Emile Coue at the beginning of the 20th century The Coue method centers on a routine repetition of this particular expression according to a specified ritual in a given physical state and in the absence of any sort of allied mental imagery at the beginning and at the end of each day Unlike a commonly held belief that a strong conscious constitutes the best path to success Coue maintained that curing some of our troubles requires a change in our subconscious unconscious thought which can only be achieved by using our imagination Although stressing that he was not primarily a healer but one who taught others to heal themselves Coue claimed to have effected organic changes through autosuggestion Underlying principles Coue thus developed a method which relied on the belief that any idea exclusively occupying the mind turns into reality although only to the extent that the idea is within the realm of possibility For instance a person without hands will not be able to make them grow back However if a person firmly believes that his or her asthma is disappearing then this may actually happen as far as the body is actually able to physically overcome or control the illness On the other hand thinking negatively about the illness ex I am not feeling well will encourage both mind and body to accept this thought *The United States Catalog* ,1924
