Normalization, Social Integration, and Community Services Robert John Flynn, Robert J. Flynn, Kathleen E. Nitsch, 1980 A Quarter-century of Normalization and Social Role Valorization Robert John Flynn, Raymond A. Lemay, 1999

During the late 1960s Normalization and Social Role Valorization SRV enabled the widespread emergence of community residential options and then provided the philosophical climate within which educational integration supported employment and community participation were able to take firm root This book is unique in tracing the evolution and impact of Normalization and SRV over the last quarter century with many of the chapter authors personally involved in a still evolving international movement Published in English **Normalisation** Hilary Brown, Helen Smith, 2012-08-06 Normalisation the theoretical framework that underpins the movement of services for people with disabilities from long stay hospitals has recently become the focus of much academic and professional attention As the community care debate has moved into the public arena it has attracted a certain amount of criticism acknowledging the political and philosophical conflicts that surround it Normalisation A Reader for the Nineties provides a much needed informed appraisal of this controversial practice and combines various perspectives on the subject including applied behavioural analysis social policy and psychodynamic approaches Thus it explores the discrepancies between the ideal and the reality and extends the debate by drawing comparisons with other political and social ideologies Leadership and Change in Human Services David Race, 2003-08-29 David Race introduces us to Wolfensberger's key ideas concerning devaluation vulnerability normalization social role valorization and advocacy which are explored through a series of extracts with commentary from his published work **The Development, Conceptualisation and Implementation of Quality in Disability Support Services** Jan Šiška, Julie Beadle-Brown, 2021-08-01 Social services for people with disabilities have undergone substantial changes over time in particular in the past two decades Whilst lack of affordable and appropriate housing is a barrier to community living for many people with disabilities it is only one part of the jigsaw This book traces some of these changes in particular related to living situation and support available in a range of different countries and considers the factors that have influenced these changes This book considers other aspects of what is needed to bring about real change in the lives of all people with disabilities

Soteriologies of India and Their Role in the Perception of Disability Anand Rao, 2004 At the turn of the century and the beginning of the new Millennium India has made extraordinary industrial and economic progress At the same time the sub continent is faced with innumerable problems in the area of basic social services Religion plays an important role in the interpersonal relationship and social interaction of the people Religion is not only worship and prayer but dictates such factors as who could come in physical contact with the other and who has the right to draw water from a well and who is deprived of it Because of these factors it is necessary to look at the perception of disability in the soteriologies of India This study confines itself to Hinduism as the major religion of India that is based on the achievement of salvation and thus to

escape the cycle of birth death and rebirth and Christianity on the other hand that is involved in trying to improve the conditions of the poor and the needy and its main precept is the love of neighbours It would be interesting to pursue these distinctions in reviewing the perception of disability in both these religions **Professional Child and Youth Care** Roy Ferguson, Carey J. A Transformatory Ethic of Inclusion Jayne Clapton,2009-01-01

Inclusion is a topical notion which underpins contemporary human service practices and policies within Western Judeo Christian societies Inclusion is most often considered within socio historical and socio political contexts whereby technical and legislative responses are sought However this book explores the question How ethically defensible is the notion of inclusion in relation to people with intellectual disability The book contends that inclusion is a multifaceted complex concept in a dualistic and dichotomous relationship with exclusion It is argued that historical and contemporary conceptualisations of exclusion for people with intellectual disability have been constructed from various philosophical and theological matrices imbued with particular values about personhood Furthermore it is proposed that the ethical significance of inclusion and exclusion in the context of intellectual disability is defined and perpetuated by expressions of a particular socio symbolic order underpinned by patriarchy and kyriarchy and subjected to two controlling ethics an Ethic of Normalcy and an Ethic of Anomaly Inclusion and exclusion are conceived as phenomena relating to how membership is defined legitimated or repelled by concealed occluding boundaries acting within a patriarchal socio ethical fabric The book argues that Ethical Inclusion is only possible through the rupture of these boundaries by a conceptual tool A Transformatory Ethic of Inclusion This conceptual instrument of rupture embraces the scholarship of feminist ethics and feminist theology Such a rupture requires examining the ways traditional ethical frameworks themselves have conceptually diminished and devalued the authenticity of people with intellectual disability A concept of integrality becomes imaginable Conceptual analysis is framed using a crafting metaphor of a patchwork quilt which is infused with narrative and by which such an ethical exploration is undertaken and impaired traditional ethical theorising is confronted and transformed
