The Mughal Empire dominated India politically, culturally, socially, economically, and environmentally from its foundation by Babur, a Central Asian adventurer, in 1526 to the final trial and exile of the last emperor, Bahadur Shah Zafar, at the hands of the British in 1858. Throughout the empire's three centuries of rise, preeminence, and decline, it remained a dynamic and complex entity within and against which diverse peoples and interests conflicted. The empire's significance continues to be controversial among scholars and politicians, with fresh and exciting new insights, theories, and interpretations being put forward in recent years. This book engages students and general readers with a clear, lively, and informed narrative of the core political events, the struggles, and interactions of key individuals, groups, and cultures, and of the contending historiographical arguments surrounding the Mughal Empire.

Al-Hind: The Making of the Indo-Islamic World André Wink, 2024-04-22. The first part of the long-awaited fourth volume of André Wink's monumental *Al-Hind: The Making of the Indo-Islamic World* introduces a new perspective on the rise of the dynasty of the Great Mughals and the transition of the Indo-Islamic world from the medieval to the early modern centuries. Eschewing the conventional military and technological explanations, the book adopts an institutional explanation that emphasizes the Central and Inner Asian post-nomadic heritage of the dynasty and, in the context of persistent rivalry with the Indo-Afghans, its successful politics of incorporation and accommodation of Muslim and non-Muslim constituencies alike.

The Sky Poured Down Candy Riya Gupta, 2025-09-18. Bringing together archival research and literary analysis, this microhistorical study explores the decline of the Mughal empire through the life of a petty Mughal official, Abdul Jalil Bilgrami, as he navigated uncertainty amid the shifting currents of imperial power. Illuminating the everyday realities of a fading dynasty on the Indian subcontinent, the book offers a deeply personal lens into Bilgrami's socio-cultural world. It also engages with broader questions of historical methodology, demonstrating how literary evidence such as personal letters and poems can breathe life into structural histories. By centring a lesser-known historical figure, it challenges conventional elite-centric narratives and underscores the value of microhistory in understanding larger historical processes. This volume will appeal to scholars, students, and general readers of Mughal history, South Asian studies, microhistory, and global literary studies. It is an ideal resource for educators seeking to enrich their courses as part of these specializations and diversify their recommended reading.

Empire of Contingency Jorge Flores, 2024-10-15. Explores the information and communication practices of the Portuguese empire in the sixteenth and seventeenth centuries. *Empire of Contingency* explores the information and communication practices of the Portuguese empire in late sixteenth and seventeenth-century India, a period during which Portuguese imperial ambitions were struggling for survival while the Mughal empire was at the height of its power and influence. Jorge Flores uncovers the tenuous but

ingenious apparatuses of intelligence through which the Estado da ndia the State of the Indies the name given to the Portuguese political administrative unit in the region between the Cape of Good Hope and East Asia endeavored to survive in a vast Indo Persian world shaped by the influence and power of the Mughal empire Detailing the complex relations that the officials of the Portuguese empire particularly in Goa the capital of the Estado da ndia maintained with the Mughal empire as well as the sultanates of Ahmadnagar and Bijapur in the Deccan region through information gathering record keeping interpreting and diplomatic correspondence the book demonstrates how the Portuguese territories along the western coast of India were substantially incorporated into the vast Persianate cultural sphere spanning from Iran to Southeast Asia The process of empire building on the fringes of the Persianate world and the prolonged interaction with the Mughal empire Ahmadnagar and Bijapur Flores argues led to the irregular non linear and incomplete assimilation of the Portuguese empire into Persianate India Overturning teleological narratives that portray the workings of European empire as the unilateral imposition of power dynamics by a dominant omniscient actor Flores reveals how Portuguese imperial administrators were vulnerable participants in a network of relations involving multiple political powers relations that required enormous bureaucratic and diplomatic effort to understand and successfully navigate Showing how a European empire was drawn into the political practices and rituals of the Indo Persian world Flores decenters the lenses conventionally used to observe the Portuguese empire in Asia and helps us rethink its nature while questioning the boundaries of the Indo Persian world

Secretaries and Statecraft in the Early Modern World Dover Paul M. Dover, 2016-06-07 One of the prominent themes of the political history of the 16th and 17th centuries is the waxing influence officials in the exercise of state power particularly in international relations as it became impossible for monarchs to stay on top of the increasingly complex demands of ruling Encompassing a variety of cultural and institutional settings these essays examine how state secretaries prime ministers and favourites managed diplomatic personnel and the information flows they generated They explore how these officials balanced domestic matters with external concerns and service to the monarch and state with personal ambition By opening various perspectives on policy making at the level just below the monarch this volume offers up rich opportunities for comparative history and a new take on the diplomatic history of the period *Expanding Frontiers in South Asian and World History* Richard M. Eaton, Munis D. Faruqi, David Gilmartin, Sunil Kumar, 2013-03-07 This book has brought together some of the foremost scholars of South Asian and Global History who were colleagues and associates of Professor John F Richards to discuss themes that marked his work as a historian in an academic career of almost forty years It encapsulates discussions under the rubric of frontiers in multiple contexts Frontier has often been conceived as a space of transformation marking new forms of economic organization commodity trade land settlement and state authority The essays here underline the range of interests and approaches that marked Professor Richards illustrious career frontiers and state building frontiers and environmental change cultural frontiers frontiers trade and drugs and frontiers and world history The

