## **Religion As Belonging A General Theory Of Religion:**

*Religion as Belonging* John S. Cumpsty, 1991-11-01 Religious studies having struggled to establish a phenomenological approach has been reluctant to go beyond observation and various interpretive strategies to theoretical explanation Insofar as it has ventured into explanation it has been heavily dependent for its theory upon those whose primary field of study is sociology anthropology or psychology This book attempts a general theory of religion on its own terms Part One lays a foundation for such a scientific study of religion A comprehensive and essential definition from which to generate a conceptual framework is sought through an examination of the nature of religious experience of religious discourse and of types of religious tradition In Part Two the consequences of the chosen theoretical understanding are unpacked into a conceptual framework and phenomena regarded as religious are located within it *Religion as Belonging* John S. *Religion, Theology and the Human Sciences* Richard H. Roberts, 2002 Religion Theology and the Human Sciences explores the religious consequences of the so called end of history and triumph of capitalism as they have impinged upon key institutions of social reproduction in recent times The book explores the imposition of managerial modernity upon successive sectors of society and shows why many people today feel themselves to be oppressed by systems of management that seem to leave them no option but to conform Richard Roberts seeks to challenge and outflank such seamless oppressive modernity through reconfiguration of the religious and spiritual field The Construction of Belief Aziz Esmail, Abdou

Filali-Ansary, 2013-02-01 Mohammed Arkoun was one of the most prominent and influential Arab intellectuals of his day During a career spanning more than thirty years he was revered as an outstanding research scholar a bold critic of the theoretical tensions embedded within Islamic Studies and an outspoken public figure upholding political social and cultural modernism This Festschrift honours Arkoun AZs scholarship bringing together the contributions of eleven distinguished scholars of history religious studies and philosophy It offers a comprehensive selection of critical engagements with Arkoun AZs work reflecting on his considerable influence on contemporary thinking about Islam and its ideological philosophical and theological dimensions Published in association with the Aga Khan University Institute for the study of Muslim Civilisations

religious communities and ideologies in the twentieth century connections that play out very differently in East and West Europe Examines the role of religion in the construction of the European Union from the end of the Second World War until the present day Assesses the relationship between the major world religions and the idea of Europe Book jacket

**Transforming Encounters and Critical Reflection: African Thought, Critical Theory, and Liberation Theology in Dialogue** Justin Sands, Anné Hendrik Verhoef, 2018-12-04 This book is a printed edition of the Special Issue Transforming Encounters and Critical Reflection African Thought Critical Theory and Liberation Theology in Dialogue that was published in Religions Modern Societies & the Science of Religions Gerard Wiegers, 2018-11-13 This book brings together studies by seventeen specialists in the science of religions in which they relate the changes in their discipline to the changes which have occurred in a select number of modernising societies worldwide It attempts to study these developments in their relation to and as conditioned and constrained by cultural change changes in educational systems technology population for example migration economic patterns politics and last but not least religious systems The essays focus on resp France Germany the Netherlands Spain the USA Turkey Israel Morocco Saudi Arabia South Africa Indonesia Japan and China Written in honour of Dr Lammert Leertouwer professor of History of Religions and the Comparative Study of Religions at Leiden University from 1979 until his retirement in 1997 the book is particularly important for all those who are interested in the religious social and political contexts of the academic Study of Religions in general and in the various countries dealt with in particular *An Introduction to the Sociology of Religion* Professor Pål Repstad, Assoc Prof Inger Furseth, 2013-05-28 An Introduction to the Sociology of Religion provides an overview of sociological theories of contemporary religious life Some chapters are organized according to topic Others offer brief presentations of classical and contemporary sociologists from Karl Marx to Zygmunt Bauman and their perspectives on social life including religion Throughout the book illustrations and examples are taken from several religious traditions **The Study of Religions in Szeged** Porció, Tibor, 2010 **Handbook of Religion and Society** David Yamane, 2016-07-15 The Handbook of Religion and Society is the most comprehensive and up to date treatment of a vital force in the world today It is an indispensable resource for scholars students policy makers and other professionals seeking to understand the role of religion in society This includes both the social forces that shape religion and the social consequences of religion This handbook captures the breadth and depth of contemporary work in the field and shows readers important future directions for scholarship Among the emerging topics covered in the handbook are biological functioning organizational innovation digital religion spirituality atheism and transnationalism The relationship of religion to other significant social institutions like work and entrepreneurship science and sport is also analyzed Specific attention is paid where appropriate to international issues as well as to race class sexuality and gender differences This handbook includes 27 chapters by a distinguished diverse and international collection of experts organized into 6 major sections religion and social institutions religious organization family life course and individual change difference and

