Women's Experimental Poetry in Britain 1970-2010 David Kennedy, Christine Kennedy, 2013 This study presents the history and current state of women s experimental poetry in Britain and places it within wider social and political contexts Ranging from Geraldine Monk s ventriloquising of the Pendle witches to Denise Riley s highly self critical lyric poems from the multimedia experiments of Maggie O Sullivan to the globally aware politicised sequences of Andrea Brady and Jennifer Cooke this book theorises women s alternative poetry in terms of Julia Kristeva s idea of women s time and of the female poetic voice constantly negotiating with dominant systems of representation **G.K. Tatum, 2022-07-26 The literary culture of the Spanish speaking Southwest has its origins in a harsh frontier environment marked by episodes of intense cultural conflict and much of the literature seeks to capture the epic experiences of conquest and settlement The Chicano literary canon has evolved rapidly over four centuries to become one of the most dynamic growing and vital parts of what we know as contemporary U S literature In this comprehensive examination of Chicano and Chicana literature Charles M Tatum brings a new and refreshing perspective to the ethnic identity of Mexican Americans From the earliest sixteenth century chronicles of the Spanish Period to the poetry and narrative fiction of the second half of the nineteenth century and the first half of the twentieth century and then to the flowering of all literary genres in the post Chicano Movement years Chicano literature amply reflects the hopes and aspirations as well as the frustrations and disillusionments of an often marginalized population Exploring the work of Rudolfo Anaya Sandra Cisneros Luis Alberto Urrea and many more Tatum examines the important social historical and cultural contexts in which the writing evolved paying special attention to the Chicano Movement and the flourishing of literary texts during the 1960s and early 1970s Chapters provide an overview of the most important theoretical and critical approaches employed by scholars over the past forty years and survey the major trends and themes in contemporary autobiography memoir fiction and poetry The most complete and up to date introduction to Chicana literature available this book will be an ideal reference for scholars of Hispanic and American literature Discussion questions and suggested reading included at the end of each chapter are especially suited for classroom use Snake Poems Francisco X. Alarcón, 2019-03-12 For beloved writer and mentor Francisco X Alarcón the collection Snake Poems An Aztec Invocation was a poetic quest to reclaim a birthright Originally published in 1992 the book propelled Alarcón to the forefront of contemporary Chicano letters Alarcón was a stalwart student researcher and specialist on the lost teachings of his Indigenous ancestors He first found their wisdom in the words of his Mexica Aztec grandmother and then by culling through historical texts During a Fulbright fellowship to Mexico Alarcón uncovered the writings of zealously religious Mexican priest Hernando Ruiz de Alarcón 1587-1646 who collected often using extreme measures translated and interpreted Nahuatl spells and invocations In Snake Poems Francisco Alarcón offered his own poetic responses reclaiming the colonial manuscript and making it new This special edition is a tender tribute to Alarcón who passed away in 2016 and includes Nahuatl Spanish and English renditions of the 104 poems based on Nahuatl

invocations and spells that have survived more than three centuries The book opens with remembrances and testimonials about Alarcón's impact as a writer colleague activist and friend from former poet laureate Juan Felipe Herrera and poet and activist Odilia Galván Rodríguez who writes This book is another one of those doors that Francisco opened and invited us to enter Here we get to visit a snapshot in time of an ancient place of Nahuatl speaking ancestors and Francisco's poetic response to what he saw through their eyes **Ibbetson Street #41** Doug Holder,2017-06-05 Poetry by Pui Ying Wong Joyce Peseroff Ted Kooser Brendan Galvin and more *Riting Myth, Mythic Writing* Dennis Patrick Slattery,2012 *Riting Myth Mythic Writing Plotting Your Personal Story* is a both a theoretical as well as interactive book on the nature of personal myth Its intention is to offer participants who wish to explore further the terms and structure of their personal myth over 80 writing meditations that are spread throughout 9 chapters in order to guide the readers writers on a pilgrimage into the deepest layers of their personal myth **Poetry, Catastrophe, and Hope in the Vision of Isaiah** Francis Landy,2023-06-21 The book of Isaiah is one of the longest and strangest books of the Hebrew Bible composed over several centuries and traversing the catastrophe that befell the two kingdoms of Israel and Judah in the 8th and 6th centuries BCE Francis Landy's book tells the story of the poetic response to catastrophe and the hope for a new and perfect world on the other side The study traces two parallel developments the displacement of the Davidic promise onto the Persian Empire Israel and the prophet himself and the transition from exclusively male images of the deity to the matching of male and female prototypes whereby YHWH takes the place of the warrior goddess Poetry Catastrophe and Hope in the Book of Isaiah consists of close readings of individual passages in Isaiah commencing with Chapter One and the problems of beginning and ending with Deutero Isaiah composed subsequent to the Babylonian exile The volume is arranged thematically as well as sequentially the first chapter following the introduction concerns gender the second death the third the Oracles about the Nations At the centre there is what Landy calls the constitutive enigma Isaiah's commission in his vision to speak so that people will not understand This renders the entire book potentially incomprehensible the more we try to understand it the greater the difficulty For Landy this creates a model of reading and writing the challenge and the risk of going up blind alleys of trying to make sense of a disastrous world Isaiah's commission pervades the book Throughout there is a promise of an age of clarity as well as social and political transformation which is always deferred beyond the horizon Hence it is a book without an ending or with multiple endings In the final chapters the author turns to the central Chapter Thirty Three a *mise en abyme* of the book and a prayer for deliverance and the issues of exile and the possibility of return Like every poetic work particularly in an era of cultural collapse it is a critique of the past and a hope for a new humanity **The Poetry of Ted Hughes** Sandie Byrne,2014-08-15 This Reader's Guide charts the reception history of Ted Hughes poetry from his first to last published collection culminating in posthumous tributes and assessments of his lifetime achievement Sandie Byrne explores the criticism relating to key issues such as nature myth the Laureateship and Hughes relationship with Sylvia Plath

