The Shaman's Body Arnold Mindell, 1993-11-30 From the author of Dreambody a pioneering method of using crisis as a dynamic opportunity for accessing our inner world confronting our fears and catalyzing self discovery     The Beauty of the Primitive Andrei A. Znamenski, 2007-07-16 For the past forty years shamanism has drawn increasing attention among the general public and academics There is an enormous literature on shamanism but no one has tried to understand why and how Western intellectual and popular culture became so fascinated with the topic Behind fictional and non fictional works on shamanism Andrei A Znamenski uncovers an exciting story that mirrors changing Western attitudes toward the primitive The Beauty of the Primitive explores how shamanism an obscure word introduced by the eighteenth century German explorers of Siberia entered Western humanities and social sciences and has now become a powerful idiom used by nature and pagan communities to situate their spiritual quests and anti modernity sentiments The major characters of The Beauty of the Primitive are past and present Western scholars writers explorers and spiritual seekers with a variety of views on shamanism Moving from Enlightenment and Romantic writers and Russian exile ethnographers to the anthropology of Franz Boas to Mircea Eliade and Carlos Castaneda Znamenski details how the shamanism idiom was gradually transplanted from Siberia to the Native American scene and beyond He also looks into the circumstances that prompted scholars and writers at first to marginalize shamanism as a mental disorder and then to recast it as high spiritual wisdom in the 1960s and the 1970s Linking the growing interest in shamanism to the rise of anti modernism in Western culture and intellectual life Znamenski examines the role that anthropology psychology environmentalism and Native Americana have played in the emergence of neo shamanism He discusses the sources that inspire Western neo shamans and seeks to explain why lately many of these spiritual seekers have increasingly moved away from non Western tradition to European folklore A work of intellectual discovery The Beauty of the Primitive shows how scholars writers and spiritual seekers shape their writings and experiences to suit contemporary cultural ideological and spiritual needs With its interdisciplinary approach and engaging style it promises to be the definitive account of this neglected strand of intellectual history     Body Psychotherapy Totton, Nick, 2003-03-01 Body psychotherapy is an holistic therapy which approaches human beings as united bodymind and offers embodied relationship as its central therapeutic stance Well known forms include Reichian Therapy Bioenergetics Dance Movement Therapy Primal Integration and Process Oriented Psychology     Shamanism and Spirituality in Therapeutic Practice Christa Mackinnon, 2012-06-15 This book explains how psycho spiritual indigenous traditions can be adjusted to offer practitioners a highly effective repertoire of insights and therapeutic tools The underlying concepts and world views of shamanism are described along with practical guidelines and case studies detailing how to use them within the therapeutic process     Dreaming While Awake Arnold Mindell, 2002-10-01 Mindell examines addictions relationships time travel lucid healing preventive medicine and Dreaming as world work The Dream Network Journal What if you could dream twenty four

*The Deep Democracy of Open Forums* Arnold

Mindell,2002-11-01 Most of us are terrified of conflict says Arnold Mindell PhD author of fifteen books and internationally recognized for his innovative synthesis of Jungian therapy dreams and bodywork But we needn't be His burning passion is to create groups and organizations where everyone looks forward to group processes instead of fearing them He calls this the deep democracy of open forums where all voices thoughts and feelings are aired freely especially the ones nobody wants to hear Since 1992 one of Mindell's prime interests has been the bringing of deeper awareness to group conflicts Conflict work without reference to altered states of consciousness is like a flu shot for someone in a manic or depressed state of consciousness Most group and social problems cannot be well facilitated or resolved without access to the dreamlike and mystical atmosphere in the background The key is becoming aware of it Mindell introduces a new paradigm for working in groups from 3 to 3 000 based on awareness of the flow of signals and events You can take the subtlest of signals indicating the onset of emotions such as fear anger hopelessness and other altered states and use them to transform seemingly impossible problems into uplifting community experiences As Mindell explains I share how everyone people in schools and organizations communities and governments can use inner experiences dreaming and mysticism in conjunction with real methods of conflict management to produce lively more sustainable conscious communities The Mindful Body Noa
