absolutely magical SP I really liked this book and thought it was a good read If you are someone that meditates I m sure you will also find it interesting It s not that long and not very expensive so for me it s like why not I m a big fan of self hypnosis as I used it to achieve a beautiful birth several years ago Since then I have been kind of doing my own thing meditating but this book really helped me expand my mental exercises It essentially gives a ton of different ways to explore your own psyche I find it to be a very helpful guide to self hypnosis The chapter on scary dreams tremendously helped me navigate this problem with my 5 year old daughter Now each night before bed she gets so excited to go to her personal Fantasyland where we often deal with the things that are troubling her in a safe and self empowered way For this reason alone it was worth it to me Also I m a lifelong student of astrology and I loved his combination of these two worlds astrological archetypes and deep meditation Good stuff AT This a fun book to read Noel s writing style is informative and flows nicely I have the Kindle version Buy it you ll like it MK Digs deep into the issues of life be it struggles or challenges Noel not only explains the roots of inner dragons but also describes how to identify them Living with Dragons is an insightful and practical look at the negative thoughts and emotions that can impede our lives on a daily basis This book will not only help you shed light on things you may have tried to hide but it will also guide you towards practical steps to slay your Dragons No matter what negativity fills your inner World Living with Dragons will help you move towards it face it head on and squash it C This work is a vital and necessary tool for anyone wishing to understand and confront their inner demons or dragons as Noel so aptly names them His prodigious experience as a clinical psychologist is clearly apparent here yet it is not couched in confusing medical terminology but instead with mythologies we all know and instructions on how to that are so very easy to read and to understand In fact he makes it hard not to want to attempt this journey inward and to meet those inner dragons that we all have somewhere within Herein he gives invaluable directions on ways in which to make this inward journey via trance and self hypnosis methods both safely and productively The examples he gives are not only fascinating but intensely engaging in every way This work is inspiring exciting and riveting and I strongly recommend it S **Self-Hypnosis Revolution** Forbes Blair, 2007-04 Self hypnosis without the trance *Master the Power of Self-hypnosis* C. Roy Hunter, 1998 Some books tell you what to change This one tells you how Master the powers of the mind open the gateways to your subconscious and seize control of your life If you ve been struggling to modify deeply ingrained habits or reach any difficult to achieve goal willpower alone may not do the trick The secret to success lies deeply buried in the unconscious and one of the world s foremost hypnotherapists will show you point by point how to make a commitment to change get motivated and alter the ingrained negative programming that s holding you back With this self hypnosis handbook you ll learn innovative empowerment exercises that teach relaxation stress management overcoming insomnia and establishing priorities Avoid the failure trap by clearing psychic obstacles Creatively daydream to stop smoking lose weight and improve job performance memory study habits and more Add on the proper use of affirmations and fine tune the ability of language to heal or harm Find out the four

Ho sempre amato il concetto di Segreto o Strategia che in questo libro saranno utilizzati come sinonimi in ogni campo di applicazione umana Per segreto intendo un sistema o una tecnica che va oltre gli schemi comuni di applicazione e che se sapientemente utilizzata possa portare a risultati che a ragione possono essere considerati da alcuni incredibili Questi possono essere definiti incredibili solo se pochi ne conoscono il segreto come un gioco di prestigio che crea stupore finch il trucco sconosciuto ma che una volta svelato ritorna nel normale accadimento delle cose Quando si parla di sport e di risultati atletici tutti i trucchi segreti e tecniche vanno ricondotti alla fisiologia umana e al modo di agire sapientemente in base alle sue leggi per risultati definiti superiori La conoscenza di determinate tecniche unita alla loro costante applicazione e a un notevole grado di motivazione pu creare la differenza tra un atleta definito di talento e uno di basse qualit sportive Spesso purtroppo chi si accinge a svolgere una determinata attivit sportiva subisce notevoli frustrazioni che gli derivano da scarsi o pochi risultati nonostante l impegno profuso La Conoscenza e la Volont sono sempre potere in questo caso si tratta di potere sul proprio corpo e sulle qualit specifiche che si vogliono sviluppare Spesso l atleta si scoraggia profondamente i risultati sono o l abbandono della disciplina praticata o il raggiungimento di risultati di gran lunga inferiori a quelli teoricamente ottenibili se si conoscessero le regole vincenti della fisiologia del proprio corpo Perch dunque perdere tempo prezioso e ancor pi preziose energie Ho scritto questo libro per mettere a disposizione di tutti gli atleti seriamente motivati tecniche di

allenamento che a ragione sono considerate segrete proprio perché per la maggior parte sconosciute alla stragrande maggioranza degli sportivi. Ho preso i ginnasti e le loro qualità fisiche come esempio rappresentativo dell'eccellenza fisica ma l'ambito di applicazione si allarga alla maggior parte delle discipline sportive permettendo di raggiungere la personale massima prestazione nello sport.

Sports Hypnosis in Practice Joseph Tramontana, 2011-06-10
 This book offers new strategies and scripts for hypnotherapists, sports counsellors and sports psychologists working with athletes to help them achieve their peak performance.
 A major focus of the book is that the therapist does not necessarily need to be familiar with the sport or activity to serve as a mental coach to the athlete.
 The athlete is instructed that the goal is not to improve the mechanics of their performance that is left up to their coaches but rather to help them to relax, concentrate and focus so that they fulfill their maximum potential.
 They learn not to let the mental side of their game trip up the physical side but rather to enhance it.
