## **North American Exploration Vol 1 A New World Disclosed:**

**North American Exploration** John Logan Allen, 1997-01-01 The third volume of North American Exploration covering 1784 to 1914 charts a dramatic shift in the purpose priorities and results of the exploration of North America As the nineteenth century opened exploration was still fostered by the growth of empire but by the 1830s commercial interests came to drive most exploratory ventures particularly through the fur trade By midcentury however as imperial rivalries lessened and the fur trade declined exploration was driven by the growing scientific spirit of the age although the science was often conducted in the service of a search for railroad routes or natural resources linked to military concerns A clear transition took place as the spirit of the Enlightenment gave way to economic imperatives and to the science of the post Darwinian age and exploration passed beyond discovery and geographical definition This volume explores the resultant beginnings of an understanding of the continent and its native peoples

**Surveying the Record** Edward Carlos Carter, 1999 Papers given at a conference on Scientific Exploration in North America to 1930 with topics including Cartography Oceanic Exploration Art Anthropology Lewis and Clark and the West This book adds much to our quest for knowledge of who and where we are by illuminating such themes as the role of maps and mapmaking in defining our national identity the origins of Western exploration the cultural clash found in the best selling account of a 19th century physician explorer with Arctic peoples the role of art in the service of science in bringing these newly discovered places and peoples into the American parlor and the impact of Mormon farming techniques on John Wesley Powell's famed 1878 Arid Region Report Black and white maps and illus

**Cartographic Encounters** G. Malcolm Lewis, 1998-09-15 Ever since a native American prepared a paper chart of the lower Colorado River for the Spaniard Hernando de Alarcon in 1540 native Americans have been making maps in the course of encounters with whites the most recent maps often support land claims This book charts the history of these cartographic encounters examining native maps and mapmaking from the earliest contacts onward

*International Handbook of Historical Archaeology* Teresita Majewski, David Gaimster, 2009-06-07 In studying the past archaeologists have focused on the material remains of our ancestors Prehistorians generally have only artifacts to study and rely on the diverse material record for their understanding of past societies and their behavior Those involved in studying historically documented cultures not only have extensive material remains but also contemporary texts images and a range of investigative technologies to enable them to build a broader and more reflexive picture of how past societies communities and individuals operated and behaved Increasingly historical archaeology refers not to a particular period place or a method but rather an approach that interrogates the tensions between artifacts and texts irrespective of context In short historical archaeology provides direct evidence for how humans have shaped the world we live in today Historical archaeology is a branch of global archaeology that has grown in the last 40 years from its North American base into an increasingly global community of archaeologists each studying their area of the world in a historical context Where historical archaeology

started as part of the study of the post Columbian societies of the United States and Canada it has now expanded to interface with the post medieval archaeologies of Europe and the diverse post imperial experiences of Africa Latin America and Australasia The 36 essays in the International Handbook of Historical Archaeology have been specially commissioned from the leading researchers in their fields creating a wide ranging digest of the increasingly global field of historical archaeology The volume is divided into two sections the first reviewing the key themes issues and approaches of historical archaeology today and the second containing a series of case studies charting the development and current state of historical archaeological practice around the world This key reference work captures the energy and diversity of this global discipline today

*Powhatan's Mantle* Gregory A. Waselkov, Peter H. Wood, M. Thomas Hatley, 2006-12-01 Considered to be one of the all time classic studies of southeastern Native peoples Powhatan's Mantle proves more topical comprehensive and insightful than ever before in this revised edition for twenty first century scholars and students

*North American Odyssey* Craig E. Colten, Geoffrey L. Buckley, 2014-03-27 This groundbreaking volume offers a fresh approach to conceptualizing the historical geography of North America by taking a thematic rather than a traditional regional perspective Leading geographers building on current scholarship in the field explore five central themes Part I explores the settling and resettling of the continent through the experiences of Native Americans early European arrivals and Africans Part II examines nineteenth century European immigrants the reconfiguration of Native society and the internal migration of African Americans Part III considers human transformations of the natural landscape in carving out a transportation network replumbing waterways extracting timber and minerals preserving wilderness and protecting wildlife Part IV focuses on human landscapes blending discussions of the visible imprint of society and distinctive approaches to interpreting these features The authors discuss survey systems regional landscapes and tourist and mythic landscapes as well as the role of race gender and photographic representation in shaping our understanding of past landscapes Part V follows the urban impulse in an analysis of the development of the mercantile city nineteenth and twentieth century planning and environmental justice With its focus on human environment interactions the mobility of people and growing urbanization this thoughtful text will give students a uniquely geographical way to understand North American history Contributions by Derek H Alderman Timothy G Anderson Kevin Blake Christopher G Boone Geoffrey L Buckley Craig E Colten Michael P Conzen Lary M Dilsaver Mona Domosh William E Doolittle Joshua Inwood Ines M Miyares E Arnold Modlin Jr Edward K Muller Michael D Myers Karl Raitz Jasper Rubin Joan M Schwartz Steven Silvern Andrew Sluyter Jeffrey S Smith Robert Wilson William Wyckoff and Yolonda Youngs

*Apalachicola Valley Archaeology, Volume 2* Nancy Marie White, 2024-05 Apalachicola Valley Archaeology is a major holistic synthesis of the archaeological record and what is known or speculated about the ancient Apalachicola and lower Chattahoochee Valley region of northwest Florida southeast Alabama and southwest Georgia Volume 1 coverage spans from the time of the first human settlement around 14 000 years ago to the Middle Woodland period ending about AD 700 Author

