integrative exploration of current research and thinking on PSFs featuring contributions from internationally renowned scholars in the fields of organizational and management studies It is divided into three distinct sections the professions the firms and the professionals that work within them and covers subjects from governance and leadership to regulation entrepreneurship and diversity Bringing together a broad range of empirical and theoretical perspectives the Handbook offers many potentially important insights into the contemporary challenges of organizations in the knowledge economy and suggests new lines of inquiry that may shed further light on the activities and performance of PSFs and the professionals who work within them **Communication and Organizational Knowledge** Heather E. Canary,Robert D. McPhee,2010-07-02

This book provides an overview of communication centered theory and research regarding organizational knowledge and learning It brings the work of scholars in communication management information technology and other disciplines together in a coherent volume that represents existing research and theory on communication related knowledge work Chapters address what constitutes knowledge how knowledge functions within and across organizations and how organizational members develop and manage knowledge for organizational purposes The book also provides a forum for these scholars to pose directions for future research and theorizing It will serve as a reference tool for scholars and practitioners to identify and understand communicative features of organizational knowledge processes *The Oxford Handbook of Group and Organizational Learning* Linda Argote,John M. Levine,2020-01-02 Groups and organizations vary dramatically in their ability to learn Some acquire substantial knowledge as a function of experience while others do not In groups learning can occur at the level of the individual member and or the group as a whole In organizations learning can occur at both of these levels as well as that of the wider collective Besides varying in the amount and kind of information they acquire groups and organizations also vary regarding their success in retaining knowledge and transferring it to other units In general groups and organizations that are proficient in acquiring retaining and transferring knowledge are more productive and more enduring than their less able counterparts The goal of this handbook is to bring together cutting edge theoretical and empirical work on group and organizational learning by leading scholars from several disciplines Because many of the same processes influence learning in groups and organizations including both kinds of learning in the same volume has the potential to facilitate the integration of knowledge and the cross fertilization of ideas These benefits are reciprocal in that research at the group level can shed light on how organizations learn whereas research at the organizational level can illuminate how groups learn By clarifying similarities and differences in the processes that underlie learning in groups and organizations the handbook advances understanding of the causes and consequences of learning in collectives of varying size and complexity Information Technology in the Service Economy: Michael Barrett,Elizabeth Davidson,Catherine Middleton,Janice I. DeGross,2010-05-09 This book represents the compilation of papers presented at the IFIP Working Group 8.2 conference entitled Information Technology in the Service Economy Challenges and Possibilities for the 21 Century

The conference took place at Ryerson University Toronto Canada on August 10-13 2008. Participation in the conference spanned the continents from Asia to Europe with paper submissions global in focus as well. Conference submissions included completed research papers and research in progress reports. Papers submitted to the conference went through a double-blind review process in which the program co-chairs, an associate editor, and reviewers provided assessments and recommendations. The editorial efforts of the associate editors and reviewers in this process were outstanding. To foster high-quality research publications in this field of study, authors of accepted papers were then invited to revise and resubmit their work. Through this rigorous review and revision process, 12 completed research papers and 11 research in progress reports were accepted for presentation and publication. Paper workshop sessions were also established to provide authors of emergent work an opportunity to receive feedback from the IFIP 8.2 community. Abstracts of these new projects are included in this volume. Four panels were presented at the conference to provide discussion forums for the varied aspects of IT service and globalization. Panel abstracts are also included here.

International Review of Industrial and Organizational Psychology 2010 Gerard P. Hodgkinson, J. Kevin Ford, 2010-02-04 This is the twenty-fifth volume in the most prestigious annual series for the field of industrial and organizational psychology. Continuing the tradition of providing scholarly up-to-the-minute reviews and updates of theory and research, this volume surveys developments in such familiar areas as employee selection, team cognition, and adaptation, leadership, and diversity management. Newer topics include corporate communications, coaching, and positive organizational behavior. Each chapter offers a comprehensive and critical survey of the topic and is supported by a valuable bibliography.

Group Communication Torsten Reimer, Ernest S. Park, Joseph A. Bonito, 2023-11-30 In this comprehensive advanced introduction to group communication, the field's leading experts summarize theory, methodological advancements, and current research in the field. This book follows a coherent structure specifying clear objectives and evidence-based practical implications for the management of groups. Each chapter provides case study examples highlighting the role of communication for group functioning. The textbook takes a particular look at recent advancements in the research on virtual teams, the role of technology in group communication, and issues of diversity and inclusion, considering group communication in various situations including health and organizational contexts. It features theory-driven descriptions, an emphasis on empirical findings, and reflections on research methods. The book is an integrative and coherent textbook for advanced undergraduate and graduate group communication classes and a useful reference for students, scholars, and group communication professionals across different disciplines, including communication studies, psychology, life sciences, business administration, management, and engineering. Online resources include a sample course syllabus, discussion questions, lecture slides, and a test bank. They are available at www.routledge.com/9781032114712.
