Shanghai Capitalists And The Nationalist Government 1927 1937:

The Shanghai Capitalists and the Nationalist Government, 1927-1937 Parks M. Coble, Jr., 2020-03-17 A common generalization about the Nationalist Government in China during the 1927 1937 decade has been that Chiang Kai shek s regime was closely allied with the capitalists in Shanghai This book brings to light a different picture that Nanking sought to control the capitalists politically to prevent them from having a voice in the political structure and to milk the wealth of the urban economy for government coffers This study documents major political conflicts between the capitalists and the government and demonstrates that the regime gradually suppressed the main organizations of the capitalists and gained control of many of their financial and industrial enterprises This is the first systematic examination of the political role of the Shanghai capitalists during the Nanking decade A number of related issues the operation of the government bond market the role of the Shanghai underworld and its ties to Chiang Kai shek the personalities and policies of key government officials such as TV Soong and H H Kung the Japanese attempt to control the economic policies of the Nanking government and the growth of bureaucratic capitalism are brought into focus *The Shanghai Capitalists and the Nationalist Government, 1927-1937* Parks M. Coble, 1986 A common generalization about the Nationalist Government in China during the 1927 1937 decade has been that Chiang Kai shek s regime was closely allied with the capitalists in Shanghai This book brings to light a different picture that Nanking sought to control the capitalists politically to prevent them from having a voice in the political structure and to milk the wealth of the urban economy for government coffers This study documents major political conflicts between the capitalists and the government and demonstrates that the regime gradually suppressed the main organizations of the capitalists and gained control of many of their financial and industrial enterprises This is the first systematic examination of the political role of the Shanghai capitalists during the Nanking decade A number of related issues the operation of the government bond market the role of the Shanghai underworld and its ties to Chiang Kai shek the personalities and policies of key government officials such as TV Soong and H H Kung the Japanese attempt to control the economic policies of the Nanking government and the growth of bureaucratic capitalism are brought into focus *The Shanghai Capitalist Class and the Nationalist Government, 1927-1937* (). Parks McLendon Coble, 1980 **The Shanghai Capitalist Class and The Nationalist Government, 1927-1937** , 1975 **The Nationalist Era in China, 1927-1949** Lloyd E. Eastman, 1991-08-30 In recent years historians of China have focused increased attention on the critical decades of National rule on the mainland This recent scholarship has substantially modified our understanding of the political events of this momentous period shedding light on the character of Nationalist rule and on the sources of the Communist victory in 1949 Yet no existing textbook on modern China presents the events of the period according to these new findings The five essays in this volume were written by leading authorities on the period and they synthesize the new research Drawn from Volume 13 of The Cambridge History of China they represent the most complete and stimulating political history of the

period available in the literature The essays selected deal with Nationalist rule during the Nanking decade the Communist movement from 1927 to 1937 Nationalist rule during the Sino Japanese War the Communist movement during the Sino Japanese war and the Kuomintang Communist struggle from 1945 to 1949

The Collapse of Nationalist China Parks M. Coble, 2023-03-30 When World War II ended Chiang Kai shek seemed at the height of his power the leader of Nationalist China one of the victorious Allied Powers in 1945 and with the financial backing of the US Yet less than four years later he lost the China s civil war against the communists Offering an insightful chronological treatment of the years 1944 1949 Parks Coble addresses why Chiang was unable to win the war and control hyperinflation Using newly available archival sources he reveals the critical weakness of Chiang s style of governing the fundamental structural flaws in the Nationalist government bitter personal rivalries and Chiang s personal lack of interest in finance This major work of revisionist scholarship will engage all those interested in the shaping of twentieth century history

China in War and Revolution, 1895-1949 Peter Zarrow, 2006-06-07 Providing historical insights essential to the understanding of contemporary China this text presents a nation s story of trauma and growth during the early twentieth century It explains how China s defeat by Japan in 1895 prompted an explosion of radical reform proposals and the beginning of elite Chinese disillusionment with the Qing government The book explores how this event also prompted five decades of efforts to strengthen the state and the nation democratize the political system and build a fairer and more unified society Peter Zarrow weaves narrative together with thematic chapters that pause to address in depth themes central to China s transformation While the book proceeds chronologically the chapters in each part examine particular aspects of these decades in a more focused way borrowing from methodologies of the social sciences cultural studies and empirical historicism Essential reading for both students and instructors alike it draws a picture of the personalities ideas and processes by which a modern state was created out of the violence and trauma of these decades

The Global Cigarette Howard Cox, 2000-03-16 During the 1880s the tobacco manufacturing industries of Britain and America were revolutionized by the introduction of mechanized cigarette production The development of this novel image laden product constituted a triumph for the methods of mass production and mass distribution in this most traditional of consumer goods industries The Global Cigarette charts the way in which these innovations in manufacturing and marketing methods led to the formation in 1902 of the British American Tobacco Co as an Anglo American multinational joint venture designed

