## **Religion That Harms Religion That Heals:**

**Religion That Heals, Religion That Harms** James L. Griffith, 2010-08-09 From James L. Griffith well known for his work on harnessing the healing potential of religion and spirituality this book helps clinicians to intervene effectively in situations where religion is causing harm Vivid examples illustrate how religious beliefs and practices may propel suicide violence self neglect or undue suffering in the face of medical or emotional challenges Griffith also unravels the links between psychiatric illness and distorted religious experience He demonstrates empathic respectful ways to interview patients who disdain contact with mental health professionals yet whose religious lives put themselves or others at risk The book incorporates cutting edge research on the psychology of religion and social neuroscience Religion: A Clinical Guide for Nurses Elizabeth Johnston Taylor, 2012-03-07 Named a 2012 PROSE Award Honorable Mention in the Nursing views on health and suffering explanations for disease beliefs and practices related to birthing childrearing and dying healing rituals corporate religious resources for the sick and more Prefacing this information are chapters discussing clinical aspects of addressing religion at the bedside These include strategies for sensitive and respectful communication about religion with patients assessing a patient s religious beliefs supporting bedside rituals that are part of a patient s religion and understanding ethical and legal considerations The book also provides a comprehensive list of additional resources Key Features Provides quick access to information about the 20 plus families of religions most prevalent among Americans and others in English speaking First World countries Presents practical and concise information about various religions in a succinct table format Offers detailed communication techniques for clinicians who are uncomfortable discussing religion with patients Includes techniques for self assessment of religious views and values and how these can affect care Presents legal and ethical aspects of addressing religiosity in patient care *Between Jesus and the Black Dog* Michael Rothery, Anne-Marie McLaughlin, 2021-07-20 Christians have a special worldview affecting how they experience depression the common cold afflicting our emotional well being and that is the focus of this short book In it Christians and the important people in their support networks will read about the good news and the bad the blessings and pitfalls that a Christian faith brings to the problem of managing depressions The book is hopeful without being simplistic and it is steadfast in its commitment to the goal of human flourishing in a problematic world **The Search for Wholeness and Diaspora Literacy in Contemporary African American Literature** Silvia Castro-Borrego, 2011-05-25 This volume has as a cohesive argument the exploration of the different manifestations of the search for wholeness and spirituality in the writings of contemporary African American women writers covering different literary genres such as fiction both novels and short stories drama and poetry Together with the issue of spirituality the African American search for wholeness is analyzed as a source of creativity and agency As expressed in the contemporary literature of black women writers starting in the 1980s the search for wholeness reflects a beauty realized through the healing of the spirit and the body and is a process that takes on

dimensions of reconciling the past and the present the mythical and the real the spiritual and the physical all in the context of an emerging world view that welcomes synthesis and expects both synthesis and generative contradictions The book will be a valuable collection for scholars of African American literature comparative American Ethnic literature American literature and spirituality as well as women s studies In addition it will be an important text for both undergraduate and graduate students in those fields As Professor Johnnella Butler 2006 points out the African American search for wholeness is tightly linked to the search for freedom and agency Ever since the 19th century African American writers have given expression to an African American self which functions in Western civilization simultaneously as a colonized other and an assertive self Due to the continuous ordeal of the African Diaspora this self is caught in between the binaries proposed by the material and the spiritual world seeking a balance where the person can become whole The search for wholeness feeds from cultural roots that imply the presence of ancestral spiritualism rememory and double consciousness Contemporary black women writers reflect the metaphor of building spiritual bridges seeking the possibilities of building a bridge to the archetypal African past that is carried in their memories as a presence that offers sustenance via spiritual reconnection Their works seek to bridge the gap between the myths and traditions of the past and contemporary African American culture The texts included in this collection are examples of writing as an exercise of what V v Clark calls Diaspora literacy The texts written by contemporary African American women writers explicitly show how to recognize and read the cultural signs left scattered along the road of progress In this way material acquisition is achieved along with cultural dispossession becoming a metaphor for the history of the African in America The powerful message is that one should not exclude the other *Faith That Hurts, Faith That Heals* Stephen Arterburn, Jack Felton, 1992

Melchin, 2022-03-31 The clash of religion and politics has been a steady source of polarization in North America In order to think wisely and constructively about the spiritual dimension of our political life there is need for an approach that can both maintain the diversity of belief and foster values founded on the principles of religion In *Spiritualizing Politics without Politicizing Religion* James R Price and Kenneth R Melchin provide a possible framework approaching issues in politics via a profile of Sargent Shriver 1915 2011 an American diplomat politician and a driving force behind the creation of the Peace Corps Focusing on the speeches Shriver delivered in the course of his work to advance civil rights and build world peace Price and Melchin highlight the spiritual component of his efforts to improve institutional structures and solve social problems They contextualize Shriver s approach by contrasting it with contemporary landmark decisions of the U S Supreme Court on the role of religion in politics In doing so *Spiritualizing Politics without Politicizing Religion* explains that navigating the relationship of religion and politics requires attending to both the religious diversity that politics must guard and the religious involvements that politics needs to do its work **Ethical**
