Self Made Men Identity Embodiment And Recognition Among Transsexual Men:

Self-made Men Henry Rubin, 2003 In *Self Made Men* Henry Rubin explores the production of male identities in the lives of twenty two FTM transsexuals people who have changed their sex from female to male The author relates the compelling personal narratives of his subjects to the historical emergence of FTM as an identity category In the interviews that form the heart of the book the FTMs speak about their struggles to define themselves and their diverse experiences from the pressures of gender conformity in adolescence to being mistaken for butch lesbians from hormone treatments and surgeries to relationships with families partners and acquaintances Their stories of feeling betrayed by their bodies and of undergoing a second puberty are vivid and thought provoking Throughout the interviews the subjects claims to having core male identities are remarkably consistent and thus challenge anti essentialist assumptions in current theories of gender embodiment and identity Rubin uses two key methods to analyze and interpret his findings Adapting Foucault's notions of genealogy he highlights the social construction of gender categories and identities His account of the history of endocrinology and medical technologies for transforming bodies demonstrates that the family resemblance between transsexuals and intersexuals was a necessary postulate for medical intervention into the lives of the emerging FTMs The book also explores the historical emergence of the category of FTM transsexual as distinguished from the category of lesbian woman and the resultant border disputes over identity between the two groups Rubin complements this approach with phenomenological concepts that stress the importance of lived experience and the individual's capacity for knowledge and action An important contribution to several fields including sociology of the body gender and masculinity human development and the history of science *Self Made Me* will be of interest to anyone who has seriously pondered what it means to be a man and how men become men

The SAGE Encyclopedia of Trans Studies Abbie E. Goldberg, Genny Beemyn, 2021-02-26 Transgender studies broadly defined has become increasingly prominent as a field of study over the past several decades particularly in the last ten years The experiences and rights of trans people have also increasingly become the subject of news coverage such as the ability of trans people to access restrooms their participation in the military the issuing of driver's licenses that allow a third gender option the growing visibility of nonbinary trans teens the denial of gender affirming health care to trans youth and the media's misgendering of trans actors With more and more trans people being open about their gender identities doctors nurses psychologists social workers counselors educators higher education administrators student affairs personnel and others are increasingly working with trans individuals who are out But many professionals have little formal training or awareness of the life experiences and needs of the trans population This can seriously interfere with open communications between trans people and service providers and can negatively impact trans people's health outcomes and well being as well as interfere with their educational and career success and advancement Having an authoritative academic resource like *The SAGE Encyclopedia of Trans Studies* can go a long way toward correcting misconceptions and providing

Self-Declaration in the Legal Recognition of Gender Chris Dietz,2022-10-21 Self Declaration in the Legal Recognition of Gender examines the impact of legislation premised upon the principle of self declaration of legal gender status Existing doctrinal and comparative analyses have tended to come out strongly in favour of or against self declaration This book offers a socio legal alternative which focuses on how self declaration is experienced on an embodied level by trans and gender diverse people It presents research conducted in Denmark which became the first European state to adopt self declaration in June 2014 By analysing Danish law through a Foucauldian framework which

brings together socio feminist and trans legal scholarship on embodiment and jurisdiction the book offers the first empirically based and theoretically informed analysis of self declaration It draws upon legal consciousness affect theory vulnerability and governmentality literatures to argue that the jurisdictional boundaries which existed between law and medicine were maintained throughout the reform process This limited the impact of the legislation enabling access to health care to be restricted in the same year in which amending legal gender status was liberalised As the list of states that have adopted self declaration increases this intervention offers activists and policymakers insights which might shape how they respond to similar reform proposals in the future A timely and important assessment this book will appeal to researchers and practitioners working in trans gender feminist legal and socio legal studies

