## **Nordic And Baltic Security In The 1990s:**

**Nordic and Baltic Security in the 1990s** Richard Latter,1992 Major changes in the European security system in recent years deriving principally from the collapse of the Soviet Union have radically altered the security concerns of Baltic and Nordic states The security interests of the region require a level of commitment to and involvement in reconstruction in the old Eastern Bloc countries Failure to build economic stability in these countries will result in social and political unrest which could affect inter state relations between the old adversaries of the Cold War This paper discusses the security options and decisions facing the Baltic and Nordic states The Policies and Power of Public Diplomacy Nick Hopkinson,2025-04-16

This volume examines the higher level discussions convened at Wilton Park the UK s Foreign Commonwealth and Development Office s policy forum since its inception in 1946 Originally a re education camp after World War II in the principles and practice of democracy Wilton Park has evolved into a first class international policy forum and UK soft power asset working in more than 50 countries Over the decades senior decision makers and opinion formers from around the world have advanced and shaped thinking and policies on global issues including building post war Germany transatlantic security East West relations the transition from apartheid in South Africa the UK s relations with Europe European integration trade human rights climate change sustainable development and health With unique archival access this book comprehensively details the discussions which have helped shape post war Europe and international policymaking particularly in the UK US and wider Europe The Policies and Power of Public Diplomacy will be of interest to anyone interested in international relations and is essential reading for academics diplomats decision makers and students from around the world **Security Dynamics in the Former Soviet Bloc** Graeme P. Herd,Jennifer D.P. Moroney,2013-06-17

**Security Dynamics in the Former Soviet Bloc** focuses on four former Soviet sub regions the Baltic Sea region the Slavic republics the Black Sea region and Central Asia to explore the degree to which democratic security which includes de politicisation of and civilian oversight of the military resolution of conflicts by international cooperation and involvement in international organisations It examines how far states in these regions have developed cooperative foreign and security policies towards their immediate neighbours and key Western states and organisations explores the interplay between internal and external aspects of democratic security building and uses case study examples to show how inter state bi lateral and multi lateral relations are developing **The social construction of Swedish neutrality** Christine Agius,2013-07-19

The end of the Cold War and the War on Terror has signalled a shift in the security policies of all states It has also led to the reconsideration of the policy of neutrality and what being neutral means in the present age This book examines the conceptualisation of neutrality from the Peloponnesian War to today uncovering how neutrality has been a neglected and misunderstood subject in International Relations IR theory and politics By rethinking neutrality through constructivism this book argues that neutrality is intrinsically linked to identity Using Sweden as a case study it links identity sovereignty

internationalism and solidarity to the debates about Swedish neutrality today and how neutrality has been central to Swedish identity and its worldview It also examines the challenges to Swedish neutrality and neutrality broadly in terms of European integration globalisation the decline of the state and sovereignty and new threats to security such as international terrorism arguing that the norms and values of neutrality can be reworked to contribute to a more cosmopolitan international order

*Security Policy Reorientation in Peripheral Europe* Kjell Engelbrekt,2019-09-18 This title was first published in 2002 This rich comparative analysis looks at security policy reorientation in four European states located at the periphery of the European continent During the post Cold War period Greece Bulgaria Sweden and Finland conducted a security policy that was heavily influenced by their close proximity to the iron curtain Probing this transition during a decisive phase of the post Cold War reconstitution of the wider European security order the author analyzes national security policy making from the standpoints of three international relations traditions realism institutionalism and political anthropology This engaging work is invaluable for students scholars and policy analysts working in the field of international relations and European politics

**Nordic-Baltic Security** Don M. Snider,Arne Olav Brundtland,1994 *Post Communist States in the World Community* William E. Ferry,Roger E. Kanet,2016-01-09 *Post Communist States in the World Community* provides a selection of papers on various aspects of the foreign and security policies of the post communist states of Europe presented originally at the Fifth World Congress of Central and East European Studies in Warsaw The articles cover Russian foreign and security policy Russian policy in Europe the foreign policies of the countries of East Central Europe and Russian policy in East Asia **The Baltic Security Puzzle** Mary N. Hampton,M. Donald Hancock,2015-10-22 International experts assess the components of the Baltic security puzzle by placing the security and political interests of the states of Latvia Estonia and Lithuania within the historical economic and political narratives of the greater Baltic region They first reevaluate Baltic history as a progression of conflict partial integration Cold War division up to today s efforts to build a security community Next they focus on economic and social relations by contrasting patterns of democratization domestic politics EU membership and the economics of crime Lastly they analyze military security and evolving regional perceptions of threats as well as the dynamics of alliance behavior and the recent geostrategic clashes unearthed by Russia s behavior in Ukraine **Beyond the Soviet Union** Max Beloff,2018-12-14 First published in 1997 this book explores the upheavals within the Soviet Union that ended the Cold War balance of terror and forced an attempt to create market economies and democratic policies in the Western ideological mould The 10 chapters of this book reprints of Conflict Studies between 1989 and 1994 deal with particular internal issues within the former Soviet Union and its successor states with their relations with each other and with their neighbours in Europe They include changes between civil and military authorities especially in Russia and the Ukraine and to implications for nuclear and conventional disarmament as well for foreign policy in general *Rethinking Security in Post-Cold-War Europe* William Park,G.Wyn Rees,2014-06-11 Provides a survey of the principal items on the agenda following

