God's Visits Diane S. Chadwick, 2021-03-15 God chose me at an early age of about seven years old to visit beginning with the vision of three Angels His many visits have continued throughout my years thus far Some visits are in dreams visions and a few in physical form I do not know why God chose me to reveal himself I am just an ordinary person living an ordinary life I am no special person God reveals himself to all of us preparing us for His future plans for our lives

Bossing the Billionaire Judy Angelo, 2016-06-16 The Billionaire Brothers Kent 4 Ryder's story Intent on freeing himself from the demons of his past Ryder Kent sets off on a road trip alone This is the only way he can find the peace of mind he so desperately craves But on his way to Mexico a missed turn takes him to the remote southwest Texas town of Pequoia There an unfortunate turn of events puts him at the mercy of one of the most beautiful women he's ever met Instead of his usual role as the big boss in Pequoia he's lost power and prestige and ends up having to work for this Texas rose But Ryder soon finds out that manual labor is the least of his problems He hasn't even put his demons to rest and now he's falling for his boss which after what he's been through is the last thing he needs Blake Beaumont has had enough of men She's been hurt by one who declared his undying love for her until he turned around and stabbed her in the back After that how can she trust any other man And then out of the blue the perfect one falls right into her hands Does she dare trust her heart to another or is he just too good to be true A matter of trust a matter of the heart And in the end a matter of love

He Said John Amerson, 2018-08-22 He said Long before Earth and the stars that you see in the night sky were created there were thousands upon thousands of planets throughout the universe supporting life The inhabitants of the planets live in peace The gods were pleased Yes I said the gods not one not just your god but all the gods Even back then no one knew how many there were how they came to be or where they came from Some of the inhabited planets were only a few million miles apart As the inhabitants of the planets began to venture out into space they encountered other races and cultures Wars broke out And soon the whole universe was filled

with warring planets determined to conquer one another The gods became angry Mankind had become a disappointment The gods decided to put an end to all the violence Your scientists got the big bang theory practically right It wasn't the creation of the universe It was the destruction of the universe Earth and what you see in the night sky is the aftermath the rubble you might say of a universe that had been home to thousands upon thousands of inhabited planets **Life Goes On**, *When You Had Power (Nothing is Promised 1)* Susan Kaye Quinn, 2020-11-24 For better or worse In sickness and in health It's a legal vow of care for families in 2050 a world beset by waves of climate driven plagues Power engineer Luc a Ramirez long ago lost her family to one she'd give anything to take that vow The Power Islands give humanity a fighting chance but tending kelp farms and solar lilies is a lonely job The housing AI found her a family match saying she should fit right in with the Senegalese retraining expert who's a force of nature the ex-Pandemic Corps cook with his own cozy channel and even the writer who insists everything is stories all the way down This family of literal and metaphorical refugees could be the shelter she's seeking from her own personal storm She needs this one to work Then an unscheduled power outage and a missing turtle bot crack open a mystery Something isn't right on Power Island One but every step she takes to solve it someone else gets there first and they're determined to make her unsee what she's seen Luc a is an engineer not a detective but fixing this problem might cost her the one thing she truly needs a home When You Had Power is the first of four tightly connected solarpunk novels in a near future climate fiction series It's about our future how society will shift and flex like a solar lily in the storms of our own making and how breaks in the social fabric have to be expected tended to and healed Because we're in this together now more than ever before If you enjoyed the optimistic climate solutions in Kim Stanley Robinson's Ministry for the Future or the cozy cooperative future in Becky Chambers' Monk and Robot series you will enjoy Nothing is Promised Keywords hopepunk climate fiction Puerto Rico Puerto Rican Latino Hispanic solarpunk climate change climate crisis solar energy green energy clean energy global warming pandemic plague underwater adventure kelp farming fusion engineering wind energy literary science fiction mystery suspense hard science fiction dystopian heroine's journey *Cole and the Clairvoyant* Alan Tootill, 2016-12-17 In the fifth book of the series Martin is called in by a local businessman to look into a series of thefts from his warehouse But the investigation is interrupted by the killing of one of the suspects Are the thefts and the murder related Are the police right in thinking there is a drug connection Or should Martin follow clairvoyant Delia's advice to look for a mysterious triangle Once again Martin's search for the truth poses many questions for him Should he become careers advisor to the drugs industry How much should he pay for his visit to Roselake's brothel Should he paint the vicar's ceiling The truth about the murder might be hard to discover and unpleasant but at least Martin makes some new friends along the way *Another Life* Илья Трифонов, 1999 Beyond their acute depiction of life in the Soviet Union Yuri Trifonov's novellas offer an extraordinarily rich literary encounter in the tradition of great nineteenth century Russian writing Another Life is the story of Olga a woman suddenly widowed and attempting to grasp the memory of her brilliant

When He Came Home Roxanne Rustand,2012-04-01 Dr Jill

Edwards's husband has come home to Blackberry Hill just not home to her. Jill and Grant have been separated for over a year now and while both agree it was for the best, neither has quite been able to start official divorce proceedings. Just knowing Grant is back in town is confusing and painful and dare she say it hopeful. Grant returns to Blackberry Hill with plenty of reservations. With his father in the hospital, Grant is left to pick up the pieces of his law practice and his marriage. Grant fears those pieces are scattered too far to be reassembled. And yet he can't seem to stay away from Jill. It's a vicious cycle that he can't break until one night changes everything. *T Singer* Dag Solstad, 2018-05-29 Solstad doesn't write to please other people. Do exactly what you want, that's my idea. The drama exists in his voice.

Lydia Davis: *T Singer* begins with thirty-four-year-old Singer graduating from library school and traveling by train from Oslo to the small town of Notodden located in the mountainous Telemark region of Norway. There he plans to begin a deliberately anonymous life as a librarian. But Singer unexpectedly falls in love with the ceramicist Merete Saethre who has a young daughter from a previous relationship. After a few years together, the couple is on the verge of separating when a car accident prompts a dramatic change in Singer's life. The narrator of the novel specifically states that this is not a happy story, yet as in all of Dag Solstad's works, the prose is marked by an unforgettable combination of humor and darkness. Overall, *T Singer* marks a departure more explicitly

existential than any of Solstad's previous works. **Nihon Nights** Trisha Haddad, Monica Haddad, 2011-01-01 Abigail Dennis has spent the last five years in exotic Japan working her way up the ranks at English World to become the head of the Nagoya schools. While the school has fallen into a financial crisis not paying staff in a month, Abigail trusts they will pull through. That is until golden-curved London Crane arrives from Maui hired to teach without any warning about the economic issues. Despite their immediate attraction, their relationship is strained with London's cynicism and Abigail's corporate loyalty. Suddenly English World's CEO is missing. Rumors fly. London is impressed with the action Abigail takes to protect her staff and students and as the two explore temples, festivals, and each other, passion deepens to romance. But when Abigail's nationwide counterparts disappear, tension mounts. London insists she go home to protect herself and she bristles at his demands, arguing that Nihon Japan is her home and she's needed by her teachers and students. Will the new love Abigail and London have found survive the economic turmoil and criminal suspicions that surround them? Will Abigail survive at all? **The**
