Jay P. Graves and the Spokane & Inland Empire Railroad Company Lorri Moulton, The Spokane Inland Empire Railroad started as a streetcar line used largely for real estate development and grew into a regional electric railway noted for its cutting edge technology and elegant sense of style Jay P Graves and the other men connected with the railroad created land improvement companies designed to provide luxury resorts as well as plan small towns Within a few years the rail lines would stretch from Spokane to Coeur d Alene and Hayden lakes to the east with another line heading south through the Palouse splitting at Spring Valley to Colfax and Moscow *Echoes of the Past* Deb Lish,2016-05-13 A little girl from a coal mining town in Ohio May Arkwright made the decision to migrate west to the gold rich in northern Idahos mining country Her life changed when she met train engineer Levi Al Hutton and found they had common childhood goals and dreams They married on January 17 1887 The Huttons became involved in the mining wars and Idaho Labor Strike in 1892 May became interested in womens suffrage movement fighting for equal rights for women From a small investment they became millionaires twice over The Huttons moved to Spokane Washington in 1907 where Al built May a mansion During this time she became ill and died shortly after For the first time in many years Al was alone His dream became true as the formation of the Hutton Settlement started taking shape for many orphans Levi Al Hutton died on November 3 1928 May and Al played prominent roles in the Coeur dAlene mining wars They realized that the great joy in life was giving Exploring the Huttons as partners makes their story significant to Western history as well as womens history Their legacy should live on forever

Mental Territories Katherine G. Morrissey,2018-09-05 Rarely recognized outside its boundaries today the Pacific Northwest region known at the turn of the century as the Inland Empire included portions of the states of Washington and Idaho as well as British Columbia Katherine G Morrissey traces the history of this self proclaimed region from its origins through its heyday In doing so she challenges the characterization of regions as fixed places defined by their geography economy and demographics Regions she argues are best understood as mental constructs internally defined through conflicts and debates among different groups of people seeking to control a particular area s identity and direction She tells the story of the Inland Empire as a complex narrative of competing perceptions and interests **Oregon Historical Quarterly**

Oregon Historical Society,1996 **Parallel Destinies** John M. Findlay,Kenneth S. Coates,2011-10-01 The Canadian West and the American Northwest offer a valuable setting for considering issues of borders and borderlands The regions contain certain similarities and during the first half of the nineteenth century they were even grouped together as a distinct political and economic unit called the Oregon Country by Americans and the Columbia Department of the Hudson s Bay Company by the British The essays in this volume which grew out of a conference commemorating the Oregon Treaty of 1846 view the

boundary between Canada and the United States as a dividing line and also as a regional backbone with people on each side of the border having key experiences and attitudes in common In their eloquence and scope they illustrate how historical study of Canadian American relations in the West calls into question the parameters of the nation state The border has not had a single constant meaning rather its significance has changed over time and varied from group to group The essays in Part One concern the movement of peoples and capital across a relatively permeable boundary during the nineteenth century Many people in this era especially Natives miners immigrants and capitalists did not regard the international boundary as particularly important Part Two considers how the United States and Canada took pains to strengthen and enforce the international boundary during the twentieth century In this era the nation state became more assertive about defining and defending the borderline Part Three offers considerations of the distinctions both real and imagined that emerged during the nineteenth and twentieth centuries between Canada and the United States Its essays examine different schools of history divergent ideas toward wilderness and the influence of anti Americanism on Canadians view of national development in North America

Saving the Reservation John Fahey, 2001 During the turbulent Fifties Congress moved aggressively to end federal supervision and support of Indians by abandoning long standing treaties As six term president of the National Congress of American Indians Joe Garry was a major power in forestalling wholesale dumping of Indian tribes He championed an Indian program of holding onto the lands honoring ancient cultures educating the young and developing economic independence More than any other individual Garry set in motion the forces that guide Indian relations today
