Klein,2013-12-01 There is a near universal folk saying that everyone wishes to live a good long life but no one wishes for old age More contemporarily the rock and roll band Little Feat sang You know that you re over the hill when your mind s making promises your body can t fill This book is about the good long life It is a book about primary prevention strategies in the aging process it is not about preventing that process It is not about being old Instead it is about the things that individuals and the helping professionals who provide them with counsel and assistance can do to prevent the preventable problems of advancing age and to better manage those changes in functioning that cannot be prevented In short it is about extending all our capacities to the fullest so that we can better keep all those promises that we make to ourselves and others Aging is a life long process We focus here on the changes that are taking place in our selves and in our society as we age In particular we focus on what we can do to affect these changes by the choices we make and how we live This book offers primary prevention strategies for mature and older adults with the recognition that mature adulthood starts as soon as we are old enough to truly appreciate our active role in our own aging processes
