

## Joseph Fichter and the New Religions

Eileen Barker

*London School of Economics*

In his introduction to the *Journal for the Scientific Study of Religion* 1975 symposium on the work of Joseph Fichter, Jeff Hadden listed a number of ways in which Joe had got himself into trouble by not toeing the party (that is, the Vatican) line. He ended with the words "And I am confident that there are yet more frontiers where he can still get 'in trouble'" (1975: 171). Hadden was right. There were more frontiers — and it is one of them, Fichter's encounter with the Unification Church in particular and new religious movements (NRMs) in general, that I have been asked to address in this paper.

Six years after the JSSR prediction, in May 1981, a complaint was lodged against Fichter with the Jesuit headquarters in Rome as the result of the French version of an article that he had written in 1979 about the Unificationists — who had become widely known as "Moonies" (Fichter 1985: 2). It so happens that at that very time he was convening a conference, "Alternative Religions: Research and Study," and that the conference was funded in part by the New Ecumenical Research Association (or New Era), one of the numerous organizations closely allied with the Unification Church. Nothing daunted, Fichter edited the proceedings of the conference under the title *Alternatives to American mainline churches*, the book being published by the Unification Theological Seminary and distributed by The Rose of Sharon Press, yet another Unification-related organization.

This was by no means a one-off association with the Unification Church. Fichter's curiosity had been aroused by the adverse publicity the movement was receiving and he had accepted invitations to conferences on its theology. He soon became a familiar figure at other Unification conferences; most notably, but by no means exclusively, he attended ICUS (the annual International Conference on the Unity of the Sciences) for several years from 1977. At these gatherings, Fichter would be invited to sit at High Table and say grace at the final banquet, but many of the breaks between sessions he spent talking to Unificationists, several of whom, he discovered to his surprise, had been Catholics. His interest in the movement was further fanned by some of these erstwhile Catholics telling him that they did not actually consider themselves to be ex-Catholics, but that they now felt they could be better Christians than they had had the opportunity to be whilst they were confined to a Catholic institutional framework. He was particularly struck by the words of one Unificationist who told him "These people actually practice it." Furthermore, he became in-

**Globalization, Poverty and Inequality** Raphael Kaplinsky, 2013-05-13 Globalization is characterised by persistent poverty and growing inequality Conventional wisdom has it that this global poverty is residual as globalization deepens the poor will be lifted out of destitution The policies of the World Bank the IMF and the WTO echo this belief and push developing countries ever deeper into the global economy Globalization Poverty and Inequality provides an alternative viewpoint It argues that for many particularly for those living in Latin America Asia and Central Europe poverty and globalization are relational It is the very workings of the global system which condemn many to poverty In particular the mobility of investment and the large pool of increasingly skilled workers in China and other parts of Asia are driving down global wages This poses challenges for policy makers in firms and countries throughout the world It also challenges the very sustainability of globalisation itself Are we about to witness the implosion of globalisation as occurred between 1913 and 1950 Using a variety of theoretical frameworks and drawing on a vast amount of original research this book will be an invaluable resource for all students of globalization and its effects

*Standing on the Premises of God* Fritz Detwiler, 1999-12 The Christian Right is arguably the most significant social movement in the United States today In recent years these religious conservatives have loudly protested a public education system they believe no longer represents their interests or values Educators often dismiss critiques based on religious values as irrational or flimsy failing to appreciate the coherence of these criticisms from the Christian Right's own perspective While the Christian Right has become ever more sophisticated in its lobbying and powerful in its influence educators and parents find themselves lacking the background knowledge necessary to respond effectively to its efforts *Standing on the Premises of God* speaks directly to this dilemma explaining current incarnations of the Christian Right its leadership its intellectual and theological foundations and its tactics so that those interested in the debates over education will be better prepared to engage them constructively Taking the novel approach of framing the Christian Right as a revitalization movement Detwiler shows how it seeks to effect cultural transformation in order to bring public education and our society more generally in line with its worldview His theoretical model provides insights into why education is so pivotal to the Christian Right and also assesses the religious viability of the Christian Right as a social movement
