Malachi's Child Hiram K. Myers, 2005-09-23

The holy land of Herod I the Great is a time of religious zealotry and turmoil a time of brutality of incest and of superstition Into this mix comes Mary daughter of Rebekah whose beauty and power of healing gives her unwanted power over all who come under her influence When her cousin Elisabeth is sold into marriage and her mother killed by the High Priest Marys loneliness drives her to seek forbidden love Soon she is with child but her lover dies and she is alone again with a secret she cannot tell Herod steals Mary to his bedside She must heal him If he dies she will be blamed but if he lives she will fall victim to his lust Joseph rescues her When the king discovers that Mary is gone he rages and offers a fortune for her return The hunted pair fall exhausted into a lonely cave near Bethlehem where Mary starts premature labor Can Elisabeth who rushes to Marys side save the dying girl and her child Malachis Child is a startling and provocative alternative to the traditional story of Mary and the birth of Jesus

 Sujith Ittan,2025-07-14 Something is really wrong with our reality It appears that our minds are being manipulated Synchronicities and the collective unconscious are clues about the mind manipulation mechanism This mechanism is the God effect according to the author The God effect implies that there is an intelligent entity controlling our minds Who is this intelligent entity manipulating our minds A God must be responsible for the God effect How exactly is this God manipulating our minds in this reality that is based on the principles of materialism that we know so well through our sciences We are unable to account for the God effect within the paradigm of materialism Are we in a reality based on idealism where consciousness is fundamental and an intelligent God exists in this context Or are we living inside a computer simulation What is the nature of our minds In order to account for God we have to question our understanding of our reality and we have to ask if we are truly in control of our minds thoughts and actions This is a gist of the God mind and reality problem that the author tries to discuss in this book In his first book the author wondered if a simulation accounts for the God effect In this book he wonders if idealism with consciousness first principles and an intelligent God solves the problem **Focus On: 100**
