Noddy Goes To Sea The Noddy Library:

Enid Blyton's Noddy Goes to Sea Enid Blyton, 1988 Enid Blyton: The Biography Barbara Stoney, 2011-08-26 Enid Blyton is known throughout the world for her imaginative children's books and her enduring characters such as Noddy and the Famous Five. She is one of the most borrowed authors from British libraries and still holds a fascination for readers old and young alike. Yet until 1974 when Barbara Stoney first published her official biography little was known about this most private author even by members of her own family. The woman who emerged from Barbara Stoney's remarkable research was hardworking, complex, often difficult and in many ways childlike. Now this widely praised classic biography has been fully updated for the twenty-first century and with the addition of new colour illustrations and a comprehensive list of Enid Blyton's writings documents the growing appeal of this extraordinary woman throughout the world. The fascinating story of one of the world's most famous authors will intrigue and delight all those with an interest in her timeless books. **Noddy Goes to Sea** Enid Blyton, 1996 First published Sampson Lowe 1959 The Bookseller, 1960 Vols for 1871 76 1913 14 include an extra number. Office for Subject Cataloging Policy, 2012 *Audubon at Sea* Christoph Irmscher, Richard J. King, 2024-05-31 This one of a kind lavishly illustrated anthology celebrates Audubon's connection to the sea through both his words and art. The American naturalist John James Audubon 1785-1851 is widely remembered for his iconic paintings of American birdlife. But as this anthology makes clear Audubon was also a brilliant writer and his keen gaze took in far more than creatures of the sky. Culled from his published and unpublished writings *Audubon at Sea* explores Audubon's diverse observations of the ocean, the coast and their human and animal inhabitants. With Audubon expert Christoph Irmscher and scholar of the sea Richard J. King as our guides we set sail from the humid expanses of the American South to the shores of England and the chilly landscapes of the Canadian North. We learn not only about the diversity of sea life Audubon documented: birds, sharks, fish and whales but also about life aboard ship, travel in early America, Audubon's work habits and the origins of beloved paintings. As we face an unfathomable loss of seabirds today Audubon's warnings about the fragility of birdlife in his time are prescient and newly relevant. Charting the course of Audubon's life and work from his birth in Haiti to his death in New York City Irmscher and King's sweeping introduction and carefully drawn commentary confront the challenges Audubon's legacy poses for us today including his participation in American slavery and the thousands of birds he killed for his art. Rounded out by hundreds of historical and ornithological notes and beautiful illustrations and with a foreword by distinguished photographer and conservationist Subhankar Banerjee *Audubon at Sea* is the most comprehensively annotated collection of Audubon's work.
