International Bibliography of Sikh Studies Rajwant Singh Chilana, 2006-01-16 The International Bibliography of Sikh Studies brings together all books, composite works, journal articles, conference proceedings, theses, dissertations, project reports and electronic resources produced in the field of Sikh Studies until June 2004, making it the most complete and up-to-date reference work in the field today. One of the youngest religions of the world, Sikhism has progressively attracted attention on a global scale in recent decades. An increasing number of scholars is exploring the culture, history, politics and religion of the Sikhs. The growing interest in Sikh Studies has resulted in an avalanche of literature which is now for the first time brought together in the International Bibliography of Sikh Studies. This monumental work lists over 10,000 English language publications under almost 30 subheadings, each representing a subfield in Sikh Studies. The Bibliography contains sections on a wide variety of subjects such as Sikh gurus, Sikh philosophy, Sikh politics and Sikh religion. Furthermore, the encyclopedia presents an annotated survey of all major scholarly work on Sikhism and a selective listing of electronic and web-based resources in the field. Author and subject indices are appended for the reader's convenience.

*The Sikhs* W. H. McLeod, 1989 The Sikhs, a colorful and controversial people about whom little is generally known, have been the subject of much hypothetical speculation. Their non-conformist behavior, except to their own traditions and their fierce independence, even to demanding autonomy, have recently attracted world-wide attention. Hew McLeod, internationally known scholar of Sikh studies, provides a just and accurate description in his introduction to this religious community from northern India, now numbering about sixteen million people, exploring their history, doctrine and literature. *The Sikhs* begins by giving an overview of the people's history, then covers the origins of the Sikh tradition, dwelling on controversies surrounding the life and doctrine of the first Master Guru Nanak (1469-1539). The book surveys the subsequent life of the community with emphasis on the founding of the Khalsa, the order that gives to Sikhs the insignia by which they are best known. The remaining sections concern Sikh doctrine, the problem of who should be regarded as a Sikh, and a survey of Sikh literature. Finally, the book considers the present life of the community, its dispersion around the world to Asia, Australasia, North America, Africa and Europe, and its involvement in the current trials of the Punjab. Sikh culture is believed to have been settled and unchanging from the time of the Gurus onwards. *The Sikhs*, a major new work by a leading authority, reveals that this is a very misleading view. McLeod treats a variety of questions sympathetically and in so doing he establishes a new understanding for students of religion and for all those interested in current events in India.

**Sikhism** Jennifer Burton, 2017 Sikhism originated in the Indian region known as Punjab during the fifteenth century. Sikhs follow the teachings of ten holy men known as gurus who lived between the years of 1469 and 1708. The gurus taught that all people were equal.

Sikhism: A Guide for the Perplexed Arvind-Pal Singh Mandair, 2013-06-06 Sikhism's short but relatively eventful history provides a fascinating insight into the working of misunderstood and seemingly contradictory themes such as politics and religion violence and mysticism culture and spirituality orality and textuality public sphere versus private sphere tradition and modernity This book presents students with a careful analysis of these complex themes as they have manifested themselves in the historical evolution of the Sikh traditions and the encounter of Sikhs with modernity and the West in the philosophical teachings of its founders and their interpretation by Sikh exegetes and in Sikh ethical and intellectual responses to contemporary issues in an increasingly secular and pluralistic world Sikhism A Guide for the Perplexed serves as an ideal guide to Sikhism and also for students of Asian studies Sociology of Religion and World Religions *World Religions* Gabriel Arquilevich, 1995 Curriculum guide to teaching about the world's more prominent religions to help students achieve a greater tolerance of different cultures for grade 6 but could be used in grades 5-8 Encyclopedia of the World's Religions Robert Charles Zaehner, 1997 Covers many world religions such as Judaism Christianity Islam Zoroastrianism Hinduism Jainism Buddhism Shinto Confucianism Taoism Sikhism Dialectical materialism etc **The Penguin Handbook of the World's Living Religions** John R. Mandair,Christopher Shackle,Gurharpal Singh,2013-12-16 This book brings together new approaches to the study of Sikh religion culture and ethnicity being pursued in the diaspora by Sikh academics in western universities in Britain and North America An important aspect of the volume is the diversity of topics

that are engaged including film and gender theory theology hermeneutics deconstruction semiotics and race theory and brought to bear on the individual contributors specialism within Sikh studies thereby helping to explode previously static dichotomies such as insider vs outsider or history vs tradition The volume should have strong appeal both to an academic market including students of politics religious studies and South Asian studies and to a more general English speaking Sikh readership

Sikh Nationalism and Identity in a Global Age Giorgio Shani, 2007-12-06 Sikh Nationalism and Identity in a Global Age examines the construction of a Sikh national identity in post colonial India and the diaspora and explores the reasons for the failure of the movement for an independent Sikh state Khalistan Based on a decade of research it is argued that the failure of the movement to bring about a sovereign Sikh state should not be interpreted as resulting from the weakness of the communal ties which bind members of the Sikh nation together but points to the transformation of national identity under conditions of globalization Globalization is perceived to have severed the link between nation and state and through the proliferation and development of Information and Communications Technologies ICTs has facilitated the articulation of a transnational diasporic Sikh identity It is argued that this diasporic identity potentially challenges the conventional narratives of international relations and makes the imagination of a post Westphalian community possible Theoretically innovative and interdisciplinary in approach it will be primarily of interest to students of South Asian studies political science and international relations as well as to many others trying to come to terms with the continued importance of religious and cultural identities in times of rapid political economic social and cultural change
