**The Non-existence of God** Nicholas Everitt,2004 Arguments for the existence of God have taken many different forms over the centuries in *The Non Existence of God* Everitt considers all the arguments and examines the role that reason and knowledge play in the debate over God s existence     **The Non-existence of God** Nicholas Everitt,2004 Arguments for the existence of God have taken many different forms over the centuries in *The Non Existence of God* Everitt considers all the arguments and examines the role that reason and knowledge play in the debate over God s existence     *The Non-existence of God* Howard R. Burkle,1969     **History of the Arguments for the Existence of God** Aaron Hahn,1885

**Immortality and the Existence of God** David Apolloni,2024-08-15 Immortality and the Existence of God Reformulating the Arguments of Plato Anselm and G del defends a modern version of Plato s argument for the immortality of the soul The self is essentially conscious and hence essentially living It is therefore deathless and cannot receive death But then it also cannot become something else nor can it be destroyed since that would be receiving death also So the self or immortal and immaterial The book then considers materialist theories of the mind and rejects them It formulates an argument from introspection which the author believes establishes substance dualism The argument for immortality and the Ontological Argument for the existence of God are parallel in that attempt to establish the existence of necessary beings Since immortality makes sense within a theistic context the second half of the book defends a version of G del s Ontological Argument for God s existence utilizing experience of the moral good and that mutual entailment of the attributes of God to argue that these attributes including necessary existence are logically coherent In the final chapter the author uses the central arguments in the book to support accounts of the afterlife from those who have had near death experiences     **Faith Possesses Understanding** Jehangir Nasserwanji Chubb,1983     **Becoming Present** Ingolf U. Dalferth,2006 Safeguarding the distinction between God and world has always been a basic interest of negative theology But sometimes it has overemphasized divine transcendence in a way that made it difficult to account for the sense of God s present activity and experienced actuality Deconstructivist criticisms of the Western metaphysics of presence have made this even more difficult to conceive On the other hand there has been a widespread attempt in recent years to base all theology on religious experience the Christian church celebrates God s presence in its central sacraments of baptism and Eucharist and recent process thought has re conceptualised God s presence in panentheistic terms This is the background against which this book outlines a theology of the Christian sense of the presence of God The first chapter traces the rise and fall of rational religion in Modernity and argues that we should replace philosophical theism not by a unspecified religious sense of the whole but by a specific sense of the presence of God The second chapter analyses the notion of divine presence and outlines different ways of understanding the real presence of God The third chapter discusses the problem of whether and how God s presence can be discerned given the fact that there is no presence of God that is not tinged by God s absence Chapter four distinguishes

various modes of divine presence with their corresponding modes of human apprehension Chapter five takes up the charge that presence is an impossibility in a critical discussion of the debate between Derrida and Marion about the impossibility of gift Chapter six asks how God's presence is conceived and communicated looking in particular to music as a means of representing and communicating the awareness of God's presence The final chapter outlines how the sense of the presence of God can be presented and defended in a world of many religions and cultures with their often conflicting religious convictions and representations

**Journal of Religious Psychology, Including Its Anthropological and Sociological Aspects**, 1908 Includes section Book reviews **Journal of Religious Psychology**, 1909 **American Journal of Religious Psychology and Education** Granville Stanley Hall, Alexander Francis Chamberlain, 1909 Includes section Book reviews *The American Journal of Religious Psychology and Education*, 1909 The God of Spinoza Richard Mason, 1999-07 This book is the fullest study in English for many years on the role of God in Spinoza's philosophy Spinoza has been called both a God intoxicated man and an atheist both a pioneer of secular Judaism and a bitter critic of religion He was born a Jew but chose to live outside any religious community He was deeply engaged both in traditional Hebrew learning and in contemporary physical science He identified God with nature or substance a theme which runs through his work enabling him to naturalise religion but equally important to divinise nature He emerges not as a rationalist precursor of the Enlightenment but as a thinker of the highest importance in his own right both in philosophy and in religion **Philosophy for AS** Michael Lacewing, 2014-08-07 Philosophy for AS is an accessible textbook for the new 2014 AQA Advanced Subsidiary Philosophy syllabus Structured closely around the AQA specification this textbook covers the two units Epistemology and Philosophy of Religion in an engaging and student friendly way With chapters on How to do philosophy exam preparation providing students with the philosophical skills they need to succeed and an extensive glossary to support understanding this book is ideal for students studying philosophy Each chapter includes explanation and commentary of the AQA anthology texts comprehension questions to test understanding discussion questions to generate evaluative argument going further sections for advanced study cross references to help students make connections bullet point summaries of each topic The companion website hosts a wealth of further resources including PowerPoint slides flashcards further reading weblinks and handouts all structured to accompany the textbook It can be found at [www.routledge.com/cw/alevelphilosophy](http://www.routledge.com/cw/alevelphilosophy) God of Love and God of Reason David R. Mason, 2016-02-18 These homilies lectures and essays vigorously champion the author's conviction that it is reasonable to believe in a God of pure unbounded love and also that the best religion is a reasonable religion That is the God of Love is the God of Reason and as a seventeenth century Cambridge preacher put it If you would be religious be rational in your religion Thus these essays challenge both the New Atheists and Fundamentalists who are twins like Tweedledum and Tweedledee And they aim positively to unpack the meaning and implications of Jesus dictum You shall love the Lord your God with all your heart and with all your soul and with all your mind This is the greatest and first commandment And the second

