Shamans Prophets And Sages:

Shamans, Prophets, and Sages Denise Lardner Carmody, John Carmody, 1974 **An Introductory Dictionary of Theology and Religious Studies** Orlando O. Espín, James B. Nickoloff, 2007 Spanning the gamut from Aaron to Zwingli this dictionary includes nearly 3 000 entries written by about sixty authors all of whom are specialists in their various theological and religious disciplines The editors have designed the dictionary especially to aid the introductory level student with instant access to definitions of terms likely to be encountered in but not to substitute for classroom presentations or reading assignments Publisher **Shaman and Sage** Michael Horton, 2024-05-28 The first volume of Michael Horton s magisterial intellectual history of spiritual but not religious as a phenomenon in Western culture Discussions of the rapidly increasing number of people identifying as spiritual but not religious tend to focus on the past century But the SBNR phenomenon and the values that underlie it may be older than Christianity itself Michael Horton reveals that the hallmarks of modern spirituality autonomy individualism utopianism and more have their foundations in Greek philosophical religion Horton makes the case that the development of the shaman figure in the Axial Age particularly its iteration among Orphists represented a divine self One must realize the divinity within the self to break free from physicality and become one with a panentheistic unity Time and time again this tradition of divinity hiding in nature has arisen as an alternative to monotheistic submission to a god who intervenes in creation This first volume traces the development of a utopian view of the human individual a divine soul longing to break free from all limits of body history and the social and natural world When the second and third volumes are complete students and scholars will consult *The Divine Self* as the authoritative guide to the spiritual but not religious tendency as a recurring theme in Western culture from antiquity to the present **Prophets Male and Female** , 2013-06-05 Because gender is an essential component of societies of all times and places it is no surprise that every prophetic expression in the ancient social world was a gendered one In this volume scholars of the biblical literature and of the ancient Mediterranean consider a wide array of prophetic phenomena In addition to prophetic texts of the Hebrew Bible the essays also look at prophecy in ancient Mesopotamia and early Christianity Using the most current theoretical categories the volume demonstrates how essential a broad definition of gender is for understanding its connection to both the delivery and the content of ancient prophecy Attention to gender dynamics will continue to reveal the fluidity of prophetic gender performance and to open up the ancient contexts of prophetic texts The contributors are Roland Boer Corrine Carvalho Lester L Grabbe Anselm C Hagedorn Esther J Hamori Dale Launderville Antti Marjanen Martti Nissinen Jonathan St kl Hanna Tervanotko and Ilona Zsolnay *Woman Prophet* Elizabeth Love, 2019-04-30 Most women are raised in a context of feminine values whether they are aware of those values or not Some of the values specific to this feminine culture are interdependence caring and relationality In our time many women cross over into a masculine value culture when they take on what were traditional male roles in male evolved institutions Eventually women become aware that their own values

conflict with some assumed male values They then have to compromise and adjust in order to be productive in those environments The women I have focused on in this study have because of a significant external event or events and an emerging inner vision left both structures They then however lack others around them whose values structures can reinforce adherence When these women are by themselves they experience something like a dark night of the soul Once they get beyond the pain and a sense of meaninglessness they begin to realize that they can move the constructs of reality that they can write history as well as read it An essential concern is to determine what their values are After this process their own personal vision becomes clear But the cycle isn't complete until they bring that new vision back to their people And bringing it back in a holistic sense helps to raise the moral sights of others who are influenced by that experience

Drama and Power in a Hunting Society Anne Chapman, 1982-11-11 The Selk'nam people now virtually extinct are a classic example of hunting societies The book is based on the author's field work among the last surviving pure Selk'nam as well as an exhaustive review of the previous literature

The Life of a Galilean Shaman Pieter F Craffert, 2010-02-25 The aim of historical Jesus research is to identify the authentic material from which the historical figure as a social type underneath the overlay is constructed Pieter Craffert's anthropological historiography offers an alternative framework for dealing with Jesus of Nazareth as a social personage fully embedded in a first century Mediterranean worldview and the Gospels as cultural artefacts related to this figure This cross cultural model represents a religious pattern that refers to a family of features for describing those religious entrepreneurs who based on regular Altered State of Consciousness experiences perform a specific set of social functions in their communities

