Religions On Cd Rom:

The Encyclopedia of Religion on CD-ROM Mircea Eliade, 1996-06-01 Collection of 2 734 articles about major religious concepts and topics including Judaism Christianity Buddhism and Islam *Invented Religions* Carole M. Cusack, 2016-05-06 Utilizing contemporary scholarship on secularization individualism and consumer capitalism this book explores religious movements founded in the West which are intentionally fictional Discordianism the Church of All Worlds the Church of the SubGenius and Jediism Their continued appeal and success principally in America but gaining wider audience through the 1980s and 1990s is chiefly as a result of underground publishing and the internet This book deals with immensely popular subject matter Jediism developed from George Lucas Star Wars films the Church of the Flying Spaghetti Monster founded by 26 year old student Bobby Henderson in 2005 as a protest against the teaching of Intelligent Design in schools Discordianism and the Church of the SubGenius which retain strong followings and participation rates among college students The Church of All Worlds focus on Gaia theology and environmental issues makes it a popular focus of attention The continued success of these groups of Invented Religions provide a unique opportunity to explore the nature of late post modern religious forms including the use of fiction as part of a bricolage for spirituality identity formation and personal orientation **Religion and Cultural Studies** Susan L. Mizruchi, 2021-01-12 Americans have never been more religious than they are now at the dawn of the twenty first century By all reports attendance rates at traditional places of worship are high and rising the influx of new immigrant religions has revitalized standard faiths and drawn in those who had strayed from them Popular television shows like The Simpsons feature characters who go to church every Sunday and speak to God special events like the 1998 outdoor mass in Worcester Massachusetts for a comatose girl believed to have miraculous powers attract thousands of people This collection is both part of this ferment and an intellectual reflection upon it Religion and Cultural Studies features essays by major scholars from the fields of anthropology history literary criticism and religion in order to enrich critical discourse about religion and culture Despite the variety of disciplines represented by this group of scholars and the variety of cultures explored in their essays from fifteenth century Flemish asceticism and nineteenth century African American spiritualism to Russian blood libel trials and Alien Abduction Reports in the twentieth century their common ground is the question of religion s place in current American academic analysis and more broadly in American life today The volume s range of vocabulary and subject matter is aimed at vitalizing scholarly interest in the field of religion and cultural studies and deepening intellectual inquiry in the contemporary academy The contributors are Eytan Bercovitch Karen McCarthy Brown Gillian Feeley Harnik Richard Wightman Fox Jenny Franchot Giles Gunn Geoffrey Galt Harpham Bruce B Lawrence Jack Miles Susan L Mizruchi and Jonathan Z Smith **Religion & Spirituality in the Public School Curriculum** Ronald D. Anderson, 2004 The heart of a truly complete education lies in individual students integration of understandings from the many dimensions of their lives religious academic and personal The general failing of formal schooling to achieve such an

education is linked to the ongoing struggle over the role of religion particularly in public education where the teaching of evolution discussions of sexual practice and various literary interpretations pose a dilemma for schools in our diverse and pluralistic society with its constitutional constraints With careful attention to both the full sweep of the purposes of education and alternative theories of curriculum this book charts a path for public schools in resolving this dilemma CD-ROM Funder ,1995

The Invention of World Religions Tomoko Masuzawa,2005-05-15 The idea of world religions expresses a vague commitment to multiculturalism Not merely a descriptive concept world religions is actually a particular ethos a pluralist ideology a logic of classification and a form of knowledge that has shaped the study of religion and infiltrated ordinary language In this ambitious study Tomoko Masuzawa examines the emergence of world religions in modern European thought Devoting particular attention to the relation between the comparative study of language and the nascent science of religion she demonstrates how new classifications of language and race caused Buddhism and Islam to gain special significance as these religions came to be seen in opposing terms Aryan on one hand and Semitic on the other Masuzawa also explores the complex relation of world religions to Protestant theology from the hierarchical ordering of religions typical of the Christian supremacists of the nineteenth century to the aspirations of early twentieth century theologian Ernst Troeltsch who embraced the pluralist logic of world religions and by so doing sought to reclaim the universalist destiny of European modernity

Religions of the World (CD-ROM). ,1996 *Religion and Illness* Annette Weissenrieder,Gregor Etzelmuller,2016-11-04 What are the relevant conceptualities and terminologies marking the coupling of religion and medical interpretations of illness in different religions such as Judaism Islam Buddhism and Christianity How do religious orientations influence courses of a disease How do experiences of illness change images of the divine in late modernity This collection of essays from a symposium held at the International Research Institute of the University of Heidelberg examines connections between religious and medical interpretations of illness in different cultures in order to suggest criteria for coupling religion and medicine in ways that enhance rather than diminish life By discerning which relationships between religion and medicine appear to be beneficial and which harmful the book as a whole proposes criteria that are not limited to a single scientific approach cultural tradition or time period such as the present The book has four parts which deal with Islamic medicine Chinese medicine and the relationship between religion and medicine in both Jewish and Christian traditions All chapters cover from antiquity to the present