Nancy Marie White had devoted her career to this archaeologically neglected region and she notes that it is environmentally and culturally different from better known regions nearby Early chapters relate the individual ecosystems and the types of typical and unusual material culture including stone ceramic bone shell soils and plants Other chapters are devoted to the archaeological Paleoindian Archaic Woodland periods Topics include migration settlement sites artifacts and material culture subsistence and lifeways culture and society economics warfare and rituals White's prodigious work reveals that Paleoindian habitation was more extensive than once assumed Archaic sites were widespread and those societies persisted through the first global warming when the Ice Age ended Besides new stone technologies pottery appeared in the Late Archaic period Extensive inland and coastal settlement is documented Development of elaborate religious or ritual systems is suggested by Early Woodland times when the first burial mounds appear Succeeding Middle Woodland societies expanded this mortuary ceremony in about forty mounds In the Middle Woodland the complex pottery of the concurrent Swift Creek and the early Weeden Island ceramic series as well as the imported exotic objects show an increased fascination with the ornate and unusual Native American lifeways continued with gathering fishing hunting subsistence systems similar to those of their ancestors The usefulness of the information to modern society to understand human impacts on environments and vice versa caps the volume

*Historical Dictionary of the Discovery and Exploration of the Northwest Coast of America* Robin Inglis, 2008-04-02 The Northwest Coast of America ranging from northern California through Oregon Washington and British Columbia all the way up to Alaska was the last temperate coastline to be placed on the world map First visited by Russians in 1741 and thought to contain a navigable passage between the Pacific and the Atlantic it was systematically revealed during an intense period of exploratory and commercial activity from the 1770s to the 1790s Subsequently the imperial ambitions of Russia Spain and Britain and an assumption of manifest destiny by the United States led to further exploration and ensured that the region would become disputed territory before national boundaries were determined in the mid 19th century The Historical Dictionary of the Discovery and Exploration of the Northwest Coast of America tells of the heroic endeavors and remarkable achievements the endless speculation about a northwest passage and the fighting and manipulation for commercial advantage that surrounded this terrain This is done through an introductory essay a detailed chronology an extensive bibliography modern maps and selected historical maps and drawings and over 400 cross referenced dictionary entries Entries cover the native people encountered the scientists and artists who left an invaluable documentary and visual record of people places flora and fauna the numerous voyages taken by men such as Vitus Bering James Cook Juan Francisco de la Bodega y Quadra and George Vancouver overland expeditions like those of Alexander Mackenzie Simon Fraser Meriwether Lewis and William Clark and David Thompson and maritime fur traders including George Dixon Grigori Shelikhov Robert Gray and William Sturgis No other dictionary exists that is dedicated solely to the coverage of this region

**Meta Incognita: a discourse of discovery - volume 1** Thomas H. B. Symons, Stephen Alsford, Chris Kitzen, 1999-01-01

The Meta Incognita Project was initiated to cast new light on the Arctic voyages of Martin Frobisher and their significance for the histories of North America and Britain. Although the Elizabethan venture failed to discover a northwest passage to mines and precious metals and to establish a colony in the future Canadian Arctic, it left valuable legacies. Published in English, *The Mismatching of America* by Seymour I. Schwartz (2008) is the history of five major cartographic errors of American geography that have had considerable resonance long after they were perpetrated. *The Mismatching of America* presents and analyzes the significant cartographic errors that have shaped the history of the United States. Perhaps the most blatant error is the very name America, which honors Amerigo Vespucci, who not only never set foot on North American soil but also played no significant role in the discovery of South America. The appearance of the name America, imprinted on a map, ensured its permanence. Other significant errors explored in *The Mismatching of America* include Giovanni da Verrazzano's misinterpretation of Pamlico or Albermarle Sound for the Pacific Ocean, thereby suggesting the presence of an isthmus in the middle of the North American continent; the existence of a direct North West passage between the Atlantic and Pacific oceans; the misconception that California was an island; and the insertion on Lake Superior of a fictitious island that is specifically referred to in defining the boundary of the United States. The inclusion of pertinent rare maps enhances this rich and revealing narrative of several intriguing episodes in the history of the geographic evolution of the United States. Seymour I. Schwartz is the Distinguished Alumni Professor of Surgery at the University of Rochester and an expert on the history of mapping America. He is the coauthor of *Mapping of America* and author of *The French and Indian War 1754-1763: The Imperial Struggle for North America* and *This Land is Your Land*.

**Richard Hakluyt and Travel Writing in Early Modern Europe** by Claire Jowitt (2016-03-23) is an interdisciplinary collection of 24 essays which brings together leading international scholarship on Hakluyt and his work. Best known as editor of *The Principal Navigations 1589-1598-1600*, Hakluyt was a key figure in promoting English colonial and commercial expansion in the early modern period. He also translated major European travel texts, championed English settlement in North America, and promoted global trade and exploration via a Northeast and Northwest Passage. His work spanned every area of English activity and aspiration, from Muscovy to America, from Africa to the Near East and India to China and Japan, providing up-to-date information and establishing an ideological framework for English rivalries with Spain, Portugal, France, and the Netherlands. This volume resituates Hakluyt in the political, economic, and intellectual context of his time. The genre of the travel collection to which he contributed emerged from Continental humanist literary culture. Hakluyt adapted this tradition for nationalistic purposes by locating a purported history of English enterprise that stretched as far back as he could go, in recovering antiquarian records. The essays in this collection advance the study of Hakluyt's literary and historical resources, his international connections, and his rhetorical and editorial practice. The volume is divided into 5 sections: Hakluyt's Contexts, Early Modern Travel Writing Collections, Editorial Practice, Allegiances and Ideologies, Politics.

Religion Nation and Hakluyt Rhetoric and Writing The volume concludes with an account of the formation and ethos of the Hakluyt Society founded in 1846 which has continued his project to edit travel accounts of trade exploration and adventure
