Selfhood Identity Esteem Regulation:

Selfhood Rick Hoyle, Michael H. Kernis, Mark R. Leary, Mark W. Baldwin, 2019-09-16 This text provides an integrative survey of the burgeoning social psychological literature on the self By way of an introduction the authors establish the intellectual climate that gave rise to contemporary perspectives on the self and integrate early and more recent research on the structure of the self The core of the text surveys the literature *Understanding Early Adolescent Self and Identity* Thomas M. Brinthaupt, Richard P. Lipka, 2012-02-01 What are the major self and identity concerns for early adolescents What are the applications and interventions that can address those concerns helping to ease the transition into later adolescence and adulthood Providing a broad and interdisciplinary approach to studying the self the contributors emphasize the practical implications of their work for understanding early adolescent self and identity and for designing interventions that facilitate development and adjustment The book consists of four major sections in which contributors address conceptual issues school transitions peer and behavioral problems and intervention programs Handbook of Identity Theory and Research Seth J. Schwartz, Koen Luyckx, Vivian L. Vignoles, 2011-06-22 Identity is one of the most extensively studied constructs in the social sciences Yet despite the wealth of findings across many disciplines identity researchers remain divided over such enduring fundamental questions as What exactly is identity and how do identity processes function Do people have a single identity or multiple identities Is identity individually or collectively oriented Personally or socially constructed Stable or constantly in flux The Handbook of Identity Theory and Research offers the rare opportunity to address the questions and reconcile these seeming contradictions bringing unity and clarity to a diverse and fragmented literature This exhaustive reference work emphasizes the depth and complexity of identity processes and domains and presents perspectives from many different theoretical schools and empirical approaches Contributing authors provide perspectives from psychology e g narrative social identity theory neo Eriksonian and from other disciplines e g sociology political science ethnic studies and the editors highlight the links between chapters that provide complementary insights on related subjects In addition to covering identity processes and categories that are well known to the field the Handbook tackles many emerging issues including Identity development among adopted persons Identity processes in interpersonal relationships Effects of globalization on cultural identity Transgender experience and identity Consumer identity and shopping behavior Social identity processes in xenophobia and genocide The Handbook of Identity Theory and Research lends itself to a wealth of uses by scholars clinicians and graduate students across many disciplines including social developmental and child school psychology human development and family studies sociology cultural anthropology gender ethnic and communication studies education and counseling *Handbook of Self and Identity* Mark R. Leary, June Price Tangney, 2012-01-01 Widely regarded as the authoritative reference in the field this volume comprehensively reviews theory and research on the self Leading investigators address this essential construct at multiple levels of analysis from neural pathways to complex social and

cultural dynamics Coverage includes how individuals gain self awareness agency and a sense of identity self related motivation and emotion the role of the self in interpersonal behavior and self development across evolutionary time and the lifespan Connections between self processes and psychological problems are also addressed New to This Edition Incorporates significant theoretical and empirical advances Nine entirely new chapters Coverage of the social and cognitive neuroscience of self processes self regulation and health self and emotion and hypoegeic states such as mindfulness
