Religious Human Rights in Global Perspective John Witte, Johan D. van der Vyver, 2023-07-24 In this Dickensian century of human rights the world has cultivated the best of religious rights protections but witnessed the worst of religious rights abuses In this volume Jimmy Carter John T Noonan Jr and a score of leading jurists assess critically and comparatively the religious rights laws and practices of the international community and of selected states in the Atlantic continents This volume and its companion *Religious Human Rights in Global Perspective Religious Perspectives* are products of an ongoing project on religion human rights and democracy undertaken by the Law and Religion Program at Emory University

Eastern Europe Sabrina P. Ramet, 1998 Eastern Europe addresses the emergence of uncertain pluralism in the region following the disintegration of the communist regimes in 1989 Taking a broad historical approach the volume considers issues and challenges that have marked Eastern Europe from 1939 through World War II and the era of socialism up to the present Eight comprehensive country studies are augmented by detailed assessments of economic developments security issues religious currents cultural policies and gender relations in the region

Orthodox Christianity and the Politics of Transition Tornike Metreveli, 2020-11-29 This book discusses in detail how Orthodox Christianity was involved in and influenced political transition in Ukraine Serbia and Georgia after the collapse of communism Based on original research including extensive interviews with clergy and parishioners as well as historical legal and policy analysis the book argues that the nature of the involvement of churches in post communist politics depended on whether the interests of the church for example in education the legal system or economic activity were accommodated or threatened if accommodated churches confined themselves to the sacred domain if threatened they engaged in daily politics If churches competed with each other for organizational interests they evoked the support of nationalism while remaining within the

religious domain *Nihil Obstat* Sabrina P. Ramet,1998 Politics religion and social change in the post communist world of Eastern Europe and Russia **Spirit of the Totem** Irena Maryniak,1995 The book presents an original interdisciplinary analysis of religious and mythological perspectives in fiction published in the Soviet Union between the mid 1960s and the mid 1980s In doing so it points to ways in which anthropological theory can be used as a framework for literary criticism It also shows how in the two decades before perestroika religion and mythology served as alternative models for the intellectual and political reorientation of Soviet society Selected works are explored with reference to a formative debate in anthropological studies on the nature and development of religion based on Edward B Tylor s theory of animism and Emile Durkheim s theory of totemism It is shown how the animist totemist dichotomy highlighted by the controversy is reflected in Russian religious thought before 1917 and particularly in the literature of the Soviet era Within the framework of this debate a selection of novels is discussed in the light of a range of mythological and religious systems Attention is drawn to the connection between Valentin Rasputin s religious vision and traditional Siberian beliefs particularly those of the Buryat The Georgian novel *Data Tutashkia* by Chabua Amiredzhibi is analysed with reference to Zoroastrian thought Daniil Granin s *Kartina* The Picture serves as an example of a work where in accordance with Tylor s theory notions of art and beauty take on an animist quality It is argued that early fiction by Chingiz Aitmatov reveals a tension between animist perceptions and the totemic understanding of religion and mirrors aspects of pre Islamic Central Asian religious tradition The writing of Vladimir Tendriakov offers an example of a vision divided between an awareness of Christian dilemmas and loyalty to Marxist Leninist sociological models The study also shows how Durkheim s theory of religion as an expression of a group s awareness of its identity can be related to ideas put forward by Russian nationalist writers Iurii Bondarev Sergei Alekseev and Vasiliï Belov It suggests that examples of fiction by Petr Proskurin and later works by Chingiz Aitmatov and Vladimir Tendriakov indicate revived interest in the God building theory of Maksim Gor kii and Anatolii Lunacharskii In conclusion the book argues that subtextual religious and mythological narratives in Soviet fiction published in the years between the fall of Khrushchev and the Millennium of Christianity in Rus provided a model for new literary discourse under perestroika and for subsequent political transformations Antireligious Activities in the Soviet Union and in Eastern Europe United States. Congress. House. Committee on Foreign Affairs. Subcommittee on Europe,1965 Investigates activities of the Soviet Union and its allies regarding religious freedom especially relating to alleged Jewish persecution **Slavic Review** ,1994 American quarterly of Soviet and East European studies varies Orthodoxy and the Cold War L. Leustean,2008-12-10 Explores the dynamics between Orthodoxy and politics in Romania providing an accessible narrative on church state relations from the establishment of the state in 1859 to the rise of Ceau escu in 1965 The book argues that Romanian national communism had an ally in a strong Church and analyzes religious diplomacy with actors in the West **1993** Patt Leonard,Rebecca Routh,1996 Journal articles books book chapters book reviews dissertations and selected government

publications on East Central Europe and the former Soviet Union published in the United States and Canada *Balkan Idols* Vjekoslav Perica, 2002-07-11 Reporting from the heartland of Yugoslavia in the 1970s Washington Post correspondent Dusko Doder described a landscape of Gothic spires Islamic mosques and Byzantine domes A quarter century later this landscape lay in ruins In addition to claiming tens of thousands of lives the former Yugoslavia's four wars ravaged over a thousand religious buildings many purposefully destroyed by Serbs Albanians and Croats alike providing an apt architectural metaphor for the region's recent history Rarely has the human impulse toward monocausality the need for a single explanation been in greater evidence than in Western attempts to make sense of the country's bloody dissolution From Robert Kaplan's controversial *Balkan Ghosts* which identified entrenched ethnic hatreds as the driving force behind Yugoslavia's demise to NATO's dogged pursuit and arrest of Slobodan Milosevic the quest for easy answers has frequently served to obscure the Balkans' complex history Perhaps most surprisingly no book has focused explicitly on the role religion has played in the conflicts that continue to torment southeastern Europe Based on a wide range of South Slav sources and previously unpublished often confidential documents from communist state archives as well as on the author's own on the ground experience *Balkan Idols* explores the political role and influence of Serbian Orthodox Croatian Catholic and Yugoslav Muslim religious organizations over the course of the last century Vjekoslav Perica emphatically rejects the notion that a clash of civilizations has played a central role in fomenting aggression He finds no compelling evidence of an upsurge in religious fervor among the general population Rather he concludes the primary religious players in the conflicts have been activist clergy This activism Perica argues allowed the clergy to assume political power without the accountability faced by democratically elected officials What emerges from Perica's account is a deeply nuanced understanding of the history and troubled future of one of Europe's most volatile regions **Central and South-Eastern Europe 2004** Europa

Plantak, 2016-07-27 The relationship between the Adventist church and society at large has always been ambiguous One reason for this has been the church's inarticulate social ethics While the church upheld the concept of human dignity promoted religious liberty and sided with the poor nationalism and racism developed among its members Women in the church were also unfairly treated Zdravko Plantak confronts this problem head on He begins by looking at the church's history theology and ethics in order to discover reasons for the inconsistencies in its approach to human rights and then moves on to propose a more comprehensive approach to its social ethics **Pope John Paul II and the Church** Peter Hebblethwaite, 1995 The National Catholic Reporter editors have selected the most significant of Peter Hebblethwaite's articles on the life and times and church of Pope John Paul II They were stirring years of world change and papal trips and not a little