In a Queer Time and Place Judith Halberstam, 2005 The first full length study of transgender representations in art fiction film video and music In her first book since the critically acclaimed *Female Masculinity* Judith Halberstam examines the significance of the transgender body in a provocative collection of essays on queer time and space She presents a series of case studies focused on the meanings of masculinity in its dominant and alternative forms especially female and trans masculinities as they exist within subcultures and are appropriated within mainstream culture *In a Queer Time and Place* opens with a probing analysis of the life and death of Brandon Teena a young transgender man who was brutally murdered in small town Nebraska After looking at mainstream representations of the transgender body as exhibited in the media frenzy surrounding this highly visible case and the Oscar winning film based on Brandon's story *Boys Don't Cry* Halberstam turns her attention to the cultural and artistic production of queers themselves She examines the transgender gaze as rendered in small art house films like *By Hook or By Crook* as well as figurations of ambiguous embodiment in the art of Del LaGrace Volcano Jenny Saville Eva Hesse Shirin Neshat and others She then exposes the influence of lesbian drag king cultures upon hetero male comic films such as *Austin Powers* and *The Full Monty* and finally points to dyke subcultures as one site for the development of queer counterpublics and queer temporalities Considering the sudden visibility of the transgender body in the early twenty first century against the backdrop of changing conceptions of space and time *In a Queer Time and Place* is the first full length study of transgender representations in art fiction film video and music This pioneering book offers both a jumping off point for future analysis of transgenderism and an important new way to understand cultural constructions of time and place

Founding Psychoanalysis Phenomenologically Dieter Lohmar, Jagna Brudzinska, 2011-10-12 The present anthology seeks to give an overview of the different approaches to establish a relation between phenomenology and psychoanalysis primarily from the viewpoint of current phenomenological research Already during the lifetimes of the two disciplines founders Edmund Husserl 1859-1938 and Sigmund Freud 1856-1939 phenomenological and phenomenologically inspired authors were advancing psychoanalytic theses For both traditions the Second World War presented a painful and devastating disruption of their development and mutual exchange During the postwar period phenomenologists especially in France revisited

psychoanalytic topics Thus in the so called second generation of phenomenology there developed an intensive reception of the psychoanalytic tradition one that finds its expression even today in current hermeneutic postmodern and poststructuralist conceptions But also in more recent phenomenological research we find projects concentrated systematically on psychoanalysis and its theses In this context the status of psychoanalysis as a science of human experience is discussed anew now approached on the first person basis of a phenomenological understanding of subjective experience In such approaches phenomena like incorporation phantasy emotion and the unconscious are discussed afresh These topics important for modern phenomenology as well as for psychoanalysis are examined in the context of the constitution of the human person as well as of our intersubjective world The analyses are also interdisciplinary making use of connections with modern medicine psychiatry and psychotherapy The systematic investigations are enriched by historical analysis and research in the internal development of the disciplines involved The volume presents recent work of internationally recognized researchers phenomenologically oriented philosophers psychoanalysts and psychotherapists who work in the common field of the two disciplines The editors hope that this selection will encourage further systematic collaboration between phenomenology and psychoanalysis

Handbook of Phenomenological Aesthetics Hans Rainer Sepp, Lester Embree, 2010-03-11 Historically phenomenology began in Edmund Husserl's theory of mathematics and logic went on to focus for him on transcendental philosophy and for others on metaphysics philosophical anthropology and theory of interpretation The continuing focus has thus been on knowledge and being But if one began without those interests and with an understanding of the phenomenological style of approach one might well see that art and aesthetics make up the most natural field to be approached phenomenologically Contributions to this field have continually been made in the phenomenological tradition from very early on but so to speak along the side The situation has been similar with phenomenological ethics A great deal of thought about art and aesthetics has nevertheless accumulated during a century and a handbook like the present one is long overdue The project of this handbook began in conversations over dinner in Sepp's apartment in Baden Baden at one evening of the hot European summer in the year 2003 As things worked out he knew more about whom to ask and how much space to allocate to each entry and Embree knew more about how to conduct the inviting preliminary editing and prodding of contributors who were late returning their criticized drafts and copyedited entries and was able to invest the time and other resources from his endowed chair That process took longer than anticipated and there were additional unfortunate delays due to factors beyond the editors's control
