An Anthology of Jewish-Russian Literature: 1801-1953 Maxim Shrayer, 2007 Gathers stories essays memoirs excerpts from novels and poems by more than 130 Jewish writers who worked in the Russian language This two volume set is organized chronologically The first volume spans the nineteenth century and the first part of the twentieth century The second volume covers the period from the death of Stalin Schwann Long Playing Record Catalog ,1969 *Social Functions of Literature* Paul Debreczeny, 1997 This study of the effect of literature on readers both as individuals and as members of social groups focuses on Russia's national poet Alexander Pushkin as a model for investigating the aesthetic and social functions of literature The individual reader's response to the literary text is demonstrated in Part One through a broad range of memoirs diaries and correspondences in which Russian readers recorded their reactions to Pushkin Among the reactions are testimonies that Pushkin's works helped readers form their personalities provided cathartic relief in times of stress and aided them in releasing their suppressed emotions In his analysis the author draws on various psychological approaches from studies of perception through developmental psychology to psychoanalysis Part Two exposes the extent to which individuals' aesthetic responses are conditioned by their social environment Against the backdrop of Russian social history in the early nineteenth century the author describes the dissemination of new aesthetic norms notably the relations of the Russian literary elite to lowbrow and middlebrow groups In this context he analyzes a number of Pushkin imitations with Pushkin's responses to them and links Nikolai Gogol's development as a writer to the social groups surrounding Pushkin Among the other topics discussed are the popularization of Pushkin on the stage and his inclusion in school textbooks and anthologies The aura surrounding the personality of an author is the subject of Part Three in which the author shows how Pushkin's death in a duel with a foreigner contributed to his emergence as a symbol of the Russian nation and how deep seated anxiety about national identity gave rise to the Pushkin myth and to the canonization of the poet as martyr The author also describes how the combined effect of the widespread reading of Pushkin's work and his legend as martyr allowed him to

remain Russia's main mythic figure despite the Soviet Union's attempts to supplant him with Lenin Throughout the book theoretical arguments are buttressed by close readings of Pushkin's works especially *The Prisoner of the Caucasus* Eugene Onegin *Poltava* *Egyptian Nights* and several lyric poems *The Publisher*, 1915 *The Oxford Guide to Literature in English Translation* Peter France, 2000 Translation has been a crucial process in world culture over the past two millennia and more In the English speaking cultures many of the most important texts are translations from Homer to Beckett the Bible to Freud Although recent years have seen a boom in translation studies there has been no comprehensive yet convenient guide to this essential element of literature in English Written by eminent scholars from many countries the Oxford Guide to Literature in English Translation meets this need and will be essential reading for all students of English and comparative literature It highlights the place of translation in our culture encouraging awareness of the issues raised making the translator more visible Concentrating on major writers and works it covers translations out of many languages from Greek to Korean from Swahili to Russian For some works e.g. Virgil's *Aeneid* which have been much translated the discussion is historical and critical showing how translation has evolved over the centuries and bringing out the differences between versions Elsewhere with less familiar literatures the Guide examines the extent to which translation has done justice to the range of work available The Guide is divided into two parts Part I contains substantial essays on theoretical questions a pioneering outline of the history of translation into English and discussions of the problems raised by specific types of text e.g. poetry oral literature The second much longer part consists of entries grouped by language of origin some are devoted to individual texts e.g. *The Thousand and One Nights* or writers e.g. Ibsen Proust but the majority offer a critical overview of a genre e.g. Chinese poetry Spanish Golden Age drama or of a national literature e.g. Hungarian Scottish Gaelic There is a selective bibliography for each entry and an index of authors and translators

Columbia Dictionary of Modern European Literature Jean Albert Bédé, William Benbow Edgerton, 1980 With more than 1800 critical entries on the writers and literatures of 33 languages this work presents the entire range of modern European writing from the symbolist and modernist works rooted in the last decades of the nineteenth century through the avant garde and existentialist movement to Barthes Blanchot Breton and continental thought pertinent today

Encyclopedia of the Romantic Era, 1760-1850 Christopher John Murray, 2013-05-13 In 850 analytical articles this two volume set explores the developments that influenced the profound changes in thought and sensibility during the second half of the eighteenth century and the first half of the nineteenth century The Encyclopedia

provides readers with a clear detailed and accurate reference source on the literature thought music and art of the period demonstrating the rich interplay of international influences and cross currents at work and to explore the many issues raised by the very concepts of Romantic and Romanticism Russomania Rebecca Beasley,2020-03-31 Russomania Russian Culture and the Creation of British Modernism provides a new account of modernist literature s emergence in Britain British writers played a central role in the dissemination of Russian literature and culture during the early twentieth century and their writing was transformed by the encounter This study restores the thick history of that moment by analyzing networks of dissemination and reception to recover the role of neglected as well as canonical figures and institutions as well as individuals The dominant account of British modernism privileges a Francophile genealogy but the turn of the century debate about the future of British writing was a triangular debate a debate not only between French and English models but between French English and Russian models Francophile modernists associated Russian literature especially the Tolstoyan novel with an uncritical immersion in life at the expense of a mastery of style and while individual works might be admired Russian literature as a whole was represented as a dangerous model for British writing This supposed danger was closely bound up with the politics of the period and this book investigates how Russian culture was deployed in the close relationships between writers editors and politicians who made up the early twentieth century intellectual class the British intelligentsia Russomania argues that the most significant impact of Russian culture is not to be found in stylistic borrowings between canonical authors but in the shaping of the major intellectual questions of the period the relation between language and action writer and audience and the work of art and lived experience The resulting account brings an occluded genealogy of early modernism to the fore with a different arrangement of protagonists different critical values and stronger lines of connection to the realist experiments of the Victorian past and the anti formalism and revived romanticism of the 1930s and 1940s future Library of Congress Subject Headings Library of Congress,Library of Congress.
