The Nobel Peace Prize and the Laureates Irwin Abrams, 2001 Presents brief biographical portraits of the 106 recipients of the Nobel Peace Prize during its 100 year history [Nobel Peace Prize Lecture... The Four Faces of Peace](#) Lester Bowles Pearson, **Science and Peace** Linus Pauling, 1988 **Our Purpose** Al Gore, 2008-04 Presents the author's 2007 Nobel Peace Prize acceptance speech along with excerpts from his book *An Inconvenient Truth* in which he discusses the problems posed by global warming and offers suggestions for change **Some Reflections on Peace in Our Time** Ralph Johnson Bunche, 1950 [Legion of Peace](#) Muhammad Yunus, Kabir Sehgal, Monica Yunus, Camille Zamora, 2018-12-11 Nobel Prize recipient Muhammad Yunus profiles 20 Nobel Peace Prize laureates with Multi Grammy winning producer and New York Times bestselling author Kabir Sehgal Monica Yunus and Camille Zamora teaching readers to incorporate lessons from each laureate's life into their own When Swedish chemist and engineer Alfred B Nobel passed in 1896 he left several millions in his will to establish the Nobel Peace Prize awarded annually in six concentrations: peace, literature, physics, chemistry, physiology or medicine, and economic science Since its establishment there have been over 130 Nobel Peace laureates selected each bringing his/her own unique experiences and lessons forward as an example to others In *LEGION OF PEACE* Nobel Prize winner Muhammad Yunus Kabir Sehgal Monica Yunus and Camille Zamora profile 20 prize recipients in a narrative accompanied by songs inspired by these great leaders composed by Grammy nominated children's artist Lori Henriques Quintet and three time Grammy nominated pianist Joey Alexander Through this lyrical narrative the authors share stories of these laureates seemingly ordinary actions that transformed their lives and communities The authors assign a superpower to each laureate that exemplifies the one basic principle that guided their actions demonstrating to readers that all people from vastly different backgrounds can be connected by a common thread to come together to form a legion of peace **Foundations of Organic Chemistry** David R. Dalton, 2020-08-11 Learn the fundamentals and foundations of modern organic chemistry with this comprehensive guide *Foundations of Organic Chemistry: Unity and Diversity of Structures, Pathways, and Reactions* 2nd Edition is a substantive guide for students beginning their study of organic chemistry

and instructors as well as senior undergraduates and graduate students seeking to further their understanding of the subject Foundations of Organic Chemistry is a serious attempt to show students who want to learn organic chemistry how we know what we know about the subject and to guide them to learn In this work the emphasis of the discussion of structures pathways and reactions is placed on the original literature and the fundamentals and use of spectroscopic and kinetic tools Application of the resulting working knowledge of the substance of organic chemistry will lead the serious student to ask additional questions and ultimately to solve problems we face The book also includes solutions guides for instructors and lecturers as well as access to a companion website for furthering the reader s knowledge of organic chemistry

The Problem of Peace Albert Schweitzer, 1954 *Peace, They Say* Jay Nordlinger, 2012 In this book Jay Nordlinger gives a history of what the subtitle calls the most famous and controversial prize in the world The Nobel Peace Prize like the other Nobel prizes began in 1901 So we have a neat sweeping history of the 20th century and about a decade beyond The Nobel prize involves a first world war a second world war a cold war a terror war and more It contends with many of the key issues of modern times and of life itself It also presents a parade of interesting people more than a hundred laureates not a dullard in the bunch Some of these laureates have been historic statesmen such as Roosevelt Teddy and Mandela Some have been heroes or saints such as Martin Luther King and Mother Teresa Some belong in other categories where would you place Arafat Controversies also swirl around the awards to Kissinger Gorbachev Gore and Obama to name just a handful Probably no figure in this book is more interesting than a non laureate Alfred Nobel the Swedish scientist and entrepreneur who started the prizes The book also addresses missing laureates people who did not win the peace prize but might have or should have Gandhi *Peace They Say* is enlightening and enriching and sometimes even fun It has its opinions but it also provides what is necessary for readers to form their own opinions What is peace anyway All these people who have been crowned champions of peace and the world s foremost should they have been Such is the stuff this book is made on

