Taiwan, Inc.* Willem Van Kemenade, 2010-12-01 On the eve of June 30 Hong Kong was officially passed back to China This event will mark what Willem van Kemenade sees as the start of an increasingly problematic and even dangerous reintegration of the old Chinese empire into a new world superpower Since the early 1980s investment money has been pouring into China from Hong Kong and trade has escalated at a rocket's pace A few years later

the same pattern began between China and Taiwan. The combination of Hong Kong, Taiwan, management, financial and export know-how with China's inexhaustible pool of cheap labor and land has enabled China in one decade to leap from an impoverished revolutionary state to a major international trading power. This economic boom in conjunction with the violation of intellectual property rights, systematic tax fraud and the corruption of the police force has helped shape the socialist market economy, China's third way and a new mix of old-fashioned Soviet Communism and East Asian capitalism. The formal addition of Hong Kong will add to this mixture the democratic structures set in place by the British. And as China moves to reclaim Taiwan, the process has already begun; it will be incorporating a rival Chinese sub-nation with a fully election-based political system and a powerful independence movement. Can such a reunified China resist the spiritual pollution of democratic values, human rights and political freedom? Will it become the first depoliticized corporatist superpower? What are the prospects that reunification will be peaceful? Van Kamenade's portrait of the true internal power structures of the three Chinas provides our clearest look yet at the fastest rising new empire in the world today.

Legal Reform and Administrative Detention Powers in China Sarah Biddulph, 2007-12-20 Using a conceptual framework, this 2007 book examines the processes of legal reform in post-socialist countries such as China. Drawing on Bourdieu's concept of the field, the increasingly complex and contested processes of legal reform are analysed in relation to police powers. The impact of China's post-1978 legal reforms on police powers is examined through a detailed analysis of three administrative detention powers: detention for education of prostitutes, coercive drug rehabilitation and re-education through labour. The debate surrounding the abolition in 1996 of detention for investigation, also known as shelter and investigation, is also considered. Despite over 20 years of legal reform, police powers remain poorly defined by law and subject to minimal legal constraint. They continue to be seriously and systematically abused. However, there has been both systematic and occasionally dramatic reform of these powers. This book considers the processes which have made these legal changes possible.

The Labors of Sisyphus Joan Roland, 2017-07-05 Almost a half century has passed since the inception of the People's Republic of China. In that time, a charismatic leader has ruled and died, leaving a wake of destruction in his quest to transform China. In that time too, the PRC's most powerful ally and mentor, the Soviet Union, has dismantled and announced that communism had failed. Today, China fluctuates between tradition and modernity, ideology and pragmatism, between an antiquated collectivist ethic and a new spirit of individualism. It is a country precariously suspended between past and future. Maria Hsia Chang's *The Labors of Sisyphus* is a long overdue reassessment of the meaning and purpose of the Chinese communist revolution. In it, she discusses the thought of Mao Zedong and Deng Xiaoping, reform and its dilemmas, regionalism in greater China and autonomous areas, and nationalism. She also examines China's immediate present and uncertain future. If it manages to transform economic growth into development, China, filled with natural resources and a large, capable labor force, has the potential to become a world superpower. It could also collapse under the weight of its own problems: regionalism, a flawed

state sector corruption and a pronounced decline in state capacity. If China succeeds in imposing new economic power, it will enter the global stage one that is often arbitrary and prone to despotism and xenophobia unless it is tempered by political reform. Prior accounts of communist China have failed to capture China's evolving present. In all its complexity and variety, misrepresenting Maoist China. In the process, information shortfall was partly to blame. As recently as August 1994, the Chinese government itself decried falsification of statistics by government officials and cadres. Sinologists in the 1960s and 1970s had to approach analysis of contemporary China with clear recognition of the limitations involved and the questionable validity of the factual sources available. Maria Hsia Chang lends structure, meaning, and purpose to the very complex recent political and historical past of communist China. With greater access to more accurate information, Chang is able to analyze objectively without political motive or intention, providing readers with a fresh look at the People's Republic. Her pathbreaking work will be of interest to scholars of international economics and politics, sinologists, and historians.

The Broken China Dream Minxin Pei, 2025-12-02. A provocative book that demystifies China's great democratic leap backward under Xi Jinping, revealing why the country's embrace of capitalism has given rise to hard authoritarianism, mass surveillance, and one-man rule instead of democracy as many in the West had hoped. When China embarked on its transformative journey of modernization in 1979, many believed the country's turn toward capitalism would put its totalitarian past to rest and mark the birth of a democratic open society. Instead, China reverted to a neo-totalitarian state, one backed by one of the fastest growing, most formidable economies on earth. *The Broken China Dream* pulls back the curtain on the regime of strongman Xi Jinping, revealing why the reforms of the post-Mao era have been reversed on nearly every front and why the world failed to see it coming. Exposing the truth behind China's economic ascendancy after the Cultural Revolution, Minxin Pei shows how, following Mao's death in 1976, Deng Xiaoping strategically deployed the tools of capitalism to preserve the Chinese Communist Party. Deng kept intact the institutional foundations of totalitarianism even as he unleashed private entrepreneurship and courted foreign investment, giving China's one-party state control of a vast repressive apparatus and the most critical sectors of the economy. Only a fragile balance of power among dueling factions prevented the rise of a totalitarian leader in the two decades after the Tiananmen crackdown in 1989, but this temporary equilibrium collapsed. Essential to understanding today's China, this meticulously researched book is a sobering account of why the country's reformers and institutions could not stop a shrewd and ruthless politician like Xi from resurrecting dormant totalitarian practices that, for the foreseeable future, have spelled the end of the dream of a free and prosperous China.

Conservatism and the Kissinger-Mao Axis Lam Lai Sing, 2015-05-20. Kissinger's dual-purpose instrument of the US-China and US-Soviet détente was devised to achieve a stable balance of power in the contemporary world in the second half of the 1960s. Stimulated by both Kissinger's doctrine and the historical novel *The Romance of the Three Kingdoms*, Mao's global order of tripolarity was created to feature the new US-China relations in the early 1970s with his initiative of the ping-pong diplomacy.

through this Kissinger Mao axis This made his quest for a modernization revolution possible with the Western market oriented approach Strengthening Mao s modernization program Xiaoping s good neighborhood policy was designed to induce the world to help modernize China Vitally including Russia with the collapse of the Soviet Union Deng s policy helped maintain a peaceful and stable international environment though it also marked the end of Mao s global order Perceiving the PRC s rise as a threat to its dominance in the Asia Pacific region the US containment effort was enhanced with US Japanese collusion and siding with the Philippines and Vietnam in relevant maritime disputes with the PRC The US united with the Republic of Korea nations in Southeast Asia and Australia in establishing a wide range alliance to go against the China threat The post Cold War eastward expansion of the US led NATO and the Russian determination to be a great power again contributed to tension with the United States The Russian desire to maintain its nuclear deterrent capability was at odds with the US missile defense plans Thus the US deployment of its missile shield in Eastern Europe as part of its strategic configuration in Alaska and the Far East was to contain Russia from both the Far East and Europe
