Religions For Peace A Call For Unity To The People Of The World:

The Role of Religion in Peace and Conflict Zoran Matevski, 2021-02-03 This book explains the role of religion in peace and conflict in contemporary European society It confirms the idea that multiculturalism is a dead concept because it is too static The main link between all of the chapters of the book is the idea that European society is segregated especially along the axes of religious and ethnic belonging Because of this religious nationalism which is especially characteristic for Christian and Islamic religious institutions is becoming stronger The much more dynamic principle of interculturalism is based on this concept The book presents a message to the political and religious elites of Europe to build one society for all and interculturalism instead of furthering the ideologies of ethno nationalism and religious nationalism A part of this text is dedicated to the situation in Africa in comparison to Europe *Star of the West* ,1927 **Peace on Earth** Thomas Matyók, Maureen Flaherty, Hamdesa Tusó, Jessica Senehi, Sean Byrne, 2013-12-16 Peace on Earth The Role of Religion in Peace and Conflict Studies provides a critical analysis of faith and religious institutions in peacebuilding practice and pedagogy The work captures the synergistic relationships among faith traditions and how multiple approaches to conflict transformation and peacebuilding result in a creative process that has the potential to achieve a more detailed view of peace on earth containing breadth as well as depth Library and bookstore shelves are filled with critiques of the negative impacts of religion in conflict scenarios Peace on Earth The Role of Religion in Peace and Conflict Studies offers an alternate view that suggests religious organizations play a more complex role in conflict than a simply negative one Faith based organizations and their workers are often found on the frontlines of conflict throughout the world conducting conflict management and resolution activities as well as advancing peacebuilding initiatives **International Journal of Religious Education** ,1927

Forming a Global Community Joseph de Rivera,2022-10-18 To address global problems such as pandemics warming economic inequality mass migration and widespread terrorism Joseph de Rivera argues that we must form a global community A community of eight billion humans is difficult to conceive However it can be imagined and created if we transform our understanding of who humans are and what community entails We can understand who persons are how they are motivated and how a community can be conceived in a way that offers an alternative to individualism and collectivism The mutualism that is proposed provides a moral compass for navigating the challenges that confront us and encourages specific governing structures political economies and rituals that will further the formation of a global community Based on the philosophical analysis of John Macmurray the author s argument relies on an extensive review of the current literature on self personhood emotional motivation social identity forms of community and religious and secular rituals Interdisciplinary in nature it aims to direct philosophy and the social sciences to the challenges of globalism and the creation of a global
