Self Renewing Society The Role Of Television And Communications Technology:

A Self-Renewing Society Narain D. Batra, 1990-11-30 Through the broad perspective of the systems theory the sociobiology of self renewal and the use of historical critical research this book explores the process of continuous dying and re birth occurring daily in American society in every society Conceptualizing the media and communications technology as the collective nervous system of a society can help us in understanding the above mentioned renewing process Of interest to professors and students of mass communications government and public pol information science **New Approaches to Organizational Communication** Branislav Kovacic, Branislav Kova?i?, 1994-01-01 New Approaches to Organizational Communication brings together three major conceptual developments First it sheds new light on standards used to evaluate processes and practices of organizational communication Second individual chapters delineate new vital mechanisms of organizational communications Third the book outlines the practical consequences of these new mechanisms of organizational communication *ICA Newsletter* International Communication Association, 1986 **New Books in the Communications Library** University of Illinois at Urbana-Champaign. Communications Library, 1991-07 **JQ. Journalism Quarterly** , 2000 Includes section Book reviews and other bibliographical material *America, History and Life* , 1993 Provides historical coverage of the United States and Canada from prehistory to the present Includes information abstracted from over 2 000 journals published worldwide *The Dawning Age of Cooperation* Gordon Ervin Moss, 2011 Rugged individualism is great for legendary heroes but does it really shape a society that can endure for the long term A massive social transformation is underway driven by technology it requires and is pushing us toward a cooperative culture Our American competitive individualistic culture is outmoded and increasingly ineffective This book presents a new model of cooperation for building a cooperative American and worldwide society True cooperation is a stranger in America The author an expert on medical sociology has conducted research on social stress and cooperative solutions only to find that we call many things cooperation which are not This includes mutual aid in pursuit of shared individual goals democratic decision making equal sharing and compromising True cooperation is a cultural pattern used to organize cooperative social systems Participants are group centered and work to achieve group goals True cooperation produces rapidly adapting information processing social systems that benefit all of the participants These cooperative organizations and societies become our primary and very effective adaptive tools for survival This book shows what true cooperation is and how to do it while also showing how competition and individualism prevent us from truly cooperating and creating a cooperative American and worldwide society This book fills a huge gap in our literature on and understanding of cooperation As such it is of great value to libraries organizations universities a variety of specialties and professions and concerned individuals The book is written at a more academic level because the material cannot be simplified further without loss of insights and information It is a friendly academic level with examples and explanations while a variety of more academic issues and analyses are excluded

Digital Freedom Narain Dass Batra,2008 In Digital Freedom N D Batra explores the tension between the boundlessness of the Internet and the boundaries of the marketplace as well as the resulting impact on human expression privacy and social controls Digital Freedom is an exploration of and meditation on the question How much freedom does a person need The question evokes Tolstoy s parable How much land does a man need Is freedom an acquired taste much like one s love for symphony orchestra Or is it a necessity After all civilizations in the past have produced monumental works in all fields of human endeavor without as much obsession with individual freedom as we have today Digital Freedom explores these issues including surveillance intellectual property and copyright from the perspective of an evolutionary self organizing social system This system both creates and assimilates innovations and in the process undergoes reorganization and renewal

Teaching and Learning as a Communication Process Philip Hills,2025-10-01 First published in 1979 Teaching and Learning as a Communication Process provides practical guidelines for closer communication between the teacher and the student It is intended for all those engaged in teaching and learning in higher further and continuing education The book examines the growth of formal education system discusses verbal and non verbal audio visual interpersonal and group communication and reviews varieties of mass communication both historically and from future perspective It considers student as receiver and teacher as sender of communication and explores three parts of the communication process in terms of specific guidelines for the preparation of effective teaching learning materials [The British National Bibliography](#)
