Women on Corporate Boards of Directors Ronald J. Burke, M.C. Mattis, 2013-03-09 Both the practitioner and academic communities have voiced strong opinions regarding the progress of women in reaching the executive suite and the corporate boardroom Proponents on each side of the current debate offer evidence suggesting the accuracy of their respective positions One view holds The fight is over The battle is won Women are now accepted as outside directors in the preponderance of corporate boardrooms Lear 1994 10 An alternative perspective however suggests there is much progress left An illustration of the type of remaining barriers is provided by T J Rodgers chief executive officer CEO of Cypress Semiconductor Corp who has commented that a woman s view on how to run our semiconductor company does not help us

Rodgers 1996 14 Regardless of where one falls along the spectrum anchored at one end by the view that women have made substantial progress in reaching the upper echelons of corporations and anchored at the other end by the view that women have barely begun to penetrate the inner sanctum of corporations the central issue is the extent to which women have succeeded in cracking the proverbial glass ceiling The glass ceiling is a metaphorical barrier which prevents women from attaining the upper most organizational positions e g Karr 1991 Morrison White Van Velsor and the Center for Creative Leadership 1992 Powell U S Department of Labor 1991

Nonprofit Governance Chris Cornforth, William A. Brown, 2013-07-04 The current fashion for rolling back the state has seen the nonprofit or third sector playing an increasing role in what were previously the heartlands of the public sphere The growing significance of the sector and its increasing reliance on public funds mean it has also attracted increased scrutiny From outside the sector concerns have been raised about the accountability and performance of nonprofit organizations From within the sector there has been considerable debate about whether the increased reliance on government contracts is in danger of undermining the sector's independence As a result the spotlight has fallen on governance arrangements and whether they are adequate to ensure that nonprofit organizations are effective and accountable for their actions and able to retain their independence This collection offers a comprehensive assessment of research on the governance of nonprofit organizations Nonprofit governance research has been dominated by the study of boards of unitary organizations and has paid insufficient attention to the multi level nature of governance governance relationships and dynamics and the contribution of actors other than board members to governance processes Drawing on the research of leading scholars in the US UK Canada and Australia this book presents new perspectives on nonprofit governance which help to overcome these weaknesses Written in an accessible manner the book will be of value to scholars researchers students reflective practitioners and governance consultants and advisers