Linus Pauling on Science and Peace Linus Pauling, 1964 **Free Speech** Timothy Garton Ash, 2016-05-24 Never in human history was there such a chance for freedom of expression If we have Internet access any one of us can publish almost anything we like and potentially reach an audience of millions Never was there a time when the evils of unlimited speech flowed so easily across frontiers violent intimidation gross violations of privacy tidal waves of abuse A pastor burns a Koran in Florida and UN officials die in Afghanistan Drawing on a lifetime of writing about dictatorships and dissidents Timothy Garton Ash argues that in this connected world that he calls cosmopolis the way to combine freedom and diversity is to have more but also better free speech Across all cultural divides we must strive to agree on how we disagree He draws on a thirteen language global online project freespeechdebate.com conducted out of Oxford University and devoted to doing just that With vivid examples from his personal experience of China s Orwellian censorship apparatus to the controversy around Charlie Hebdo to a very English court case involving food writer Nigella Lawson he proposes a framework for civilized conflict in a world

where we are all becoming neighbors **Encounters with Civilizations** Gezim Alpion, 2017-09-29 Encounters with Civilizations is a broad ranging work uniting sweeping themes such as history culture the media social issues and politics Building around comparative analyses of aspects of Albanian Egyptian British and Indian cultures Alpion addresses the problems people experience in their encounters with civilizations different from their birth cultures The course of history has made the confrontation and comingling of different cultures inevitable It has also engendered ambivalence toward the cultures involved including a desire to emulate the new culture or resentment or conflicting attitudes toward the relative strength or weakness of both birth and new cultures Alpion describes how Egyptian culture and politics have been shaped by foreign domination while retaining ancient customs at the social level In comparison Great Britain has been an imperial power whose cultural preeminence has shaped the images of smaller countries in the eyes of the world Alpion writes of English images of his native Albania and offers a penetrating analysis of Mother Teresa as a Christian missionary in Hindu and Muslim India focusing on her cultural presentation via the media and the cult of celebrity Whether discussing the customs of Egyptian coffee houses or Alexander the Great as a defining figure in Western and Eastern culture Alpion grasps the impact of these cultural encounters He makes us aware that understanding and resolving such differences involves considering ultimate issues of life and death **Women Nobel Peace Prize Winners, 2d ed.** Anita Price Davis, Marla J. Selvidge, 2015-12-01 From the first woman Nobel Peace Prize recipient Bertha von Suttner 1905 to the latest and youngest female Nobel laureate Malala Yousafzai 2014 this book in its second edition provides a detailed look at the lives and accomplishments of each of these sixteen Prize winners They did not expect recognition or fame for their work economist Emily Greene Balch 1946 was surprised to learn that anyone knew about her But they did not work in isolation all met with discouragement derision threats or in Yousafzai's case attempted murder and exile A history of the Prize and a biographical sketch of Alfred Nobel are included The Nobel Peace Prize Lecture Desmond Tutu, 1986 *Just Peace Theory Book One* Valerie Elverton Dixon, 2012-11-29 In these essays I often refer to social contracts such as the Declaration of Independence the Constitution of the United States the Universal Declaration of Human Rights and other international conventions that describe a vision of just human relations especially in the area of culture and health care We do not live behind a veil of ignorance where we enter into contemplation of questions of right and wrong without an awareness of our own particularities Moreover we do not always determine what is right based on reason But we do make decisions every day about how we will live within the social contracts that govern our lives Many of us go along to get along with a lets not rock the boat preserve the status quo caution Then there are those of us who use the documents of our social contracts to secure more justice and more peace The purpose is to rock the boat and to disrupt the status quo when it is unjust I understand Christ as a title not as a person It is a designation of an anointing This in my opinion is the anointing of radical love Christ is the human incarnation of divine love We each ought to strive to become this whether or not we are Christian whether or not

we are even believers Those of us who are Christians believe that Jesus paid it all There is no more need for blood shed sacrifice Murder is never holy God does not need it or want it Our work now is to become living sacrifices that will redeem this world through justice and peace That is the meaning of these essays From the Introduction