the end of the Cold War focusing upon the institutions and regions where the reconsideration of security issues has been particularly profound The book is organised into three main sections the first examines the changed roles of the main security institutions which have survived the Cold War NATO the European Union Western European Union and the Organisation for Security and Cooperation in Europe The second analyses the Central European countries Russia and States of the former Soviet Union in terms of their ideologies political structures and relationships of the Cold War period Lastly the text examines the northern and southern regions of Europe where quite different perspectives and agendas are concerned

**European Total Defence** Gjermund Forfang Rongved, 2025-03-11 This book analyses the origins experiences and challenges of total defence in Europe and comprises a broad spectrum of national case studies as well as one international organisation NATO The topic of total defence has been brought to the fore by deglobalisation augmented international tension the US pivot to Asia grey zone threats Covid 19 and not least by the increased Russian threat during the 2010s which culminated in the invasion of Ukraine in 2022 The analysis here is based on an in depth analysis of the four major Nordic countries the Baltic countries Poland Ukraine Switzerland and the Netherlands as well as a perspective from NATO itself This volume argues that although the activity that we describe as total defence has many labels and various expressions which follow from each country s own history geopolitical setting and strategic culture some aspects of it are to be found in most countries This is because all countries at least to some extent will need their armed forces to rely on civil society in a crisis however it is a long way from this to a full fledged total defence concept With continued international tension the need to build resilient societies and the European need to take more responsibility for its own security in a cost efficient way this book argues that we should expect total defence to gain importance in the 21st century This book will be of much interest to students of security studies defence studies European politics and International Relations in general Small States and International Security Clive Archer, Alyson Bailes, Anders Wivel, 2014-03-14 This book explains what small states are and explores their current security challenges in general terms and through specific examples It reflects the shift from traditional security definitions emphasizing defence and armaments to new security concerns such as economic societal and environmental security where institutional cooperation looms larger These complex issues linked with traditional power relations and new types of actors need to be tackled with due regard to democracy and good governance Key policy challenges for small states are examined and applied in the regional case studies The book deals mainly with the current experience and recent past of such states but also offers insights for their future policies Although many of the states covered are European the study also includes African Caribbean and Asian small states Their particular interest and relevance is outlined as is the connection between their security challenges and their smallness Policy lessons for other states are then sought The book is the first in depth multi continent study of security as an aspect of small state governance today It is novel in placing the security dilemmas of small states in the context of wider ideas on international and institutional change and in

dealing with non European states and regions      **NATO's Eastern Agenda in a New Strategic Era** F. Stephen Larrabee, 2004-01-05 NATO's Eastern agenda faces several challenges including consolidating the democratic transitions in Central and Eastern Europe ensuring the security of the Baltic states developing a post NATO enlargement strategy for Ukraine deepening the Russia NATO partnership and engaging the Caucasus and Central Asia The author also considers NATO's broader transformation      *The Nebi Yearbook 1998* P. Joenniemi, Lars Hedegaard, A. Östhol, Bjarne Lindström, K. Peschel, C.-E. Stalvant, 2012-12-06 Thorvald Stoltenberg Ambassador Chairman of the Editorial Advisory Board Most of us have been overwhelmed by the speed and extent of the changes that have been taking place in Europe since the late 1980s Over the span of a few years we have witnessed the collapse of the Soviet Union and the unification of Germany This process has had far reaching implications for Northern Europe the Baltic states have attained independence and with the establishment of the Baltic Sea regional co operation and the Barents co operation a new type of East West relations has come into being The process of change continues Its latest manifestation is the agreement between Russia and NATO and NATO and EU enlargement is expected to take place over the next few years With such far reaching transformations we need to reflect on what is happening We need a more coherent picture of the new situation in Northern Europe and of where we are heading This Yearbook is an attempt to fulfil this need I would like to thank the editors for taking this initiative which has been long awaited by those of us who have been actively interested in the improved relations between the former East and the old West that have been made possible by the end of the Cold War and particularly in the new opportunities for cross border co operation and integration in the North European and Baltic space      **The Politics of Security Sector Reform** Magnus Ekengren, 2016-02-24 Security Sector Reform SSR is increasingly becoming a cornerstone in international security and development cooperation Indeed the concept has often been seen as a panacea for many of the biggest threats to the world such as failed states terrorism and poverty In particular this book focuses on the complexities of implementation of SSR across the globe and the actual and potential role for the European Union EU to play in SSR As suggested in the title of the book this involves not only opportunities but challenges to be overcome as well There are three core themes to this book Policy Policies and Practice By presenting the themes in this particular order a greater appreciation of the influences on the process of SSR from conception to implementation is relayed to the reader This volume appeals to audiences interested in the EU as a global actor and the interrelationships between foreign security defence and development policies      **European Security** Bjørn Møller, 2016-04-22 Europe has undergone quite profound changes since the end of the Cold War Having been a highly militarised conflict ridden and war ridden region the core of Europe today constitutes a security community where armed conflicts among the constituent states has become inconceivable This comprehensive book offers a theoretically founded and thoroughly documented analysis of European security with a special emphasis on the role played by the United Nations and the various regional and sub regional organisations especially the North Atlantic Treaty Organisation the

