Self Exposure The Male Nude Self Portrait:

Self-exposure Reed Massengill, 2005 The nude self portrait is perhaps the most intimate form of photography It delves deep into taboo territory and strips away the traditional barriers between artist and viewer Witnessing such a private act we may feel the queasy embarrassment of a voyeur but we are always compelled to look further The images cut to the core of issues of identity sexuality and ego and as they reveal an essential truth about their creators they also tell us something about ourselves Self Exposure features more than 100 works from both established masters and up and coming photographers many never before published This groundbreaking collection traces the development of the male self portrait from its earliest beginnings with such greats as Hippolyte Bayard Herbert Tobias and Andr Kert sz to the contemporary efforts of such artists as John Dugdale Anthony Goicolea and Yasumasa Morimura Each artist takes a uniquely individual approach ranging from the shockingly perverse and aggressively erotic to the elusively self conscious and sublimely beautiful Complete with brief biographies of each artist Self Exposure is a powerful survey of this most seductive subject

Uncovered Reed Massengill, 2009 In the pre Stonewall era before the advent of the gay rights movement male nude photography was kept underground Photographers feared police confiscation harassment and worse This volume uncovers the work of ten different photographers produced during this suppressive period images hidden away for a generation in private collections and closed archives The majority have never been published A full range of styles is included gleaming muscle gods shot in the physique magazine style sun dappled outdoor nudes from the 1960s and artful black and white studio portraits by George Platt Lynes Uncovered restores a lost chapter to the history of the male nude photograph and reintroduces more than one hundred unsung classics of male erotic photography to the world Out, 2005-10 Out is a fashion style celebrity and opinion magazine for the modern gay man Out, 2005-10 Out is a fashion style celebrity and opinion magazine for the modern gay man **Out**, 2005-12 Out is a fashion style celebrity and opinion magazine for the modern gay man Out, 2005-08 **Maximum Embodiment** Bert Winther-Tamaki, 2012-01-31 Maximum Embodiment presents a compelling thesis articulating the historical character of Yoga literally the Western painting of Japan The term designates what was arguably the most important movement in modern Japanese art from the late nineteenth to the mid twentieth centuries Perhaps the most critical marker of Yoga was its association with the medium of oil on canvas which differed greatly from the water based pigments and inks of earlier Japanese painting Yoga encompassed both establishment fine art and avant gardist insurgencies but in both cases as the term suggests it was typically focused on techniques motifs canons or iconographies that were obtained in Europe and deployed by Japanese artists Despite recent advances in Yoga studies important questions remain unanswered What specific visuality did the protagonists of Yoga seek from Europe and contribute to modern Japanese society What qualities of representation were so dearly coveted as to stimulate dedication to the pursuit of Yoga What distinguished Yoga in Japanese visual culture This study answers these questions by defining a

paradigm of embodied representation unique to Yoga painting that may be conceptualized in four registers first the distinctive materiality of oil paint pigments on the picture surface second the depiction of palpable human bodies third the identification of the act and product of painting with a somatic expression of the artist's physical being and finally rhetorical metaphors of political and social incorporation The so called Western painters of Japan were driven to strengthen subjectivity by maximizing a Japanese sense of embodiment through the technical aesthetic and political means suggested by these interactive registers of embodiment Balancing critique and sympathy for the twelve Yoga painters who are its principal protagonists Maximum Embodiment investigates the quest for embodiment in some of the most compelling images of modern Japanese art The valiant struggles of artists to garner strongly embodied positions of subjectivity in the 1910s and 1930s gave way to despairing attempts at fathoming and mediating the horrifying experiences of real life during and after the war in the 1940s and 1950s The very properties of Yoga that had been so conducive to expressing forceful embodiment now produced often gruesome imagery of the destruction of bodies Combining acute visual analysis within a convincing conceptual framework this volume provides an original account of how the drive toward maximum embodiment in early twentieth century Yoga was derailed by an impulse toward maximum disembodiment

An Intimate Distance Rosemary Betterton, 2013-10-18 An Intimate Distance considers a wide range of visual images of women in the context of current debates which centre around the body including reproductive science questions of ageing and death and the concept of body horror in relation to food consumption and sex A feminist reclamation of these images suggests how the permeable boundaries between the female body and technology nature and culture are being crossed in the work of women artists

ArtQuake Susie Hodge, 2022-01-25 An alternative introduction to modern art focusing on the stories of 50 key works that consciously questioned the boundaries challenged the status quo and made shockwaves we are still feeling today

Re-envisioning Jewish Identities Efraim Sicher, 2021-08-30 This innovative study shows how the imaginary constructions of self and Other are shaping identification with Jewishness in the twenty first century The texts and artworks discussed in this book test a diverse range of ways of identifying as Jews and with the Jewish people while engaging with postmodern and postcolonial discourses of hybridity and multiculturalism This book selects six key areas in which the boundaries of Jewish identities have been interrogated and renegotiated nation ethnicity gender sexuality religion and the Holocaust In each of these areas Sicher explores how major and emerging contemporary writers and artists re envision the meaning of their identities Such re envisioning may be literally visual or metaphorical in the search for expression of artistic self between the conventional paradigms of the past and new ways of thinking
