Shared Reflections Of My Impressions:

Norms, Realities and Lies Juan Antonio Rodriguez, 2005 Norms Realities and Lies is a poetry collection that explores some current social religious and personal issues in verse It is a call for the recognition of the oppression of social norms and religious dogmas on the individual The author stresses emphasis on individualism and spiritualism as factors that can truly free humanity to live a happier life Furthermore it confronts stereotypes that are based on weight height physical attraction language and culture just to name a few Norms Realities and Lies overtly points out how most of us have preconceived notions of others based on some imaginary measure of human worth that uses physical appearance as its foundation without actually getting to personally know an individual The importance of the recognition of each matchless individual as a cure for prejudice is also evident Dr Rodriguez maintains the same precision and beauty in Norms Realities and Lies as he does in all of his previous seven poetry collections Juan Antonio Rodriguez BA MA Ph D was born in the Dominican Republic and was raised in New York City He has written six academic books on English instruction and seven collections of poetry five in Spanish and two in English One of his books won an international sonnet prize El Premio Internacional El Eria de Sonetos 2003 in Spain

moves through his life and either grows or regresses in his attempt to find his way forward The author reflects on many events that occur in his life as he moved from a child to a teenager to an adult and now to a senior citizen In his reflections of these events he tries to draw a lesson what did he learn how did it shape his future and was it correct or should he have used the reflection to draw a completely different lesson that would have served him better It is hoped that these reflections and lessons are meaningful and are written concisely and occasionally with a bit of humor sometimes third grade humor The other half of the book does not reflect on a child playing baseball or a teenager trying to date the cheerleader or a young child lying to his mom No these tell of finding and losing the one The one person who made sense of the time between the finding and the losing This book will not find world peace or cure cancer or help you decide between Diet Pepsi or Diet Coke but it is hoped that upon completion the reader chooses to attack the grief and not let grief or the other bears and wolves of life win Bang on *Facilitating Reflective Learning In Higher Education* Brockbank, Anne, McGill, Ian, 2007-05-01 This revised edition includes the most current thinking on reflective learning as well as stories from academics and students that bring to life the practical impact of reflection in action Based on sound theoretical concepts the authors offer a range of solutions for different teaching situations taking into account factors such as group size physical space and technology They also offer facilitation rather than traditional teaching methods as a productive and useful skill that helps teachers and encourages students to interact and develop reflexive skills that can be used beyond their student years