inequality political and legal processes and globalization and transnationalism      **Religion and Power** David

Martin, 2016-04-08 There are few more contentious issues than the relation of faith to power or the suggestion that religion is irrational compared with politics and peculiarly prone to violence The former claim is associated with Juergen Habermas and the latter with Richard Dawkins In this book David Martin argues against Habermas that religion and politics share a common mythic basis and that it is misleading to contrast the rationality of politics with the irrationality of religion In contrast to Richard Dawkins and New Atheists generally Martin argues that the approach taken is brazenly unscientific and that the proclivity to violence is a shared feature of religion nationalism and political ideology alike rooted in the demands of power and social solidarity The book concludes by considering the changing ecology of faith and power at both centre and periphery in monuments places and spaces      Contemporary Encounters in Gender and Religion Lena Gemzöe, Marja-Liisa

Keinänen, Avril Maddrell, 2016-11-16 The fields of gender and religious studies have often been criticized for neglecting to engage with one another and this volume responds to this dearth of interaction by placing the fields in an intimate dialogue Taking a multi disciplinary approach and drawing on feminist scholarship the book undertakes theoretical and empirical explorations of relational and co constitutive encounters of gender and religion Through varied perspectives the chapters address three interrelated themes religion as practice the relationship between religious practice and religion as prescribed by formal religious institutions and the feminization of religion in Europe      **Religion Today** Ross Aden, 2012-10-18

Introduces students to key concepts in religious studies through a compelling problem solving framework This new textbook features the following dynamic case studies opening each chapter that teach critical thinking skills and engage students in contemporary religious issues such as the intersection of science and religion a wide range of examples from world religions throughout the text clear introductions to classic and contemporary theories of religion both Eastern and Western and chapter summaries that include essential concepts a list of key terms and questions for individual reflection or class discussion Religion today guides students in understanding the complex role that religion plays in the world while also building a solid foundation in both religious studies and problem solving skills      **Review of Religious Research**, 1992

*Theorising Religion* John Walliss, 2017-10-24 Religion is controversial and challenging Whilst religious forces are powerful in numerous societies they have little or no significance for wide swaths of public or private life in other places The task of theoretical work in the sociology of religion is therefore to make sense of this apparently paradoxical situation in which religion is simultaneously significant and insignificant The chapters of Part One consider the classical roots of ideas about religion that dominated sociological ways of thinking about it for most of the twentieth century Each chapter offers sound reasons for continuing to find theoretical inspiration and challenge in the sociological classics whilst also seeking ways of enhancing and extending their relevance to religion today Part Two contains chapters that open up fresh perspectives on aspects of modern post modern and ultra modern religion without necessarily ignoring the classical legacy The chapters of

