Putting On The Brakes:

Ecosocialism Salvatore Engel-Di Mauro, 2024-11-30 This book offers an extensive critical overview of eco socialism one of the most generative and significant aspects of contemporary debates within socialism Marxism has played a foundational role in the development of ecosocialism since its inception and has also led to critical reflections on the 20th century Marxism and ecological interpretation of Marxist writings Despite the relevance of ecosocialism to the pressing debates on the ecological crisis and the growing literature on ecosocialism there has not been a comprehensive account on ecosocialism and its variations This volume seeks to fill this important gap and to pave the way for a more systematic development of this emerging paradigm The book not only engages with a critique of other non socialist ecological schools of thought in defence of ecosocialism but also provides a critical overview of debates within ecosocialism and of ecosocialism itself The latter includes an appraisal of ecosocialism in Bolivarian Venezuela and the implications of current efforts in the People s Republic of China to build an ecological civilisation Furthermore the book contains a crucial discussion about the relation between eco socialism and indigenous studies and movements

A Global Pandemic Margaret J. Goldstein, 2021-08-01 COVID 19 shocked the world in 2020 Follow the disease s spread across the globe and the different approaches countries took to fight back

Pan-Africanism, and the Politics of African Citizenship and Identity Toyin Falola, Kwame Essien, 2013-10-08 There is no recent literature that underscores the transition from Pan Africanism to Diaspora discourse This book examines the gradual shift and four major transformations in the study of Pan Africanism It offers an academic post mortem that seeks to gauge the extent to which Pan Africanism overlaps with the study of the African Diaspora and reverse migrations how Diaspora studies has penetrated various disciplines while Pan Africanism is located on the periphery of the field The book argues that the gradual shift from Pan African discourses has created a new pathway for engaging Pan African ideology from academic and social perspectives Also the book raises questions about the recent political waves that have swept across North Africa and their implications to the study of twenty first century Pan African solidarity on the African continent The ways in which African institutions are attracting and mobilizing returnees and Pan Africanists with incentives as dual citizenship for diasporans to support reforms in Africa offers a new alternative approach for exploring Pan African ideology in the twenty first century Returnees are also using these incentives to gain economic and cultural advantage The book will appeal to policy makers government institutions research libraries undergraduate and graduate students and scholars from many different disciplines

Proceedings of the New York Railroad Club ,1888 Ingenious Jason Fagone, 2013-11-05 An epic tale of invention in which ordinary people s lives are changed forever by their quest to engineer a radically new kind of car In 2007 the X Prize

Foundation announced that it would give 10 million to anyone who could build a safe mass producible car that could travel 100 miles on the energy equivalent of a gallon of gas The challenge attracted more than one hundred teams from all over the world including dozens of amateurs Many designed their cars entirely from scratch rejecting decades of thinking about what a car should look like Jason Fagone follows four of those teams from the build stage to the final race and beyond into a world in which destiny hangs on a low drag coefficient and a lug nut can be a beautiful talisman The result is a gripping story of crazy collaboration absurd risks colossal hopes and poignant losses In an old pole barn in central Illinois childhood sweethearts hack together an electric powered dreamboat using scavenged parts forging their own steel and burning through their life savings In Virginia an impassioned entrepreneur and his hand picked squad of speed freaks pool their imaginations and build a car so light that you can push it across the floor with your thumb In West Philly a group of disaffected high school students come into their own as they create a hybrid car with the engine of a Harley motorcycle And in Southern California the early favorite a start up backed by millions in venture capital designs a car that looks like an alien egg Ingenious is a joyride Fagone takes us into the garages and the minds of the inventors capturing the fractious yet beautiful process of engineering a bespoke machine Suspenseful and bighearted this is the story of ordinary people risking failure economic ruin and ridicule to create something vital that Detroit had never pulled off As the Illinois team wrote in chalk on the wall of their barn **SOMEBODY HAS TO DO SOMETHING THAT SOMEBODY IS US**

Hardy,Kim T. Mueser,2017-12-21 There is abundant evidence showing a strong association between trauma exposure psychotic symptoms and posttraumatic stress disorder PTSD Early trauma exposure contributes to the formation of psychotic symptoms and the development of psychotic disorders or severe mental illnesses such as schizophrenia bipolar disorder and treatment refractory major depression Furthermore among persons with psychotic disorders multiple traumatization over the lifetime is common due to factors such as social stigma the criminalization of severe mental illness and increased vulnerability to interpersonal victimization In addition to these factors is the traumatic nature of experiencing psychotic symptoms and coercive treatments such as involuntary hospitalization and being placed in seclusion or restraints Not surprisingly these high rates of trauma lead to high rates of PTSD in people with psychotic disorders which are associated with more severe symptoms worse functioning and greater use of acute care services In addition to the impact of trauma on the development of psychotic disorders and comorbid PTSD traumatic experiences such as childhood sexual and physical abuse can shape the nature of prominent psychotic symptoms such as the content of auditory hallucinations and delusional beliefs Additionally traumatic experiences have been implicated in the role of stress responsivity and increased risk for transition to psychosis in those identified as being at clinical high risk of developing psychosis Finally although the diagnostic criteria for PTSD primarily emphasize the effects of trauma on anxiety avoidance physiological over arousal and negative thoughts it is well established that PTSD is frequently accompanied by psychotic symptoms such as hallucinations and delusions that cannot be attributed to another DSM V Axis I disorder such as psychotic depression or schizophrenia Understanding the contribution of traumatic experiences to the etiology of psychosis and other symptoms can inform the provision of cognitive behavioral

therapy for psychosis including the development of a shared formulation of the events leading up to the onset of the disorder as well as other trauma informed treatments that address distressing and disabling symptoms associated with trauma and psychosis Until recently the trauma treatment needs of this population have been neglected despite the high rates of trauma and PTSD in persons with psychotic disorders and in spite of substantial gains made in the treatment of PTSD in the general population Fortunately progress in recent years has provided encouraging evidence that PTSD can be effectively treated in people with psychotic disorders using interventions adapted from PTSD treatments developed for the general population In contrast to clinician fears about the untoward effects of trauma focused treatments on persons with a psychotic disorder research indicates that post traumatic disorders can be safely treated and that participants frequently experience symptom relief and improved functioning There is a need to develop a better understanding of the interface between trauma psychosis and post traumatic disorder This Frontiers Research Topic is devoted to research addressing this interface