Spirituality, Diversion, and Decadence Peter Higbie Van Ness, 1992-01-01 This book presents a philosophical rethinking of the meaning and nature of spiritual discipline It offers a new way of describing and justifying practices like praying meditating fasting and yoga and it provides an innovative case for their contemporary importance Spiritual discipline is especially effective at combatting Pascalian diversion the pursuit of activities

that occupy the mind just enough to avoid thinking about important things and Nietzschean decadence the proclivity for extirpating instinctive drives instead of satisfying or sublimating them In addition to overcoming diversion and decadence in contemporary consumerist culture VanNess recommends spiritual discipline as a means of political resistance to powerful institutions which seek to exercise social control in democratic societies by promulgating addictive patterns of consumption Finally he argues that regimens of spiritual discipline can serve healthful and liberating purposes and generally promote fullness of life only insofar as they are shaped by an ethos of intellectual criticism and aesthetic experimentation

The Integration of Psyche and Spirit Burton Daniels, 2002-11 The Integration of Psyche and Spirit presents an interactive model of a new genre of psychology Integral Psychology In this genre all schools and systems of psychology are unified within a single all inclusive framework Psychoanalysis Behaviorism Cognitive Psychology Existentialism and Transpersonal Psychology all find their rightful place as members in a new democracy of mind Building on the pioneering work of Freud Jung Kohut Maslow and Wilber as aligned to the spiritual revelation of the Ruchira Avatar Adi Da Samraj Burton Daniels has developed a comprehensive theory of psychic structure personality development and clinical practice It is the intent of this work to usher in a new era within professional psychology where all schools and systems can benefit from a common language and theoretical framework This breakthrough is made possible by a conception of the psyche that includes every aspect of structure and development within a single comprehensive theory The Apex Paradox The author integrates the Avatar Adi Da's teaching on psychology and spirituality into this analysis providing a compelling argument for the inclusion of spirituality into psychological theory and a strong argument for the truth of the Avatar Adi Da's teaching

Everyday Objects Tara Hamling, Catherine Richardson, 2010 Material culture research has become an increasingly important aspect of the study of medieval and early modern societies yet its study often remains uncoordinated and confined to narrow subject specific boundaries As such scholars will welcome this volume which provides an overview of various methodological strands currently developing across a range of disciplines Taking a refreshingly broad approach the collection explores everyday objects as a way of questioning

the relationship between material culture and historical themes In so doing it highlights the way in which the study of objects can provide unexpected access to the lived experience of individuals who may otherwise have left little impact in the written records

A Stranger in Jerusalem Trevan G. Hatch, 2019-06-26 In *A Stranger in Jerusalem* Trevan Hatch attempts to situate the stories about Jesus within their Jewish context Jesus was a Jew his friends were Jews his first followers were Jews he studied the Hebrew Scriptures either orally or from texts he worshiped in the synagogue and he occasionally traveled to Jerusalem to observe the Israelite festivals Hatch illustrates that Jesus does not seem to have rejected Judaism or acted as a radical outsider in relation to his Jewish peers but rather he worked within a Jewish framework The overarching questions addressed in this book are 1 how can an understanding of early Judaism illuminate our understanding of the Jesus traditions 2 how did Jesus relate to his Jewish world and vice versa 3 why did the Gospel writers portray Jesus and his Jewish peers the way they did and 4 how would Jews in the first and second centuries have interpreted the Jesus traditions upon hearing or reading them Hatch explores several topics including childhood and family life in first century Galilee Jewish notions of baptism and purity Jewish prophets and miracle workers Jewish ideas about the messiah and Jesus relationship with Judas the Pharisees the priestly establishment in Jerusalem the Jewish populace and his own disciples [Search Without Idols](#) W.

Horosz, 2012-12-06 *Search Without Idols* is a study of human transcendence in the context of human striving projecting surpassing overcoming This power is central to man's search for wholeness Such transcendence makes reality tolerable It provides us with an impressive array of human responses which enable us to cope But it also provides the excesses that go beyond human striving Nothing seems to be off limits to this ubiquitous power Such a state of surpassing limits is what we find in the relation between the human search for wholeness and the quest for external totalities which lies beyond the human context Such soaring flights beyond the capacity of human striving are hard to control impossible to show responsibility for and beyond the reach of criteria The reach exceeds both our grasp and our control Transcendence then is a greatly used and much abused human power Its activities have never ceased to amaze me its excesses have always troubled me even from the beginning of my studies This book is not an exercise in self clarification I have some thoughts on the matter which I wish to share with the reader Perhaps we can mutually appreciate the great gift without compromising our sanity