Creating a Family Storytelling Tradition Robin Moore, 1999 Creating a Family Storytelling Tradition focuses on telling stories at home with the family Moore guides the reader through a series of voyages that help assemble a storyteller's tool kit from inner memory imagination and visualization and outer voice gesture and movement tools **The Geschlecht**

Complex Oscar Jansson, David LaRocca, 2022-01-13 The polysemous German word Geschlecht denoting gender genre kind kinship species race and somehow also more exemplifies the most pertinent questions of the translational transdisciplinary transhistorical and transnational structures of the contemporary humanities What happens when texts objects practices and concepts are transferred or displaced from one language tradition temporality or form to another What is readily transposed what resists relocation and what precipitate emerges as distorted or new Drawing on Barbara Cassin's transformative remarks on untranslatability and the activity of philosophizing in languages scholars contributing to The Geschlecht Complex examine these and other durable queries concerning the ontological powers of naming and do so in the light of recent artistic practices theoretical innovations and philosophical incitements Combining detailed case studies of concrete category problems in literature philosophy media cinema politics painting theatre and the performing arts with a range of indispensable excerpts from canonical texts by notable field defining thinkers such as Apter Cassin Cavell Derrida Irigaray Malabou and Nancy among others the volume presents the Geschlecht complex as a condition to become aware of and in turn to companionably underwrite any interpretive endeavor Historically grounded yet attuned to the particularities of the present the Geschlecht complex becomes an invaluable mode for thinking and theorizing while ensconced in the urgent immediacy of pressing concerns and poised for the inevitable complexities of categorial naming and genre discernment that await in the so often inscrutable translation resistant twenty first century **Symposium of the Whole** Jerome

Rothenberg, Diane Rothenberg, 2016-04-19 Symposium of the Whole traces a discourse on poetry and culture that has profoundly influenced the art of our time with precedents going back two centuries and more Beginning with a reassertion of the complexity of poetry among peoples long labeled primitive and savage many recent poets have sought to base a new poetics over the fullest range of human cultures The attempt to define an ethno poetics has been significantly connected with the most experimental and future directed side of Romantic and modern poetry both in the Western world and increasingly outside it As a visionary poetics and as a politics this complex redefinition of cultural and intellectual values has involved a rarely acknowledged collaboration between poets and scholars who together have challenged the narrow view of literature that has excluded so many traditions In this gathering the Rothenbergs follow the idea of an ethno poetics from predecessors such as Vico Blake Thoreau and Tzara to more recent essays and manifestos by poets and social thinkers such as Olson Eliade Snyder Turner and Baraka The themes range widely from the divergence of oral and written cultures to the shaman as proto poet and the reemergence of suppressed and rejected forms and images the goddess the trickster and the human universe The book's three ethnographic sections demonstrate how various poetries are structured and composed how they

reflect meaning and worldview and how they are performed in cultures where all art may be thought of as art in motion Among the poetries discussed are the language of magic West African drum language and poetry the Huichol Indian language of reversals chance operations in African divination poetry picture writings and action writings from Australia and Africa and American Indian sacred clown dramas and traditional trickster narratives The cumulative effect is a new reading of the poetic past and present in the editors words a changed paradigm of what poetry was or now could come to be

Dying, Bereavement, and the Healing Arts Gillie Bolton, 2008 Offers valuable insights and inspiration for any practitioner working in a palliative care setting Australian contributor **Shamanic Elements in the Poetry of Ted Hughes** Ewa Panecka, 2018-04-18 This study on religious experience in modern poetry features innovative and accessible close readings of some of the most beloved authors of English verse In today's seemingly secular age religion still remains a highly contested subject The selection of texts analysed here is representative of a wide spectrum of attitudes including a sharply critical refusal to acknowledge Christianity as the basis of civilization Some poets see national religion as a framework for cultural identity while others worship nature as the omnipotent Force of Life trying to create their own gods Rather than reducing poetry to a background for philosophical analysis or theological deliberation this book presents diverse modes of the poetic endeavor to capture and convey the divine The chapters provide a range of perspectives on individual experience rendered into poetry as a subtle relationship between faith perception and language The text will be of interest to anyone looking for new ways of reading poetry as a spiritual quest
