**Republican Beijing** Madeleine Yue Dong, 2003-08-04 The first comprehensive history of Republican Beijing with a focus on social and cultural life in the city This book examines how Republican Beijing through the very processes of modernization and the material and cultural practices of recycling acquired its identity as a consummately traditional Chinese city      **War and Theatrical Innovation** Victor Emeljanow, 2017-10-14 This book examines the relationship between wartime conflict and theatre practices Bringing together a diverse collection of essays in one volume it offers both a geographically and historically wide view of the subject taking examples from Britain Australia and America to the Middle East Korea and China and spanning the fifth century BCE to the present day It explores the ways in which theatre practices have been manipulated

for use in political and military propaganda such as the employment of scenographers to work on camouflage and the application of acting methods in espionage training It also maps the change in relationships between performers and audiences as a result of conflict and the emergence of new forms of patronage during wartime theatre going boosting morale at periods when social structures and identity were being destabilized **Class and the Communist Party of China, 1921-1978** Marc Blecher, David S G Goodman, Yingjie Guo, Jean-Louis Rocca, Tony Saich, 2022-02-24

Elizabeth Perry, 2012-10-01 How do we explain the surprising trajectory of the Chinese Communist revolution Why has it taken such a different route from its Russian prototype An answer Elizabeth Perry suggests lies in the Chinese Communists creative development and deployment of cultural resources during their revolutionary rise to power and afterwards Skillful cultural positioning and cultural patronage on the part of Mao Zedong his comrades and successors helped to construct a polity in which a once alien Communist system came to be accepted as familiarly Chinese Perry traces this process through a case study of the Anyuan coal mine a place where Mao and other early leaders of the Chinese Communist Party mobilized an influential labor movement at the beginning of their revolution and whose history later became a touchstone of political correctness in the People s Republic of China Once known as China s Little Moscow Anyuan came over time to symbolize a distinctively Chinese revolutionary tradition Yet the meanings of that tradition remain highly contested as contemporary Chinese debate their revolutionary past in search of a new political future **Insurgency Trap** Eli Friedman, 2014-05-08

During the first decade of the twenty first century worker resistance in China increased rapidly despite the fact that certain segments of the state began moving in a pro labor direction In explaining this Eli Friedman argues that the Chinese state has become hemmed in by an insurgency trap of its own devising and is thus unable to tame expansive worker unrest Labor conflict in the process of capitalist industrialization is certainly not unique to China and indeed has appeared in a wide array of countries around the world What is distinct in China however is the combination of postsocialist politics with rapid

capitalist development Other countries undergoing capitalist industrialization have incorporated relatively independent unions to tame labor conflict and channel insurgent workers into legal and rationalized modes of contention In contrast the Chinese state only allows for one union federation the All China Federation of Trade Unions over which it maintains tight control Official unions have been unable to win recognition from workers and wildcat strikes and other forms of disruption continue to be the most effective means for addressing workplace grievances In support of this argument Friedman offers evidence from Guangdong and Zhejiang provinces where unions are experimenting with new initiatives leadership models and organizational forms

**A New Deal for China's Workers?** Cynthia Estlund, 2017-01-02 China's leaders aspire to the prosperity political legitimacy and stability that flowed from America's New Deal but they are irrevocably opposed to the independent trade unions and mass mobilization that brought it about Cynthia Estlund's crisp comparative analysis makes China's labor unrest and reform legible to Western readers

*The Ashgate Companion to the History of Textile Workers, 1650-2000* Dr Elise van Nederveen Meerkerk, Mr Els Hiemstra-Kuperus, Prof Dr Lex Heerma van Voss, 2013-06-28 This impressive collection offers the first systematic global and comparative history of textile workers over the course of 350 years This period covers the major changes in wool and cotton production and the global picture from pre industrial times through to the twentieth century After an introduction the first part of the book is divided into twenty national studies on textile production over the period 1650-2000 To make them useful tools for international comparisons each national overview is based on a consistent framework that defines the topics and issues to be treated in each chapter The countries described have been selected to include the major historic producers of woollen and cotton fabrics and the diversity of global experience and include not only European nations but also Argentina Brazil China Egypt India Japan Mexico Turkey Uruguay and the USA The second part of the book consists of ten comparative papers on topics including

globalization and trade organization of production space identity workplace institutions production relations gender ethnicity and the textile firm These are based on the national overviews and additional literature and will help apply current interdisciplinary and cultural concerns to a subject traditionally viewed largely through a social and economic history lens Whilst offering a unique reference source for anyone interested in the history of a particular country's textile industry the true strength of this project lies in its capacity of international comparison By providing global comparative studies of key textile industries and workers both geographically and thematically this book provides a comprehensive and contemporary analysis of a major element of the world's economy This allows historians to challenge many of the received ideas about globalization for instance highlighting how global competition for lower production costs is by no means a uniquely modern issue and has been a feature of textile production for much of the last 350 years As such this collection will be welcomed by all scholars engaged in the history of the textile industry and international trade *Red Silk* Robert Cliver, 2021-02-01 *Red Silk* is a history of China's Yangzi Delta silk industry during the wars crises and revolutions of the mid twentieth century Based on extensive research in Chinese archives and focused on the 1950s the book compares two very different groups of silk workers and their experiences in the revolution Male silk weavers in Shanghai factories enjoyed close ties to the Communist party state and benefited greatly from socialist policies after 1949 In contrast workers in silk thread mills or filatures were mostly young women who lacked powerful organizations or ties to the revolutionary regime For many filature workers working conditions changed little after 1949 and politicized production campaigns added a new burden within the brutal and oppressive factory regime in place since the nineteenth century Both groups of workers and their employers had to adapt to rapidly changing circumstances Their actions protests petitions bribery tax evasion compelled the party state to adjust its policies producing new challenges The results though initially positive for many were ultimately disastrous By the end of the 1950s there was widespread conflict and deprivation among silk workers and despite its impressive recovery under Communist rule the industry faced a crisis worse than war and revolution *China in War and Revolution, 1895-1949* Peter Zarrow, 2006-06-07 Providing historical insights essential to the understanding of contemporary China this text presents a nation's story of trauma and growth during the early twentieth century It explains how China's defeat by Japan in 1895 prompted an explosion of radical reform proposals and the beginning of elite Chinese disillusionment with the Qing government The book explores how this event also prompted five decades of efforts to strengthen the state and the nation democratize the political system and build a fairer and more unified society Peter Zarrow weaves narrative together with thematic chapters that pause to address in depth themes central to China's transformation While the book proceeds chronologically the chapters in each part examine particular aspects of these decades in a more focused way borrowing from methodologies of the social sciences cultural studies and empirical historicism Essential reading for both students and instructors alike it draws a picture of the personalities ideas and processes by which a modern state was created out of the

violence and trauma of these decades      **Global Labour History** Jan Lucassen, 2008 Contains 18 essays on worldwide aspects and comparisons in labour history Covers mainly the period from the beginning of 19th century to 2000