Part Three chart new directions for the sociological analysis of religion by fundamentally re thinking its theoretical basis by extending its disciplinary boundaries and by examining previously overlooked topics **Religion and Education** Gert Biesta, Patricia Hannam, 2020-11-30 As diversity increases across the world there is renewed interest in the place of religion in the public sphere Is religion a private matter or of concern to everyone even if they are not religious What should religious education look like in the public sphere Is religious education something for everyone in all schools What is educational about religious education What is the justification for religious education How do we make sense of religion itself bearing in mind the wide variety of views and traditions The chapters in Religion and Education The Forgotten Dimensions of Religious Education deal with these questions focusing particularly on the two constituting elements of religious education religion and education Rather than discussing curriculum pedagogy and assessment the authors delve into more fundamental questions and concerns Through this they provide a range of different responses to the question of whether religion and education may have become the forgotten dimensions of contemporary religious education Covering different educational views and traditions and exploring a range of different religious ideas traditions and practices whilst connecting this all to the challenge of religious education in the public sphere this book seeks to make a contribution to the ongoing conversation about the importance of religious education for all **David Martin and the Sociology of Religion** Hans Joas, 2018-06-14 David Martin is a pioneer of a political sociology of religion that integrates a combined analysis of nationalism and political religions with the history of religion He was one of the first critics of the so called secularization thesis and his historical orientation makes him one of the few outstanding scholars who have continued the work begun by Max Weber and Emile Durkheim This collection provides the first scholarly overview of his hugely influential work and includes a chapter written by David Martin himself Starting with an introduction that contextualises David Martin s theories on the sociology of religion both currently and historically this volume aims to cover David Martin s lifework in its entirety An international panel of contributors sheds new light on his studies of particular geographical areas Britain Latin America Scandinavia and on certain systematic fields secularization violence music Pentecostalism the relation between sociology and theology David Martin s concluding chapter addresses the critical points raised in response to his theories This book addresses one of the key figures in the development of the sociology of religion and as such it will be of great interest to all scholars of the sociology of religion **On Holy Ground: The Theory and Practice of Religious Education** Liam Gearon, 2013-07-18 Religion has had notable and renewed prominence in contemporary public and political life Religious questions have also been freshly examined in philosophy and theology the natural sciences the social sciences psychology phenomenology politics and the arts These fields reflect complex multi disciplinary understandings of religion some hostile some accommodating For religious education this has all contributed to its own international renaissance Religious education in ensuring it is contemporary shares with these fields the same criticality the same distance between the study of religion and the religious life Yet what are the grounds of

this modern religious education Through a systematic historical and contemporary cross disciplinary analysis answering this question is the ambitious task of the book Chapters include philosophy theology and religious education the natural sciences and religious education the social sciences and religious education psychology spirituality and religious education phenomenology and religious education the politics of religious education the aesthetics of religious education The central problem of all modern religious education remains this what are the grounds of religious education when religious education is no longer grounded in the religious life in the life of the holy Although this primarily appears to be an epistemological problem it soon becomes a moral and existential one The book will be of key interest to teachers theorists and researchers working in religious education

*Circling the Elephant* John J. Thatamanil, 2020-06-02 Christian theologians have for some decades affirmed that they have no monopoly on encounters with God or ultimate reality and that other religions also have access to religious truth and transformation If that is the case the time has come for Christians not only to learn about but also from their religious neighbors *Circling the Elephant* affirms that the best way to be truly open to the mystery of the infinite is to move away from defensive postures of religious isolationism and self sufficiency and to move in vulnerability and openness toward the mystery of the neighbor Employing the ancient Indian allegory of the elephant and blind folded men John J Thatamanil argues for the integration of three often separated theological projects theologies of religious diversity the work of accounting for why there are so many different understandings of the elephant comparative theology the venture of walking over to a different side of the elephant and constructive theology the endeavor of re describing the elephant in light of the other two tasks *Circling the Elephant* also offers an analysis of why we have fallen short in the past Interreligious learning has been obstructed by problematic ideas about religion and religions Thatamanil argues while also pointing out the troubling resonances between reified notions of religion and race He contests these notions and offers a new theory of the religious that makes interreligious learning both possible and desirable Christians have much to learn from their religious neighbors even about such central features of Christian theology as Christ and the Trinity This book envisions religious diversity as a promise not a problem and proposes a new theology of religious diversity that opens the door to robust interreligious learning and Christian transformation through encountering the other
