Folk Music of Britain - and Beyond Frank Howes,2015-12-22 Originally published in 1969 Until the latter half of the nineteenth century it was thought that England alone among the European countries and unlike Scotland and Ireland where

collections of ballads and songs had already been published as early as the eighteenth century had no important native tradition of music The founding of the English Folk Song Society in 1898 however and the pioneering work of such collectors as Lucy Broadwood the Reverend S Baring Gould and later Cecil Sharp uncovered a still flourishing folk culture Since then interest in this subject has grown steadily and the bibliography of publications of actual folk songs and ballads is now huge Frank Howes sets out a general and scholarly introduction first examining in detail the history and origins of folk music and going on to show the nature and vast amount of the material enforcing his arguments with a wealth of examples from around the world His discussion of the differences of national idiom leads on to a comparison of British folk music with that of other European countries and America in which he pays due attention to the Celtic and Norse traditions Separate sections on balladry carols street cries broadsides sea shanties nursery rhymes and instruments illustrate both the variety of folk music and the extent to which it permeates our national heritage