volume discusses issues from medieval to early modern South Asian history. It also reflects a concern for large scale global processes and for the detailed specificities of each historical case as evident in Professor Richards work *South Asia's Modern History* Michael Mann, 2014-10-24. This comprehensive history of modern South Asia explores the historical development of the Subcontinent from the beginning of the eighteenth century to the present day from local and regional as opposed to European perspectives. Michael Mann charts the role of emerging states within the Mughal Empire, the gradual British colonial expansion in the political setting of the Subcontinent and shows how the modern state formation usually associated with Western Europe can be seen in some regions of India linking Europe and South Asia together as part of a shared world history. This book looks beyond the Subcontinent's post colonial history to consider the political, economic, social and cultural development of Pakistan and Bangladesh as well as Sri Lanka and Nepal and to examine how these developments impacted the region's citizens. *South Asia's Modern History* begins with a general introduction which provides a geographical, environmental and historiographical overview. This is followed by thematic chapters which discuss Empire Building and State Formation, Agriculture and Agro Economy, Silviculture and Scientific Forestry, Migration, Circulation and Diaspora, Industrialisation and Urbanisation and Knowledge Science Technology and Power demonstrating common themes across the decades and centuries. This book will be perfect for all students of South Asian history.

Writing Self, Writing Empire Rajeev Kinra, 2015-09-17. A free ebook version of this title is available through Luminos University of California Press's new open access publishing program for monographs. Visit www.luminosoa.org to learn more. *Writing Self, Writing Empire* examines the life, career and writings of the Mughal state secretary or munshi Chandar Bhan Brahman d c 1670, one of the great Indo-Persian poets and prose stylists of early modern South Asia. Chandar Bhan's life spanned the reigns of four different emperors: Akbar 1556-1605, Jahangir 1605-1627, Shah Jahan 1628-1658 and Aurangzeb Alamgir 1658-1707, the last of the Great Mughals whose courts dominated the culture and politics of the subcontinent at the height of the empire's power, territorial reach and global influence. As a high caste Hindu who worked for a series of Muslim monarchs and other officials forming powerful friendships along the way, Chandar Bhan's experience bears vivid testimony to the pluralistic atmosphere of the Mughal court, particularly during the reign of Shah Jahan, the celebrated builder of the Taj Mahal. But his widely circulated and emulated works also touch on a range of topics central to our understanding of the court's literary, mystical, administrative and ethical cultures while his letters and autobiographical writings provide tantalizing examples of early modern Indo-Persian modes of self-fashioning. Chandar Bhan's oeuvre is a valuable window onto a crucial though surprisingly neglected period of Mughal cultural and political history.

Climate of Conquest Pratyay Nath, 2019-06-28. What can war tell us about empire? In *Climate of Conquest* Pratyay Nath seeks to answer this question by focusing on the Mughals. He goes beyond the traditional way of studying war in terms of battles and technologies. Instead, he unravels the deep connections that the processes of war-making shared with the society, culture, environment and politics of early modern South Asia.

Climate of Conquest closely studies the dynamics of the military campaigns that helped the Mughals conquer North India and project their power beyond it. The author argues that the diverse natural environment of South Asia deeply shaped Mughal military techniques and the course of imperial expansion. He also sheds light on the world of military logistics, labour, animals, and the organization of war, the process of the formation of imperial frontiers, and the empire's legitimization of war and conquest. What emerges is a fresh interpretation of Mughal empire building as a highly adaptive, flexible, and accommodative process. *Local States in an Imperial World* Roy S. Fischel, 2020-04-15

Focusing on the Deccan Sultanates of 16th and 17th century central India, *Local States in an Imperial World* promotes the idea that some polities of the time were not aspiring to be empires. Instead of the universalist and hierarchical vision typical of the language of empire, the sultanates presented another brand of state, one that prefers negotiation, flexibility, and plurality of languages, religions, and cultures. Building on theories of early modernity, empire, cosmopolitanism, and vernaculars, Roy Fischel considers the components that shaped state and society, people, identities, and idioms. He presents a frame for understanding the Deccan Sultanates as a rare case of the early modern non-imperial state, shedding light both on the region and on the imperial world surrounding it.
