*Religion, Language, and the Human Mind* Paul Chilton, Monika Kopytowska, 2018-04-03 What is religion How does it work Many natural abilities of the human mind are involved and crucial among them is the ability to use language This volume brings together research from linguistics cognitive science and neuroscience as well as from religious studies to understand the phenomena of religion as a distinctly human enterprise The book is divided into three parts each part preceded by a full introductory chapter by the editors that discusses modern scientific approaches to religion and the application of modern linguistics particularly cognitive linguistics and pragmatics Part I surveys the development of modern studies of religious language and the diverse disciplinary strands that have emerged Beginning with descriptive approaches to religious language and the problem of describing religious concepts across languages chapters introduce the turn to cognition in linguistics and also in theology and explore the brain s contrasting capacities in particular its capacity for language and metaphor Part II continues the discussion of metaphor the natural ability by which humans draw on basic knowledge of the world in order to explore abstractions and intangibles Specialists in particular religions apply conceptual metaphor theory in various ways covering several major religious traditions Buddhism Christianity Hinduism Islam and Judaism Part III seeks to open up new horizons for cognitive linguistic research on religion looking beyond written texts to the ways in which language is integrated with other modalities including ritual religious art and religious electronic media Chapters in Part III introduce

**Religious Knowledge** James Kellenberger,2022-11-30 This book addresses the place of religious knowledge in religion particularly within Christianity The book begins by examining the difference between the general concepts of knowledge and belief the relation between faith and knowledge and reasons why belief as faith and not knowledge is central to the Abrahamic religions The book explores the ambivalence about religious knowledge within Christianity Some religious thinkers explicitly accepted and sought religious knowledge as did St Thomas Aquinas while others notably S ren Kierkegaard cast knowledge and seeking it as incompatible with faith The book also examines two antithetical religious intuitions about knowledge both at home in the Christian tradition For one faith requires a struggle with doubt For the other faith requires a certainty that excludes doubt For the first religious knowledge would destroy faith For the second religious knowledge is compatible with faith and completes it Though the book focuses on the Christian tradition it also considers other traditions including a chapter on the place of religious knowledge in nontheistic religious traditions The final chapter examines how coming to Wisdom as personified in the Jewish and Christian traditions may be distinct from attaining religious knowledge

**Brümmer on Meaning and the Christian Faith** Vincent Brümmer, 2019-10-01 This volume presents a wide ranging selection from the writings of a leading contemporary philosophical theologian Vincent Brümmer In his many books and articles Brümmer has demonstrated how the tools of philosophical analysis are not only fruitful but also essential for dealing with the central issues of systematic theology The title of this volume *Meaning and the Christian Faith* highlights two characteristic themes that recur throughout the many writings of Vincent Brümmer Much of his work has been devoted to exploring the meaning of the Christian faith and especially of its central claim that God is a personal being whose fellowship believers may enjoy On the other hand Brümmer has also shown that religious belief should not be understood as an explanatory theory but rather as a way in which believers understand the meaning of their lives and their experience of the world and direct their lives accordingly Thus in the Christian tradition believers claim that their lives are meaningful because they seek to attain ultimate happiness in the love of God In the introductory sections throughout this volume Vincent Brümmer describes how he came to pay attention to the various themes dealt with in his writings and explains why he came to deal with them in the ways he did

*Science and the Study of God* Alan G. Padgett, 2003 For many today religion and science are seen as enemies battling for human hearts and minds In this new book Alan Padgett shows that they can and should work together in developing a worldview that is at once spiritually meaningful and scientifically sound Pursuing a perspective that he calls the mutuality model Padgett highlights the contributions that both religion and science make to a full understanding of the world and our place in it He argues convincingly that the natural sciences and theology can rationally influence each other without giving up their important distinctives and methods The book explores the nature of informal reason and worldviews the character of theology as a spiritual and academic discipline and the question of what counts as natural science Along the way Padgett discusses such topics as thermodynamics time resurrection and the historical Jesus as examples of the powerful model that he is developing

***A Grammar of Christian Faith*** Joe R. Jones, 2002-06-03 *A Grammar of Christian Faith* is a two volume set that aims to confront the widespread disarray in the language and practices of Christian faith today As a grammar it explains how Christian faith

provides special ways of speaking and acting that make sense of human life by giving it meaning practicality and hope It advances the thesis that learning how to speak Christian language in worship and life is crucial to learning how to be a Christian Rather than supposing that Christian language and theology need continual updating in order to be relevant to the world Jones urges the church to recover anew how Christian concepts and understanding are intended to form Christian life in all its rich depths Construing theology as confessional theology in the context of the church Jones understands the church as that liberative and redemptive community called into being by the Gospel of Jesus Christ to witness in word and deed the triune God for the benefit of the world The full range of doctrinal themes that are deemed essential to the witness of the church are explored including clear explanations of why they are essential and how they are to be understood In pursuit of a truthful and beneficial witness of the church the work centers on a trinitarian understanding of God in which God freely and lovingly interacts with the world as Creator Reconciler and Redeemer The work throughout affirms the belief that the gracious triune God is the Ultimate Companion who will redeem all creation
