Location also impacts upon non-investors directly affecting employment, the environment and economic activity in the locale. East Meets West Reiko Aiura, J. U. Jacobs, 2014-06-30 The 13th International Conference on the Literature of Region and Nation held at Biwako in Shiga Prefecture, Japan, in the summer of 2010, fully maintained the tradition established in this long-running conference series of bringing together scholars from many countries and many fields of specialisation. Although the conferences have taken place in widely scattered locations, this was the first to be held in an Asian country and the opportunity this presented of focusing on the cultural links between East and West was taken up enthusiastically by the participants. Several of the papers explore aspects sometimes unexpected of the cultural cross-fertilisation between Japan or the Orient in general and the national literatures of the West. Others concentrate on iconic figures from regions of the English-speaking world with strongly developed individual literary traditions. All the papers have been peer-reviewed and extensively revised in order to maximise their impact in the written word. The collection demonstrates the stimulating effect of cross-cultural interaction in the field of literary studies of East and West.

warrior states and jihad commanders of the past The History of Jihad From Muhammad to ISIS is the first one volume history of jihad in the English language and the first book to tell the whole truth about Islam s bloody history in an age when Islamic jihadis are more assertive in Western countries than they have been for centuries This book is indispensable to understanding the geopolitical situation of the twenty first century and ultimately to formulating strategies to reform Islam and defeat radical terror

Entanglements of Life with the Law John R. Campbell, 2020-11-09 This book examines the quality and nature of justice dispensed in London's magistrates courts which are the lowest level of the United Kingdom's Criminal Justice System In 2016 approximately 230 000 individuals were prosecuted for a criminal offence in these courts of whom about seventy percent pleaded guilty and were sentenced Curiously about eighty five percent of those who pleaded not guilty were subsequently tried found guilty and sentenced This book addresses a central paradox of criminal justice how is it that magistrates are able to reach a guilty verdict despite the elusive and complex nature of truth and reality Research together with observations of 238 remand hearings and 23 trials has led the author to arrive at some uncomfortable conclusions about a legal system undermined by government austerity policies and lacking in transparency This book shows that the police fail to investigate most offences that the Crown Prosecution Service is reliant on the cases which the police want prosecuted that the quality of legal representation is poor that magistrates decisions may be unjust and that most defendants are not able to understand or participate in their hearing Strikingly a large percentage of defendants are from London's precariat They are young men who are destitute or who rely on unstable incomes they are semi literate from Black and Ethnic Minority Communities and their basic rights as citizens are being eroded Because many are repeat offenders they are recycled through the Criminal Justice System with limited assistance to address the problems which cause offending Magistrates courts dispense summary justice in very short hearings which means that defendants have a limited opportunity to defend themselves In short summary justice lacks basic due process rights in a legal process which bears a striking resemblance to justice in authoritarian non democratic societies