Revolution and Its Past R. Keith Schoppa, 2017-10-03 Unlike other texts on modern Chinese history which tend to be either encyclopedic or too pedantic *Revolution and Its Past* is comprehensive but concise focused on the most recent scholarship and written in a style that engages students from beginning to end The Third Edition uses the theme of identities of the nation itself and of the Chinese people to probe the vast changes that have swept over China from late imperial times to the early twenty first century In so doing it explores the range of identities that China has chosen over time and those that outsiders have attributed to China and its people showing how as China rapidly modernizes the issue of Chinese identity in the modern world looms large

Breaking with the Past Hans van de Ven, 2014-02-11 Between its founding in 1854 and its collapse in 1952 the Chinese Maritime Customs Service delivered one third to one half of all revenue collected by China's central authorities Much more than a tax collector the institution managed China's harbors erected lighthouses and surveyed the Chinese coast It funded and oversaw the Translator's College which trained Chinese diplomats while its staff translated Chinese classics novels and poetry and wrote important studies on the Chinese economy its financial system its trade its history and its government It organized contributions to international exhibitions developed its own shadow diplomacy pioneered China's modern postal system and even maintained its own armed force After the 1911 Revolution the agency became deeply involved in the management of China's international loans and domestic bond issues In other words the Customs Service was pivotal to China's post Taiping integration into the world of modern nation states and twentieth century trade and finance If the Customs Service introduced the modern governance of trade to China it also made Chinese legible to foreign audiences Following the activities of the Inspectors General who were virtual autocrats within the service and communicated regularly with senior Chinese officials and foreign diplomats this history tracks the Customs Service as it transformed China and its relationship to the world The Customs Service often kept China together when little else did This book reveals the role of the agency in influencing the outcomes of the Sino French War the Boxer Rebellion and the 1911 Revolution as well as the rise of the Nationalists in the 1920s and concludes with the Customs Service purges of the early 1950s when the relentless logic of revolution dismantled the agency for good

Newspapers and the Journalistic Public in

Republican China Qiliang He, 2018-10-08 Offering an entirely new approach to understanding China's journalism history this book covers the Chinese periodical press in the first half of the twentieth century By focusing on five cases either occurring in or in relation to the year 1917 this book emphasizes the protean nature of the newspaper and seeks to challenge a press historiography which suggests modern Chinese newspapers were produced and consumed with clear agendas of popularizing enlightenment modernist and revolutionary concepts Instead this book contends that such a historiography which is premised on the classification of newspapers along the lines of their functions overlooks the opaqueness of the Chinese press in the early twentieth century Analyzing modern Chinese history through the lens of the newspaper this book presents an interdisciplinary and international approach to studying mass communications As such this book will be useful to students and scholars of Chinese history journalism and Asian Studies more generally

Power by Design Suisheng Zhao, 1995-12-01 First established as a cabinet system in Guangzhou in 1925 the Nationalist Government of China was replaced three years later by a presidential system under a unified Nationalist government in Nanjing The cabinet government was restored in 1931 and existed until the presidential system was again installed by the 1936 constitution Why did presidential and cabinet systems exist alternately during this formative period of the Nationalist government Why was the presidential system finally adopted in 1936 Suisheng Zhao answers these and other questions fundamental to understanding authoritarian regimes in this pioneering study of the design of the Nationalist Government of China from 1925 to 1937 although scholars of comparative politics have shown great interest in the institutional choice between parliamentarianism and presidentialism in democratic countries they have paid little attention to the study of constitutional frameworks in authoritarian settings By offering a clear and original re interpretation of the history of this power struggle between Chiang Kai shek and his rivals over institutional design Zhao challenges the conventional wisdom that has underestimated the importance of formal institutions in non democratic regimes Borrowing ideas from public choice theory Zhao proposes that political actors who design governmental institutions are driven by power maximization strategies just as business firms are driven by wealth maximization strategies Constitution making reflects the underlying distribution of power among authoritarian leaders who attempt to design political institutions that will consolidate their personal power and position Thus Zhao argues if political actors possess more power resources than their rivals and anticipate themselves becoming dominant they will choose the singular leadership of the presidential system If they are in a weaker position and do not anticipate becoming dominant they will prefer the collective leadership of the cabinet form of government Notable for its persuasive integration of political science theory and the historical evidence *Power by Design* is an insightful re interpretation of Chinese history that will be welcomed by scholars of modern China and those interested in the consequences of the nationalist politics that continue to reverberate in contemporary China as well as by comparative political scientists studying constitution making and institutional design

Empire of Silver Jin Xu, 2021-02-23 A thousand year history of how China's obsession with silver influenced the country's financial well being global standing and political stability This revelatory account of the ways silver shaped Chinese history shows how an obsession with white metal held China back from financial modernization First used as currency during the Song dynasty in around 900 CE silver gradually became central to China's economic framework and was officially monetized in the middle of the Ming dynasty during the sixteenth century However due to the early adoption of paper money in China silver was not formed into coins but became a cumbersome weighing currency for which ingots had to be constantly examined for weight and purity an unwieldy practice that lasted for centuries While China's interest in silver spurred new avenues of trade and helped increase the country's global economic footprint Jin Xu argues that in the long run silver played a key role in the struggles and entanglements that led to the decline of the Chinese empire