is like it You shall love your neighbor as yourself On these two commandments hang all the law and the prophets

**German Philosophy in English Translation** Spencer Hawkins, 2023-06-16 This book traces the translation history of twentieth century German philosophy into English with significant layovers in Paris and proposes an innovative approach to long standing difficulties in its translation German philosophy's reputation for profundity is often understood to lie in German's polysemous vocabulary which is notoriously difficult to translate even into its close relative English Hawkins shows the merit in a strategy of differential translation which involves translating conceptually dense German terms with multiple different terms in the target text rather than the conventional standard of selecting one term in English for consistent translation German Philosophy in English Translation explores how debates around this strategy have polarized both the French language and English language translation landscapes Well known translators and commissioners such as Jean Beaufret Adam Phillips and Joan Stambaugh come out boldly in favor and others such as Jean Laplanche and Terry Pinkard polemically against it Drawing on Hans Blumenberg's work on metaphor German Philosophy in English Translation questions prevalent norms around the translation of terminology that obscure the metaphoric dimension of German philosophical vocabulary This book is a crucial reference for translators and researchers interested in the German language and particularly for scholars in translation studies philosophy and intellectual history *Documents of the Christian Church*

Henry Bettenson, 1963 Here is a fine collection of the most important source materials for the history of Christianity in a compact and attractive little volume *The Christian Century* *Introduction to Religious Philosophy* Y. Masih, 1991 This is a book with a clearly visible theme of Advaita That is not to say that Masih has not spoken of other things However this book is not an introduction to philosophy of religion but an introduction to religious philosophy Thus it escapes the narrow confines of being a mere introduction to religious philosophy as there are plenty of insights on philosophy of religion as well A striking aspect of this book is that the author not only believes but also calculates logically as to how the various insights of different religions must crossfertilise the visions of one another This exercise obviously demands a great deal of understanding of the various religious commitments The author quotes the example of Ramakrishna Paramahansa who suggested that there is something like religious unity and that one is capable of extending oneself beyond the limited confines of a single religion of the Supreme Spirit Thus understanding the Supreme Spirit as a concept is useful because it is in the nature of a concept that is shareable and communicable One appreciable part of the book is the sweep it has over the subject from Galloway and Martinieu to J N Findlay Hare Blik Kant Hastings Rashdall to McCloskey and Radhakrishnan the author has drawn from various thinkers *Of God and His Creatures* Saint Thomas (Aquinas), Joseph Rickaby, 1905 *Immanent Transcendence* Patrice Haynes, 2012-08-23 Over the last twenty years materialist thinkers in the continental tradition have increasingly emphasized the category of immanence Yet the turn to immanence has not meant the wholesale rejection of the concept of transcendence but rather its reconfiguration in immanent or materialist terms an immanent transcendence Through an

engagement with the work of Deleuze Irigaray and Adorno Patrice Haynes examines how the notion of immanent transcendence can help articulate a non reductive materialism by which to rethink politics ethics and theology in exciting new ways However she argues that contrary to what some might expect immanent accounts of matter and transcendence are ultimately unable to do justice to material finitude Indeed Haynes concludes by suggesting that a theistic understanding of divine transcendence offers ways to affirm fully material immanence thus pointing towards the idea of a theological materialism