Organisation for Security and Cooperation in Europe the Council of Europe and the European Union When it comes to explaining peace in Europe opinions differ widely Some argue that it was only because the West refused to give in to Soviet threats that the latter eventually gave up or that the long peace in Europe was due to the combination of a bipolar alliance structure pitting the North Atlantic Treaty Organisation NATO against the Warsaw Pact with the presence of nuclear weapons on both sides Others point instead to the extraordinarily dense network of international institutions and organisations in Europe offering a wide panoply of fora in which to handle disputes peacefully or to the web of interdependence in economic and other affairs tying together all states in Europe in relations which militate strongly against war Still others believe that the external peace between the states in Europe is simply a reflection of a convergence of cultures democracies with marked economies that are open towards the world market These questions are the focal point of this book which concentrates on security albeit not in the sense of being a treatise on military matters but security obtainable by much more indirect and non military means It will be required reading for all students and scholars of European security and the organisations which underpin it

**Armed Forces and International Security** Jean M. Callaghan, Franz Kernic, 2003 Designed as a textbook and interdisciplinary reference for the social sciences this volume examines key issues in the current global security agenda and relationships between armed forces and society around the world The book's concise chapters on a broad range of themes related to national and international security military sociology and civil military relations were written by experts from 18 countries This volume also has a groundbreaking section which using country studies and regional overviews discusses civil military relations in as well as the most salient theoretical and practical features of current means of democratic control of the armed forces in the early 21st century

*Europe, Small Navies and Maritime Security* Robert McCabe, Deborah Sanders, Ian Speller, 2019-09-16 This book seeks to identify and address gaps in our understanding of maritime security and the role of small navies in Europe The majority of Europe's navies are small yet they are often called

upon to address a complex array of traditional and non traditional threats This volume examines the role of small navies within the European security architecture by discussing areas of commonality and difference between navies and arguing that it is not possible to fully understand either maritime strategy or European security without taking into account the actions of small navies It contains a number of case studies that provide an opportunity to explore how different European states view the current security environment and how naval policy has undergone significant changes within the lifetime of the existing naval assets In addition the book examines how maritime security and naval development in Europe might evolve given that economic forecasts will likely limit the potential procurement of larger naval assets in the future which means that European states will increasingly have to do more with less in the maritime domain This book will be of much interest to students of maritime strategy naval power strategic studies European politics and international relations in general

*The Handbook of European Defence Policies and Armed Forces* Hugo Meijer, Marco Wyss, 2018-06-22 The armed forces of Europe have undergone a dramatic transformation since the collapse of the Soviet Union The Handbook of European Defence Policies and Armed Forces provides the first comprehensive analysis of national security and defence policies strategies doctrines capabilities and military operations as well as the alliances and partnerships of European armed forces in response to the security challenges Europe has faced since the end of the cold war A truly cross European comparison of the evolution of national defence policies and armed forces remains a notable blind spot in the existing literature The Handbook of European Defence Policies and Armed Forces aims to fill this gap with fifty one contributions on European defence and international security from around the world The six parts focus on country based assessments of the evolution of the national defence policies of Europe s major medium and lesser powers since the end of the cold war the alliances and security partnerships developed by European states to cooperate in the provision of national security the security challenges faced by European states and their armed forces ranging from interstate through intra state and transnational the national security strategies and doctrines developed in response to these challenges the military capabilities and the underlying defence and technological industrial base brought to bear to support national strategies and doctrines and finally the national or multilateral military operations by European armed forces The contributions to The Handbook collectively demonstrate the fruitfulness of giving analytical precedence back to the comparative study of national defence policies and armed forces across Europe