Part I will provide a new look at the meaning of transcendence

Outsider Art Daniel Wojcik, 2016-08-25 Outsider art has exploded onto the international art scene gaining widespread attention for its startling originality and visual power As an expression of raw creativity outsider art remains associated with self taught visionaries psychiatric patients trance mediums eccentric outcasts and unschooled artistic geniuses who create things outside of mainstream artistic trends and styles *Outsider Art Visionary Worlds and Trauma* provides a comprehensive guide through the contested terrain of outsider art and the related domains of art brut visionary art art of the insane and folk art The book examines the history and primary issues of the field as well as explores the intersection between culture and individual creativity that is at the very heart of outsider

art definitions and debates Daniel Wojcik's interdisciplinary study challenges prevailing assumptions about the idiosyncratic status of outsider artists This wide ranging investigation of the art and lives of those labeled outsiders focuses on the ways that personal tragedies and suffering have inspired the art making process In some cases trauma has triggered a creative transformation that has helped artists confront otherwise overwhelming life events Additionally Wojcik's study illustrates how vernacular traditions religious worldviews ethnic heritage and popular culture have influenced such art With its detailed consideration of personal motivations cultural milieu and the potentially therapeutic aspects of art making this volume provides a deeper understanding of the artistic impulse and human creativity

The War Within - Between Good and Evil Bhimeswara Challa, The human has always prided himself as an exceptional moral species but has always been haunted by two questions Why am I not good when I want to be why do I do bad when I don't want to This is at the heart of what scriptures and sages have long alluded to as the eternal internal struggle between good and evil that wages in the human consciousness The book posits that much of our confusion and angst stems from our inability to recognize the ramifications of this war between two sides of our own self It is because we are ignoring this war between two sides of our own self It is because we are ignoring this war that we are losing all other wars of the world That ignorance is the primary source of all the horrors malevolence and violence that fill us with so much dread But a favorable outcome is possible only if the forces of goodness are aided to get an upper hand consistently and that calls for two cathartic changes consciousness change by inducing a turn from the mind to the heart and contextual change by radically reconstructing the roles of morality money and mortality in our everyday lives The book offers a menu of insights and options we all can use to tilt the scales in the war waging inside each of us

Hopkins, 1991 Originally published by Scholars Press Now Available from Duke University Press This volume focuses theoretically and practically on thematic approaches for teaching comparative courses in religion It seeks to address the impact that the comparative study of religion has had on the humanities how it has fared in the various pedagogic shifts discerned in the liberal arts over the last decade and how the study of religion can serve to globalize humanities education in our increasingly culturally and religiously plural world Contributors Linda Barnes Karen McCarthy Brown John B Carman Richard M Carp John E Cort William R Darrow Kendall W Folkert William A Graham Steven P Hopkins John Stratton Hawley Mark Juergensmeyer Miriam Levering Robin W Lovin Richard R Niebuhr Thomas V Peterson Frank E Reynolds Frederick J Streng Michael D Swartz Lee H Yearly Carol Zaleski

Faith of the Managers Stephen Pattison, 1997-01-11 According to Stephen Pattison managers have become the cultural heroes of our time In this book he examines some of the values assumptions beliefs and practices they embrace Managerialism he argues is a form of religious faith and he criticizes the utopianism of those whom managers look upon as gurus He suggests that managers should apply to their faith some of the critical spirit that theologians have applied to religious belief His book will be of interest to all who want more from management than manipulative technique and

incomprehensible jargon The Shaman John A. Grim, 1987 Tribal peoples believe that the shaman experiences, absorbs and communicates a special mode of power sustaining and healing. This book discusses American Indian shamanic traditions, particularly those of the Woodland Ojibway, in terms drawn from the classical shamanism of Siberian peoples. Using a cultural historical method, John A. Grim describes the spiritual formation of shamans, male and female, and elucidates the special religious experience that they transmit to their tribes. Writing as a historian of religion well acquainted with ethnological materials, Grim identifies four patterns in the shamanic experience: cosmology, tribal sanction, ritual reenactment, and trance experience. Relating those concepts to the Siberian and Ojibway experiences, he draws on mythology, sociology, anthropology, and psychology to paint a picture of shamanism that is both particularized and interpretative. As religious personalities, shamans are important today because of their singular ability to express symbolically the forces that animate the tribal cosmology. Often identifying themselves with primordial earth processes, shamans develop symbol systems drawn from the archetypal earth images that are vital to their psychic healing technique. This particular ability to resonate with the natural world is felt as an important need in our time. Those readers who identify with American Indians as they confront modern technological society will value this introduction to our native shamanic traditions and to the religious experience itself. The author's discussion of Ojibway practices is the most comprehensive short treatment available, written with a fine poetic feeling that reflects the literary expressiveness inherent in American Indian religion and thought.