**COSMIC CODE IS ILLUSION** T. S. VISWANATHAN, 2017-01-01 I firmly declare that I am not an Atheist but an advocate of Advaita i.e. world is one and all of us are one Atheists also call the world as an illusion but as an Advaitist I do believe that all of us are God just veiled by senses As German Mystic Meister Eckhart says The eye in which I see God is the same eye in which God sees me Atheist denies the existence of God which could lead to immorality in our life though under illusion I do believe in contacting various levels of energies available in the cosmos as per Vedic Shastras for various types and levels of happiness to live a good life though it is illusion The cosmos to me is an illusory field Beyond the concept of Cosmos lies the web wave field which is discussed extensively in this book Atheist defines the final power as infinite which has no motive and thereby does not grant human wishes whereas I do believe in the infinite atman called as Paramaatma which absorbs us in its web wave field of pure bliss and never again to give us the illusion of birth death cycles If one merges with it he escapes the illusion of birth and death To the question of existence of God I had explained in this book that during the cycles of birth and death through the illusory field there are various degrees and levels of cosmic power which does help to mitigate the illusory effects and come out of the illusory field to merge with Paramaatma I do make a distinction between consciousness and illusion Both are same but marginally different In consciousness one has the awareness whether inside or outside the body Consciousness permits to have awareness outside the body It could have a motive But illusion exists inside a body and not necessarily outside the body Illusion is a particle that pertains to the matter and its awareness is inside a body only But consciousness is not Consciousness exists outside the body too but inside the illusory field Outside the body there is no illusion Illusion gets dissipated when the body no longer exists totally with its senses All senses pertain to illusion All our scope our sciences and philosophy particularly life death rebirth beliefs pertain to the body which gets the illusion because the body is matter Vedas and Adi Shankar Acharya call illusion as Maya and consciousness as Prajnaa The illusion has to be perfect for all of us during the illusory life giving us the utmost happiness in all walks of this life Everything to us happens only in illusion and so we must evoke the divine power to be happy in this illusion in the short life and thereafter free us from this illusory world On this score the invocation of divine or cosmic energies are absolutely a must Though it is easier to talk about illusion in theory in practical life it is not easy either Everyone has their daily routine to follow like attending their work begetting children raising children getting them married owning property engagement in business or agriculture or profession and so on No one can quit these and gloat on illusion Except for a very few no one would sacrifice anything or give

up their rights based on a concept called illusion or the illusory field They feel real during their sojourn in this worldly life and they would like to feed their senses with pleasures One would not gift his house to charity because of the fact that everything is illusion as they find these philosophical talks are not practically appealing They feel they are living a real life A life in which they own and have to own properties joy children education as if they are going to live for long The idea to write this book came to me as I went through Vedic Upanishad teachings Whether the world we live is real Or illusory Therefore the main idea of this book is to make an honest attempt to investigate who is behind our lives and if so why is he required to play the drama of creating us and what he wants to achieve through our creation More fully what is that cosmic code that is behind creation Physics describes it as fermions and bosons But it is more than that It is illusion Fermions and Bosons themselves come from illusion Particularly illusion of existence Everything we feel see hear touch and smell is illusion This illusion defines an impartial God or infinities The illusion can alone define an impartial God Many religions have come out with answers recently during the last 2200 years or so but I find the Upanishads and other spiritual texts and teachers in India offer answers to this question conforming to modern physics and experiments This is what this book is all about An inquiry into secret of Human life Most of the religious texts describe God in human form The prophets or teachers are described as an incarnation or children of God or to whom God revealed himself in a place at a time and handed over the words of wisdom The main purpose of all religious texts is to tell humanity that there is a super power who is watching us and he would guide us to heaven where he lives if we live our human lives conforming to the teachings laid down by his messengers or prophets If such conformity is not accepted then we would be doomed to hell Or in other terms there would be no salvation for such person The biggest irony is God also permits them to kill persons who do not follow such religious teachings God treats them as enemies The enemies of God must be killed The tribes who are enemies of God can be killed Well this is the irony When God must be all LOVE one fails to understand that such God asks for killing when he can kill them himself Why seek the help of other humans to kill fellow humans when he can himself do the killing And again why should he kill after creation If so why create at all Why create such evil persons at all in this earth who steal or cheat or commit adultery or who murder others What is the purpose of such creation and evaluation What is the purpose of God having such a character Persons who are responsible in writing these texts know very well that unless you use the name of God no one is going to believe their own writings Every piece of their own advice has to be stated as if they come from the mouth of God himself for mankind to believe Their own opinions are stated as if they originated from God Therefore God is a convenient tool This book goes into the semantics of the main topic that Cosmic code is illusion and I have used scientific philosophical mathematical and Vedic teachings to prove clearly my conviction that the world we live is only illusion It is not for the sake of writing a book I have written but it is out of my own strong feeling that the Universe has to be illusory to have an Impartial God I trust the readers will find it interesting and get convinced
