Tethered Mercury Bernice Trimble Steadman, Jody M. Clark, 2001 The Growth of Mind Neville Symington, 2018-09-20

The Growth of Mind is the product of a series of ten lectures by Neville Symington. It offers an understanding of the mind and its capacity to discover truth, establishing this as the foundation stone for our judgment and critique of the human world. Although the book's field of exploration lies in psychological processes met in the consulting room grounded in the general principles of psychoanalysis, the book's mode of enquiry is to elucidate a knowledge of individual people. Exploring the mind's active role in understanding, the book suggests that the act of understanding has a transformative function and that to be a person is to be a part of a community. It suggests that the super ego is a sign of some undeveloped function within the personality. If the ego and all its functions are fully evolved, then the super ego will only be minimally present in the personality. Symington posits that the unconscious represents an agglomerative mass in an undifferentiated and indistinguishable state rather than a realm of distinguishable thoughts or feelings that are not currently present to consciousness. The book attempts to understand better what this unconscious state is like and how we can think about it, underpinned by the belief that the better we understand it, the more its structure changes. The Growth of Mind is aimed at professionals and researchers who have a basic understanding of the mind and its mode of operating. It will help readers become aware of this knowledge, strengthening it in the process and allowing it to become a foundational source of inspiration.

Powder Puff Derby of 1929 Gene Nora Jessen, 2002-03 The unforgettable true story of the 1929 air race that legitimized female pilots. In 1929, nineteen women set out from Santa Monica, California, in flimsy propeller-driven planes with a mission to be the first to cover the 2,759-mile course to Cleveland, Ohio. Dubbed The Powder Puff Derby by humorist Will Rogers, who covered the race, the competition was aggressive and dangerous. A thrilling narrative, The Powder Puff Derby of 1929 tells the story of the first major female airplane race, whose contestants included Amelia Earhart, the most famous female pilot of her time. Many of the women flew in open cockpits with no air controllers to help them and often only primitive airports to land on. Yet, by facing the hazards with skill and determination, the racers thrilled the nation and pioneered a new future and respect for female aviators. The Powder Puff Derby of 1929 tells the stories of these first female pilots: gutsy and colorful adventurers who flew in air circuses, set altitude and speed records, and fought for the right to become part of the male-dominated world of aviation. The book also includes various artifacts of the groundbreaking race, including priceless never-before-published black and white photos as well as Air Force maps of the terrain over which the women flew. An inspiring story of confidence and persistence, The Powder Puff Derby of 1929 captures a defining moment in the history of aviation and women's rights.
