Extractive Industry Indigenisation in Zimbabwe Kennedy Manduna, 2025-09-25 This book explains how and why Zimbabwe's extractive industry Indigenisation over promised its benefits yet under delivered upon implementation This book traces the history of uneven development in Zimbabwe from the initial days of colonialism to the present using the extractive industry as the unit of analysis to carve out a granular and empirical analysis of the preponderance of transnational corporate control and ownership in the country Indigenisation of Zimbabwe's extractive industries was intended to address mining inequalities by transferring wealth from rich non Indigenous mining capital to disadvantaged Indigenous citizens and communities This policy however was a response to political economic and social crises posed by the international isolation of Zimbabwe's government following the controversial Fast Track Land Reform Programme in 2000 2003 An intervention therefore which promised to address inequalities has thus been hampered by corruption co optation and collusion which has led to it not only failing to address uneven development but in actual fact worsening the situation By examining the hidden structures and infrastructures of power capital and minerals and placing extractive industry Indigenisation in capitalism this book makes a crucial scholarly contribution to the renewed and burgeoning debates around the resurgence of resource nationalism in general and the struggle for economic sovereignty in particular This book steers readers more broadly to look for new and diversified ways of

empowering Indigenous populations and their communities through mining Indigenisation in ways that do not threaten economic and political stability This book will be of great interest to students and scholars of the extractive industries natural resource management African politics and African development Human Rights for Pragmatists Jack Snyder,2024-11-26 An innovative framework for advancing human rights Human rights are among our most pressing issues today yet rights promoters have reached an impasse in their effort to achieve rights for all Human Rights for Pragmatists explains why activists prioritize universal legal and moral norms backed by the public shaming of violators but in fact rights prevail only when they serve the interests of powerful local constituencies Jack Snyder demonstrates that where local power and politics lead rights follow He presents an innovative roadmap for addressing a broad agenda of human rights concerns impunity for atrocities dilemmas of free speech in the age of social media entrenched abuses of women s rights and more Exploring the historical development of human rights around the globe Snyder shows that liberal rights based states have experienced a competitive edge over authoritarian regimes in the modern era He focuses on the role of power the interests of individuals and the groups they form and the dynamics of bargaining and coalitions among those groups The path to human rights entails transitioning from a social order grounded in patronage and favoritism to one dedicated to equal treatment under impersonal rules Rights flourish when they benefit dominant local actors with the clout to persuade ambivalent peers Activists policymakers and others attempting to advance rights should embrace a tailored strategy one that acknowledges local power structures and cultural practices Constructively turning the mainstream framework of human rights advocacy on its head Human Rights for Pragmatists offers tangible steps that all advocates can take to move the rights project forward

Parliament, 1870. **The Oxford Handbook of Shakespearean Tragedy** Michael Neill, David Schalkwyk, 2016. The Oxford Handbook of Shakespearean Tragedy is a collection of fifty-four essays by a range of scholars from all parts of the world bringing together some of the best-known writers in the field with a strong selection of younger Shakespeareans. Together these essays offer readers a fresh and comprehensive understanding of Shakespearean tragedies as both works of literature and as performance texts written by a playwright who was himself an experienced actor. The collection is organised in five sections. The opening section places the plays in a variety of illuminating contexts exploring questions of genre and examining ways in which later generations of critics have shaped our idea of Shakespearean tragedy. The second section is devoted to current textual issues while the third offers new critical readings of each of the tragedies. This is set beside a group of essays that deal with performance history with screen productions and with versions devised for the operatic stage as well as with twentieth and twenty-first century re-workings of Shakespearean tragedy. The book's final section seeks to expand readers' awareness of Shakespeare's global reach tracing histories of criticism and performance across the world. Offering the richest and most diverse collection of approaches to Shakespearean tragedy currently available, the Handbook will be an indispensable resource for students both undergraduate and graduate levels while the lively and provocative character of its essays make it required reading for teachers of Shakespeare everywhere. Feelin Bettina Judd, 2022-12-15. How creativity makes its way through feeling and what we can know and feel through the artistic work of Black women. Feeling is not feeling. As the poet, artist, and scholar Bettina Judd argues, feeling in African American Vernacular English is how Black women artists approach and produce knowledge as sensation, internal and complex, entangled with pleasure, pain, anger, and joy, and manifesting artistic production itself as the meaning of the work. Through interviews, close readings, and archival research, Judd draws on the fields of affect studies and Black studies to analyze the creative processes and contributions of Black women from poet Lucille Clifton and musician Avery Sunshine to visual artists Betye Saar, Joyce J. Scott, and Deana Lawson. Feelin: Creative Practice, Pleasure, and Black Feminist Thought makes a bold and vital intervention in critical theory's trend toward disembodiment of feeling as knowledge. Instead, Judd revitalizes current debates in Black studies about the concept of the

human and about Black life by considering how discourses on emotion as they are explored by Black women artists offer alternatives to the concept of the human Judd expands the notions of Black women's pleasure politics in Black feminist studies that include the erotic the sexual the painful the joyful the shameful and the sensations and emotions that yet have no name In its richly multidisciplinary approach *Feelin* calls for the development of research methods that acknowledge creative and emotionally rigorous work as productive by incorporating visual art narrative and poetry The Public Louis Freeland Post, Alice Thatcher Post, Stoughton Cooley, 1908 **Gay Shame** David M. Halperin, Valerie Traub, 2009 Ever since the 1969 Stonewall Riots gay pride has been the rallying cry of the gay rights movement and the political force behind the emergence of the field of lesbian and gay studies But has something been lost forgotten or buried beneath the drive to transform homosexuality from a perversion to a proud social identity Have the political requirements of gay pride repressed discussion of the more uncomfortable or undignified aspects of homosexuality *Gay Shame* seeks to lift this unofficial ban on the investigation of homosexuality and shame by presenting critical work from the most vibrant frontier in contemporary queer studies An esteemed list of contributors tackles a range of issues questions of emotion disreputable sexual histories dissident gender identities and embarrassing figures and moments in gay history as they explore the possibility of reclaiming shame as a new even productive way to examine lesbian and gay culture Accompanied by a DVD collection of films performances and archival imagery *Gay Shame* constitutes nothing less than a major redefinition and revitalization of the field
