**Religion, Law and Learning in Classical Islam** George Makdisi, 2022-02-23 This second selection of articles by George Makdisi concentrates on the schools of religious thought and legal learning in the medieval Islamic world and their defence of orthodoxy The author aims to review and re assess the implications of the conflict between first the rationalist and the traditional theologians the one accepting the influence of Greek philosophy the other rejecting it and then between one of these traditionalist schools the Hanbali school of law and Sufi mysticism One of the most important consequences of the first of these confrontations he contends was the emergence of the schools of law as the guardians of the faith and theological orthodoxy The final section of the book also looks at the structure of legal learning at the institutions themselves their organization and the principles upon which they operated As well as entering the debate over the existence of corporations and guilds of law in classical Islam maintaining that they did exist these articles further suggest links between such institutions and the evolution of universities in the medieval West and the Inns of Court in England and discuss the Islamic and Arabic contribution to the concepts of academic and intellectual freedom and to the development of scholasticism and humanism Cette deuxième sélection d'articles de George Makdisi se concentre sur les écoles de pensée religieuse et d'apprentissage juridique dans le monde islamique médiéval et leur défense de l'orthodoxie L'auteur entend passer en revue et évaluer les implications du conflit entre d'abord les théologiens rationalistes et traditionnels l'un acceptant l'influence de la philosophie grecque l'autre la rejetant puis entre l'un d'eux écoles traditionalistes l'école de droit Hanbali et le mysticisme soufi L'une des conséquences les plus importantes de la première de ces confrontations soutient-il a été l'émergence des écoles de droit en tant que gardiennes de la foi et de l'orthodoxie théologique La dernière section du livre examine également la structure de l'apprentissage juridique les institutions elles-mêmes leur organisation et les principes sur lesquels elles fonctionnent En plus d'entrer dans le débat sur l'existence des corporations et des guildes de la loi dans l'Islam classique maintenant qu'elles existaient ces articles suggèrent en outre des liens entre de telles institutions et l'évolution des universités dans l'Occident médiéval et les Inns of Court en Angleterre et discuter de la contribution islamique et arabe aux concepts de liberté académique et intellectuelle et au développement de la scolastique et de l'humanisme
