Bad Bitch Philosophy : A Self Worth Guide Anushka Agrawal ,2022-03-28 About The Book Self love is not as important as self worth is Sometimes self love can look like an illusion under which we hide our insecurities about not feeling loved However self worth is a reflection of how we look at ourselves in the mirror and is a precondition to self love Oftentimes we lose a sense of trust in ourselves and also our direction in life and that s exactly when we need to find ourselves Bad Bitch Philosophy is an ironical title behind which lies hidden the treasure of a woman s worth It is an attempt to introduce the grey area of life where all the happiness and peace reside This book has especially been written to create a sense of self love and well being in women and to help them discover the beauty within themselves It addresses all the adversities that women are still a victim to and are made to tolerate overlooking the fact that they are unendurable It portrays how we can together join hands and bring a revolutionary change in the way we look at ourselves as well as at other women About The Author Anushka has been an avid writer ever since she found her voice and learned to express it regarding the atrocities inflicted on women Penning down her sorrows and experiences was a mere hobby until she realised that it was all she ever wanted She wanted to be heard and to be there for every person like her to make them fall in love with the imperfections of their existence She has been intrigued by the genres of romance and inspiration Being fascinated by the human mind she is currently pursuing psychology Also philosophy and art have always appealed to her Identifying herself as a feminist in the recent years stirred her to write about the incredible souls women are and to remind them to always embrace their real self and be aware of their worth

Why Love Hurts Eva Illouz,2013-05-20 Few of us have been spared the agonies of intimate relationships They come in many shapes loving a man or a woman who will not

commit to us being heartbroken when we're abandoned by a lover engaging in Sisyphean internet searches coming back lonely from bars parties or blind dates feeling bored in a relationship that is so much less than we had envisaged these are only some of the ways in which the search for love is a difficult and often painful experience Despite the widespread and almost collective character of these experiences our culture insists they are the result of faulty or insufficiently mature psyches For many the Freudian idea that the family designs the pattern of an individual's erotic career has been the main explanation for why and how we fail to find or sustain love Psychoanalysis and popular psychology have succeeded spectacularly in convincing us that individuals bear responsibility for the misery of their romantic and erotic lives The purpose of this book is to change our way of thinking about what is wrong in modern relationships The problem is not dysfunctional childhoods or insufficiently self-aware psyches but rather the institutional forces shaping how we love The argument of this book is that the modern romantic experience is shaped by a fundamental transformation in the ecology and architecture of romantic choice The samples from which men and women choose a partner the modes of evaluating prospective partners the very importance of choice and autonomy and what people imagine to be the spectrum of their choices all these aspects of choice have transformed the very core of the will how we want a partner the sense of worth bestowed by relationships and the organization of desire This book does to love what Marx did to commodities it shows that it is shaped by social relations and institutions and that it circulates in a marketplace of unequal actors
