about children's science fiction series published since 1945. This book provides a broad overview of this previously neglected topic. The volume offers a critical look at the history, themes, characters, settings, and construction of post-1945 juvenile science fiction series, including *The A.I. Gang*, *The Animorphs*, *Commander Toad*, *Danny Dunn*, *Dragonfall*, *Five the Magic School Bus*, and *Space Cat*. The book begins with an introductory history of juvenile science fiction since 1945, with chapters then devoted to particular topics. Some of these topics include the role of aliens and animals, attitudes toward humor, the absence and presence of science, and the characterization of women. A special feature is an appendix listing the various series. In addition, the volume provides extensive bibliographical information.
